

Notice of meeting of Discretionary Charges in Waste Management Scrutiny Task Group

To: Councillors Healey, Hodgson and Orrell

Date: Tuesday, 28 October 2014

Time: 5.30 pm

Venue: The Frank Green Room - 2nd Floor, West Offices

(S015)

AGENDA

1. Appointment of Chair

To appoint a Chair of the Task Group.

2. Declarations of Interest

Members are asked to declare:

- Any personal interests not included on the Register of Interests
- Any prejudicial interests or
- Any disclosable pecuniary interests

which they may have in respect of business on this agenda.

3. Public Participation

At this point in the meeting, members of the public who have registered their wish to speak regarding an item on the agenda or an issue within the Committee's remit can do so. The deadline for registering is **Monday 27 October 2014 at 5.00pm.**

Filming or Recording Meetings

Residents are welcome to photograph, film or record Councillors and Officers at all meetings open to the press and public. This includes the use of social media reporting, i.e. tweeting. Anyone wishing to film, record or take photos at any public meeting should contact the Democracy Officer (whose contact details are at the foot of this agenda) in advance of the meeting.

The Council's protocol on Webcasting, Filming & Recording of Meetings ensures that these practices are carried out in a manner both respectful to the conduct of the meeting and all those present. It can be viewed at http://www.york.gov.uk/downloads/download/3130/protocol_for_webcasting_filming_and_recording_of_council_meetings

4. Report on Discretionary Charges in Waste (Pages 1 - 42) Management

This report provides information in support of the ongoing scrutiny review of discretionary charges in waste management and asks the Task Group to formally agree the review remit and workplan.

5. Urgent Business

Any other business which the Chair considers urgent under the Local Government Act 1972.

Democracy Officer:
Name: Jayne Carr
Contact Details:
Telephone – (01904) 552030
Email – jayne.carr@york.gov.uk

For more information about any of the following please contact the Democratic Services Officer responsible for servicing this meeting:

- Registering to speak
- · Business of the meeting
- Any special arrangements
- · Copies of reports and
- For receiving reports in other formats

Contact details are set out above.

Discretionary Charges Scrutiny Review Task GroupReport of the Assistant Director for Governance & ITT

28 October 2014

Report on Discretionary Charges in Waste Management

Summary

1. This report provides information in support of the ongoing scrutiny review of discretionary charges in waste management, and asks the Task Group to formally agree the review remit and workplan.

Background to Review

- 2. In March 2014 the Community Safety Overview & Scrutiny Committee agreed a number of possible topics for scrutiny review during 2014/15. One suggestion was to carry out a review of Commercial Waste i.e. issues around shortfall in income and a reducing customer base. However the Assistant Director for Transport, Highways & Waste suggested it would be more beneficial to the work of officers if the Committee carry out a review of 'Discretionary Charges in Waste Management' as it would help the Council understand where it is in relation to other Authorities, and help identify the Council's position in support of the Place Based Services review due to be undertaken by officers during this municipal year.
- 3. In July 2014, the Committee received a scoping report for the proposed review of Discretionary Charges which provided an introduction to Discretionary Charging, some initial information on a number of charging schemes in operation nationally, and a number of other service areas that could be considered in a review of charging policy (see Annex A). These services included:
 - 4. The Committee agreed to proceed with the review, setting up this Task Group to carry out the review on its behalf. They also agreed the review should be completed in time to allow the findings to be fed into the forthcoming budget cycle.

Proposed Review Remit & Workplan

5. The proposed remit for the review is shown below:

Aim

To identify options for discretionary charging schemes suitable for introduction in York

Objectives:

- i. To identify national best practice in regard to levels of income generation and recycling performance etc
- ii. To understand the issues associated with specific charging schemes i.e. operational and financial
- iii. To model the possible impact of the introduction of a variety of discretionary charges in York
- iv. To consider what if any concessions might be appropriate as part of the introduction of discretionary charges in York
- 6. The proposed workplan for the review is shown below:

| | Review Objectives | Suggested Tasks | Meetings |
|-----|--|--|--|
| i | To identify national best practice in regard to levels of income generation and recycling performance etc. | Consider detailed information about schemes being operated by other LAs. To include details about concessions given to residents. Identify specific schemes for evaluation. | Meeting 1: 28 Oct 2014 |
| ii | To understand the issues associated with specific charging schemes i.e. operational and financial. | Investigate issues and impact linked with specific schemes identified in Objective 1. | Visits to other local authorities (optional) Workshop (with option of inviting guest speakers) |
| iii | To consider what if any concessions might be appropriate as part of the introduction of discretionary charges in York. | Identify specific schemes to model possible impact. | Meeting 2 |

