

Bishophthorpe Explore Gateway Library Pen Portrait

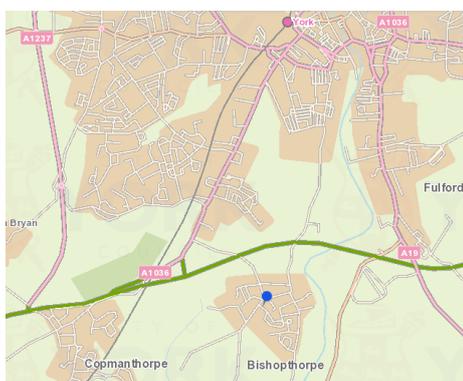

The Building

Bishophthorpe Library was opened in 1968 and has only had minor cosmetic changes since. The most recent was in 2017, with new front windows, planters and signage courtesy of Parish Council & Ward funding. A 2013 condition survey found that building maintenance costs over 20 years would be £67,601. The land and building is owned by CYC but the garden is leased back to the Parish Council, and is run as a sensory garden since 2006.

Bishophthorpe Library is well located in the centre of the village. There is a ramp and an automatic door to the front of the library, and a car park with 2 spaces. Regular bus services (numbers 11 and 21) stop near the library. The library is open for 21.5 hours per week, which is average for a community library, and this includes one evening until 7pm.

Community Assets

Bishophthorpe library uses the main body of the library for groups and events, and these can take place outside of opening hours if necessary. The library helps to combat social isolation through a varied programme of activities including a reading group, local history talks and flower arranging. Regular children's activities such as Fun Friday craft sessions, storytimes and stay and play mornings, along with the summer reading challenge contribute towards children's literacy, and there are computer workshops for beginners addressing adult digital literacy too, plus free PCs and Wi-Fi.

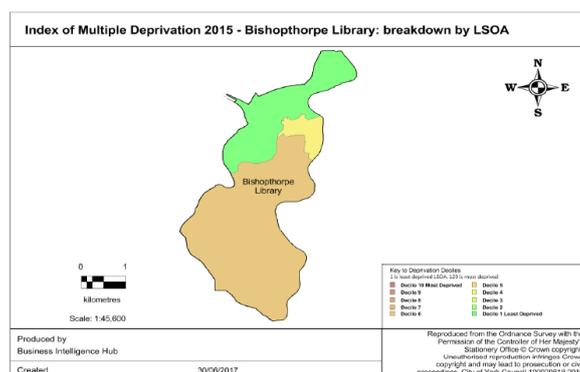

As well strengthening community resilience through a successful volunteering programme, Bishophthorpe Library also has an active Friends Group who supports the library by running events and making funding applications. The library has strong links with the Parish Council and with local schools. Bishophthorpe Library is well represented at village events, with a stall at the Gala and a scarecrow in the scarecrow festival.

Partners do offer activities from the building for example property marking from the police. Local community groups use the library for displays and residents can come to the library to take part in consultations, promoting active citizenship.

Also in the area, the Parish Council manage Vernon House Community Centre and Bishophthorpe Village Hall, the latter of which contains the Community Archive. Both Vernon House and the Village Hall host local groups and activities such as yoga, zumba and dance classes. Bishophthorpe Sports and Social Club has a focus on real ale, music and traditional pub sports. Brunswick Organic Nursery provide work experience and social activities to adults with a learning disability. St Andrews Church and Bishophthorpe Methodist Church both engage the local community in talks and groups too, including some WEA classes at St Andrews church.

Population profile

The Bishophthorpe Ward is relatively affluent. One part of the village is ranked as one of England's least deprived 10% of lower super output areas according to the Index of Multiple Deprivation 2015. This is reflected in a range of measures including level of education, child poverty and anti-social behaviour all of which are better in Bishophthorpe

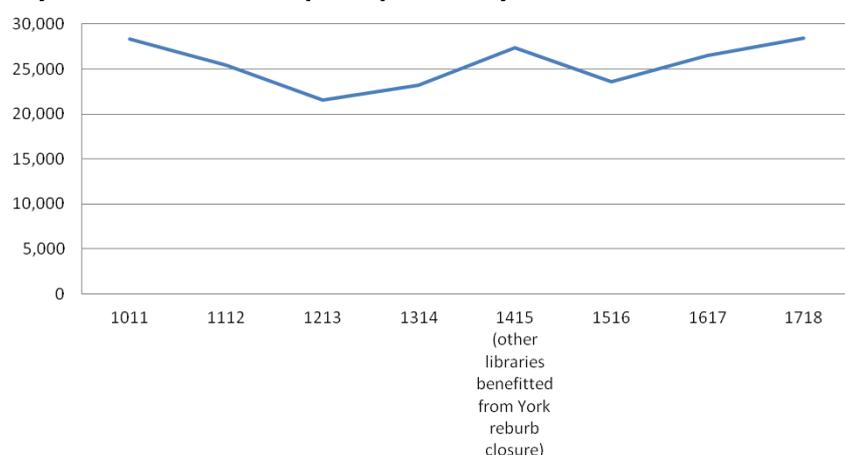

than in York as a whole. 39.5% residents have a level 4 qualification and education is the largest employment sector.

Bishopthorpe residents were 96.5% White British at the 2011 census, so it has less ethnic diversity than elsewhere in York. The age profile is more skewed towards older people than elsewhere in York, with over half the population aged 50+ and very few students. With 16% of people being in their 60s, this library catchment area, along with those at Copmanthorpe and Haxby are likely to be areas which strongly feel the impact of an aging population over the next 20 years.

Community cohesion appears to be excellent, with 93% feeling that they “belong to their local area” and 100% feeling that “their local area is a good place for children and young people to grow up” in a CYC residents’ survey.

Library visits per opening hour during half terms

(Used half term figures to exclude anomalies caused by classroom use of libraries at New Earswick and Fulford)

The user profile of Bishopthorpe library departs from the population profile most significantly in terms of having more women (72% of users, 52% of population) and more retired people (49% of users, 26% of population). However, these trends are fairly common in libraries, and Bishopthorpe Library's user profile is not too far from Explore's profile as a whole.
