# **TOW AND COLLECT**

## CLEANER PASTURES, HEALTHIER LIVESTOCK!

The Tow and Collect will save you time picking up manure and dethatching your pasture. It is also very effective for sweeping yards, cleaning light general debris, collecting manure and tidying up after show events.

No bending over, no hard labour and no more wheelbarrows! The Tow and Collect has made all these chores a pleasure to do and gives you more time to enjoy the better things in life.

### **HITCH AND GO!**

The Tow and Collect hitches onto any tow bar system that is compatible with ATV's, 4-wheelers, mules and other equine and agricultural vehicles, Land Rovers etc. Simply hitch it on and tow it to your desired area that needs cleaning.

### **CLEANS PADDOCKS IN MINUTES!**

Using specially designed nylon brushes that counter-rotate, the Tow and Collect effortlessly and speedily sweeps up manure and other light debris into the large rear-mounted catcher. No starting and stopping, no vacuuming, just smooth continuous driving until the catcher is full.

### **EASY TO EMPTY!**

When you notice the catcher is full using the sight holes, simply reverse to your designated emptying spot and open the gas-assisted catcher to empty the manure. Or put it directly into bags for compost or disposal.

## OUR PRODUCTS

### TOW AND COLLECT 700 MINI

The Tow and Collect 700 is ground driven, which means there is no motor, no refuelling and no difficulties. The brushes rotate when the machine is pulled along and its large wheels make it highly stable and well equipped to negotiate the wettest of ground.

It features a 700mm wide pickup and an easy-to-empty 320 litre catcher. That is 4 to 5 wheelbarrows full! Ideal if you have 1-4 horses/alpacas. The 700 Mini is also great for cleaning, collecting manure and general tidying up after show events.

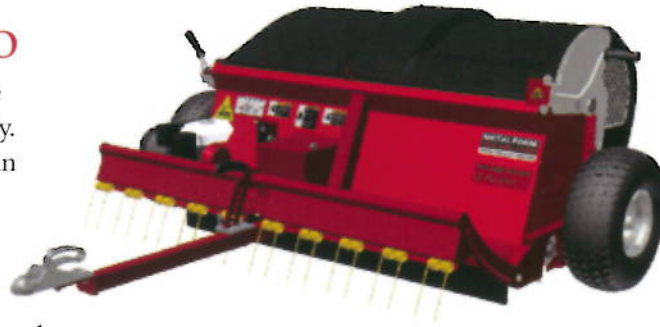

**ONLY**  
**£3,097.50 + VAT**

### TOW AND COLLECT 1500 PRO

The Tow and Collect 1500 is a great machine for covering large areas quickly and effortlessly. With its large 1.5 metre pickup width, you can cover up to 1/2 acre in less than 12 minutes.

With a gas-assisted easy-to-empty 610 litre catcher. That is 8 to 10 wheelbarrows full! Great for cleaning, collecting manure and general tidying up after show events.

**ONLY**  
**£5,449.50 + VAT**

## ADVANTAGES OF THE TOW AND COLLECT

- Healthier livestock
- Minimize the amount of parasites in your pasture and largely reduce the faecal egg count
- Helps support worm management programme
- Completely cover up to 1/2 acre in less than 12 minutes (with the Tow and Collect 1500 Pro)
- Removing thatch allows grass to have access to more nutrients & sunlight, resulting in better growth, thereby maximising grazing
- Save hours and hours of back-breaking work freeing up time to be more productive with your livestock
- The front-mounted tine bar lifts all the 'hard-to-reach' debris from the grass to make it easier to pickup
- Sweeps yards and driveways

## FEATURES

### TINES SCARIFY GROUND AS YOU GO

The front-mounted tines are height adjustable and can be used when required to de-thatch or break up manure. Comes with a gas-assisted, easy-to-empty 610 litre catcher (8 to 10 wheelbarrows full). Great for cleaning, collecting manure and general tidying up after show events. Emptying is a breeze.

*"Reducing thatch levels increases the levels of water, air and nutrients that can get through to the root zone of the grass plants".* Wikipedia

### EASY HEIGHT ADJUSTER MECHANISM

A simple height adjuster mechanism makes it easy to change the height of the Tow and Collect. You change the height to suit ground conditions, grass length and fine tune to fit your requirements.

### BUILT FOR SIMPLICITY, BUILT TO LAST

Made from tough mild steel plate, every part in the Tow and Collect is then zinc plated or powder coated to ensure that it will survive in the elements. Each machine is hand-built and has been designed to be as simple to use as possible.

It features a 700mm wide pickup and an easy to empty 320 litre catcher (4 to 5 wheelbarrow loads). Ideal if you have 1-4 horses/alpacas. The Mini 700 is also great for cleaning, collecting manure and general tidying up after show events.

Effective 1st February 2014.