| iv | To model the possible impact of the introduction of a variety of discretionary charges in York. | Evaluation of specific schemes identified in Objective 2 and 3. Based on evaluation of information gathered, visits to other local authorities and workshop: | Meeting 3 |
|----|---|---|-----------|
| | | a. Identify charging option(s) suitable for implementation in York. | |
| | | b. Identify review conclusions and appropriate draft recommendations | |
| V | Consider draft final rep | ort and draft recommendations. | Meeting 4 |

Information Gathered

7. Objective (i) – National Best Practice

A desktop study has been undertaken to compile general service information in regard to the bulky waste, clinical waste and gardening waste collection schemes being operated by 439 local authorities across the country – see Annex B.

- 8. In order to identify best practice, a more in depth analysis has been carried out for 44 local authorities including 16 Local Authorities in our Family Group and a selection of 28 top performing authorities from 2011/2012 or 2012/2013 (these are all identified within Annex B). A summary of the findings from this research is detailed below:
- 9. **Bulky Waste Collection:** All 44 local authorities provide bulky waste collections but there is a huge variation in the charges and the concessionary rates available.
- 10. There are four main types of bulky collection charging systems:
 - i. Flat rate fee with a limit on the number of items collected:
 - 15 authorities charge a flat rate for bulky collections
 - 2 have no limit on the number of items collected for that fee
 - Most collect between 3 and 6 items, we are the only authority collecting ten for a flat rate fee and are the most expensive

- 2 authorities offer the cheapest flat rate fee £15 but with no limit on number of items collected (Cheshire West & Chester, Calderdale)
- When broken down to the price per item, the lowest charges (excluding Cheshire West & Chester and Calderdale) are £2.66 (Darlington, max 6 items £16), £3.67 (CYC, max 10 items £36.75), £3.75 (East Lindsey, max 4 £15) and the highest charges are £8.83 (Swindon, max 3 items £26.50), £10.46 (Harborough, max 3 items, £31.40) and £12 (Bournemouth, max 3 items £36).
- ii. Single fee for the first item(s) + an extra charge for all additional items collected.
 - 15 authorities operate this charging system
 - 7 have no limit on the number of items collected for that fee, others collect either 1-3, 4,5, 6 or 7 items maximum
 - It's hard to offer any comparison between these authorities because the charges are so varied, but the **lowest single fee** is £12 (Rochford) and the **highest charge £42** (Suffolk Coastal).
 - There is less variation in charges for additional items, ranging from lowest £5 (Bury, Cotswold, South Cambridgeshire and South Oxfordshire) to highest £15 Surrey Heath and £16 Suffolk Coastal.
- iii. Banded fees according to numbers of items collected, e.g. 1 to 3 items, 4 to 6 items etc:
 - 11 authorities operate this charging system
 - 6 have no limit on the number of items collected, 3 collect a maximum of 10
 - The **lowest charges** for 10 items or more are £24.95 (Derby City), £27.20 (Solihull), £48 (Epping Forest) to the **highest** £65 (Stratford), £70 (Staffordshire Moorlands) £120 (Mole Valley).
- iv. Other Non standard charging systems.
 - a) Single fee + additional item charge -
 - 3 authorities operate non standard charging systems.
 - Dudley charge by size of item (small, medium or large).
 - South Hams charge per Transit van load.
 - West Lindsey use a points scoring system with each item attributed a point value. Total collection cost is determined by the total value of points attributed to the items to be collected.
 - b) Concessionary rates -

- 18 of the local authorities investigated offer concessionary rates for residents.
- Qualifying criteria used by the local authorities to assess eligibility for concessionary rates are listed below.

| Qualifying Criteria | No. of Local Authorities |
|--|--------------------------|
| Council tax benefit | 6 |
| Housing benefit | 8 |
| Disability benefit | 2 |
| Student | 1 |
| Pensioners | 4 |
| Job seekers allowance | 3 |
| Income support | 4 |
| Other e.g. local rues, single occupant | 7 |

- There is great variation in the level of discount offered. The most common is 50% discount (or thereabouts) but others offer 25% and 33%. Some authorities offer free collections (one or four free collections per year) rather than a discounted collection price.
- 11. Clinical Waste Collection: There are two main types of clinical waste collection:

i) <u>Sacks</u>

- 25 local authorities provide a clinical waste collection service for sacks with 23 being free and 2 charging customers.
- 15 do not provide any clinical waste collection service.
- 4 have no information on their website
- 15 of those providing a service also provide the yellow bags free.
 Only one charges for the sacks and for the collection at a rate of £12.70 per collection plus £9.85 for a roll of 25 large sacks (Bedford)
- Of those local authorities who do not provide a collection, most advise contacting the local health centre or their GP to arrange disposal

ii) Sharps Boxes

- A total of 23 authorities offer a collection service for sharps boxes.
- 8 local authorities provide the sharps boxes free of charge.
- 1 authority charges for the box and collection (Bedford) at a rate of £12.70 per collection plus provision of sharps box: 4 litre sharps box = £7.70, 13 litre sharps box = £34.08, 24 litre sharps box = £58.43

- 1 local authority provides service for diabetic sharps only, 1 offers a pharmacy take back scheme as well as collections, one requires a home assessment before making collections
- Where no sharps collection service is provided, most local authorities advise customers to contact their local health care trust or GP to arrange for a collection.
- 12. **Gardening Waste Collection:** A desktop study undertaken to compile general service information on more than 400 local authorities, showed that approximately 95% of local authorities in England operate a garden waste collection service with about 40% charging householders for the service. The situation across the United Kingdom is summarised below:

*Food waste and cardboard might also be collected with garden waste.

| Area | Operate A Garden Waste Collection Service* | Charge Householders |
|------------------|--|------------------------|
| England | 95% | 40% |
| Wales | 95% | 36% |
| Scotland | 84% | 0% |
| Northern Ireland | 85% | 4% |

- 13. A more in depth analysis has been carried out for 47 local authorities i.e. the 16 in our Family Group and a selection of 31 that were mostly top performing authorities from 2011/2012 or 2012/2013. A summary of the findings from this research is detailed below:
 - 46 of the 48 local authorities provide a garden waste collection service.
 - 30 of the 46 local authorities collecting garden waste also collect food waste (either combined with garden waste or a separate collection service).
 - 2 local authorities not providing a garden waste collection service are Darlington Borough Council and Calderdale Metropolitan Borough Council. The latter does provide a weekly food waste collection service and will look at the possibility of starting a garden waste service when their collection contract is due for renewal in 2016. It is worth noting that Calderdale achieved a recycling rate of 60.61% in 2012/2013 despite not providing a garden waste collection service.

- 23 of the 46 local authorities providing a garden waste service have some element of charging in place (including subscriptions for basic service and charging for additional bins).
- Annual subscription rates vary considerably. Lowest:
 Richmondshire District Council £17 per annum for a 140 litre bin collected from March to November (21 collections x 81p each) /
 Highest: Royal Borough of Kingston upon Thames £75 for a 240 litre bin emptied throughout the year (25 collections x £3 each) /
 Average: Typically in range of £30 to £40 per annum.
- Swindon Borough Council introduced a £70 charge per annum for the first year of their subscription scheme. This was subsequently reduced to £40 per annum after consulting with customers during the first year of the scheme.
- Concessionary or discounted rates were identified in 6 of the 23 local authorities charging for some element of their collection service.
- For those local authorities collecting garden waste the majority operate weekly or fortnightly with some reducing frequency of service provision in winter.
- Garden waste collection seasons vary considerably with some operating throughout the year (apart from Christmas and New Year period) and others suspending service during the winter. Further research into this aspect of service provision needs to be carried out.
- 14. Subscription Service Participation Levels Under the existing Controlled Waste Regulations 2012 the Waste Collection Authority can make a separate charge for the collection of garden waste. A chargeable opt-in service will result in some of this waste stream going into grey landfill bins and therefore increasing net waste disposal/processing costs.
- 15. Against this there may be savings through income generated by a subscription service and reduced collection costs in terms of staff and vehicles. Research by The York and North Yorkshire Waste Partnership into charging for garden waste collections indicates that once a 'free' garden waste collection system is proposed, residents may feel that this service should continue to fall within their council tax charge. Thus moving from a free collection to one that charges may not initially be popular with residents and will face opposition.
- 16. Where a charge for garden waste collection is introduced, for a service that was previously provided free of charge, participation rates fall

significantly. This is typically around 25 – 30% for a converted service, although this can vary, in some cases down to as low as 10 per cent. This is supported by our consultation in 2013 which shows that only 14.5 per cent of residents would support a charge being made for the collection service.

17. The number of subscribers is heavily influenced by the level of charge made for service. Based on information from various reports about other local authorities' schemes, the table below illustrates the estimated impact of varying levels of charge on the number of service users.

| Garden Waste Collection Charge | Participating Households |
|--------------------------------|--------------------------|
| £20 | 45% |
| £25 | 40% |
| £30 | 35% |
| £35 | 30% |
| £40 | 20% |
| £45 | 15% |
| £50 | 5% |

- 18. Work is ongoing to compile up to date information on **Household Waste Recycling Centres**, which many Local Authorities provide as part of their waste management services. This additional information will be tabled at this meeting.
- 19. Objective (ii) Issues & Impact Linked to Specific Schemes
 In order to understand the issues and impacts associated with the schemes detailed in Annex B, it is suggested that the Task Group (or individual members of the Task Group) visit a number of the Local Authorities. If Members are happy to do so, arrangements will be made for those visits to take place in the near future, to allow work on the review to progress within the limited timeframe for the review.
- 20. Officers have also suggested running a workshop and inviting a number of speakers to attend.

Council Plan 2011 - 2015

21. The work outlined in this report will help to contribute to our corporate priority of protecting the environment by continuing to provide services that are efficient, cost effective and focussed on the customer.

Implications

22. There are no financial, legal and HR implications arising directly from information provided in this report.

Recommendations

- 23. Having considered the information within this report, Members are recommended to:
 - i. Formally agree the proposed remit shown at paragraph 5 above.
 - ii. Formally agree the proposed workplan shown at paragraph 6 above.
 - iii. Consider and comment on the best practice information shown at Annex B
 - iv. Agree whether or not to visit some of the best practice Local Authorities identified in Annex B.
 - v. Agree arrangements for proposed workshop see paragraph 20 above.
 - vi. Agree dates for future Task Group Meetings

Reason: To progress the review inline with scrutiny procedures and protocols.

Discretionary Waste Charges Scrutiny Review

Introduction to Discretionary Charging

- In the current economic and funding climate City of York Council (CYC)
 needs to achieve budget efficiencies and savings year on year. CYC is
 facing challenging financial circumstances requiring a fundamental
 consideration of service delivery.
- An ongoing review of waste services is being carried out to develop options for future service delivery. We are looking at different ways to make all services more cost effective. A key area for further investigation is that of discretionary charges for various waste related services.
- 3. Local authorities have powers to charge for a wide range of services. Many of these powers derive from legislation that applies to specific service areas. The Local Government Act 2003 also provides the ability to charge for discretionary services. For waste related activities, the list of discretionary services includes green waste collection, bulky waste collection and some elements of household waste recycling centres operations.
- 4. Historically where discretionary services have been provided free there may be high levels of public concern and opposition to the introduction of charges. Residents may consider that these services should be provided through their Council Tax and not be subject to a separate additional charge.
- 5. The main factor that determines the impact of charges on service use is the price sensitivity of current and potential service users. People have different levels of price sensitivity for different services, influenced by:
 - Ability to pay how charges relate to an individual's level of disposable income.
 - Perceptions of value for money whether charges are judged to provide value for money for the level of service being offered and influenced by the extent to which a service is deemed a necessity.
 - Availability of alternatives whether the same or similar services can be obtained from other public, private or voluntary sector providers at lower cost or with greater value.

6. CYC already charges householders for a number of discretionary waste services but there is further scope to extend the range and level of charges made as evidenced in this report.

Charging Schemes Operating Nationally

- 7. <u>Garden Waste Collection</u> In setting a charge for the collection of garden waste a decision has to be made as to whether it should:
 - Be relatively nominal to encourage maximum diversion of garden waste from the residual stream.
 - Cover the cost of collection to make this cost neutral to the authority.
 - Cover the cost of collection and treatment to deter additional arisings and make the full service cost neutral.
- 8. More than a third of councils across England charge to collect garden waste. Taking into account the range of factors influencing charging policy it is not therefore surprising that charges for the service vary greatly:
 - Richmondshire District Council Charge £17 a year for a 140 litre bin collected fortnightly from March to November (21 collections).
 Additional bins are charged at £12 per year.
 - Kingston Council, London Charges £75 per year for a 240 litre bin collected fortnightly (only break in service is over Christmas and New Year period). Maximum of 3 bins per household. For householders generating less garden waste there is a biodegradable bag scheme available. Charge is £27 for a roll of 10 x 60 litre bags.
 - CYC From September 2013 every household included in green waste collection service is able to have one 180 litre bin emptied fortnightly from April to October. Householders with more green waste bins must join the additional bin subscription service to ensure their extra containers are emptied. All additional green bins are subject to an annual charge which is currently £35 per bin.
- 9. <u>Bulky Waste Collection</u> Many councils have an incremental fee scale, with a minimum charge for one or more items and an additional charge per item or banded number of items. Banded fees are relatively simple

to administer, but may lead to residents including items just to get rid of them cheaply, so the fee is not an effective deterrent to arisings. Some local authorities choose to provide service through their residual waste collection infrastructure whilst others deliver a completely separate collection service.

- 10. Examples of different bulky waste collection schemes are:
 - Test Valley Borough Council Charges householders £20.50 for one item or £37.00 for multiple items (maximum of 4 items). Free collections will be given for households who receive Council Tax Support (excluding single person discount). A maximum of two collections per year, four items per collection.
 - South Kesteven District Council Charges £11.00 for the first item and £5.00 each for all other items.
 - **CYC** Standard charge is £36.75 for the removal of up to 10 bulky items per collection. There are no concessionary rates available.
- 11. Household Waste Recycling Centres An increasing number of local authorities are implementing charges for householders disposing of waste at household waste recycling centres. The majority of charges relate to specific waste types (particularly DIY project waste) but some local authorities are also charging an entrance fee for householders using sites.
- 12. Examples of different charging schemes being used at household waste recycling centres are:
 - London Borough of Hillingdon Householders bringing larger quantities of building/DIY waste are required to pay the full trade waste rate for disposing of these materials. Current full trade waste rate is £150 per tonne with a minimum charge of £15 for up to 100 kg. Larger quantities can be defined as anything over 2/3 small bags of building waste. Chargeable materials include bricks, hard core and glass; tiles and other roofing materials; plasterboard doors and window frames; bathroom suites, kitchen units and worktops; sheds and fence panels; asphalt, tarmac and asbestos, wooden items, timber and pallets.
 - Norfolk County Council DIY waste is accepted at all Norfolk's main recycling centres but is restricted to one large item or one 80-litre bag per household per week. For example, one door, a bath tub, a toilet

or one fence panel. Or one 80-litre sack of tiles, bricks or cement. For people who want to dispose of larger amounts of DIY waste they can use a 'Pay-as-you-throw' service, available at eight main recycling centres plus eight other sites. This is likely to be a cheaper alternative to hiring a skip for small to medium sized DIY projects. Charges per visit range from £30 for a car (including estates) up to £68 for a Transit van.

- Somerset Waste Partnership This is a local authority team that
 manages waste services on behalf of six local authorities. There are
 sixteen recycling centres in Somerset. Fourteen are Recycling
 Centres which are free to enter, and two are Community Recycling
 Sites with an entry fee of £2 per vehicle per visit.
- CYC In July 2013 charges were introduced for householders disposing of brick/rubble (van or trailer with up to 500kg £21.00 per visit / normal family car with up to 250kg £11.00 per visit), plasterboard (£5.50 per sheet or bag), bonded asbestos (£11.00 per sheet up to 50kg / £5.50 per bag) and gas bottles (various charges dependent of size of item). Facility for the disposal of these materials and items is only available at the Hazel Court site. Non York residents are not allowed to use the Towthorpe site but can take waste to Hazel Court for a charge of £10 per visit.

Other Discretionary Waste Services

- 13. In addition to the main use of discretionary charges identified in this report there are a number of other service areas that could be considered in a review of charging policy. These services include:
 - Commercial waste collection including service provided to schools and charitable organisations
 - Trade waste disposal at household waste recycling centres including service provided to charitable organisations & landlords/letting agents
 - Clinical waste collection
 - Provision of waste containers
 - Hazardous wastes including chemicals
