1. INTRODUCTION

1.1 This plan sets out the proposed 2013/14 programme of work for the internal audit, counter fraud, and information governance services provided by Veritau for the City of York Council.

1.2 In accordance with proper practice, internal audit is required to prepare an audit plan on at least an annual basis. The plan is based on a risk assessment model that is maintained by internal audit. The council’s own risk management systems are also considered in forming a view on what audits to undertake. The audit plan is a working document, and changes are made throughout the year to reflect changes in risk and any issues that arise.

1.3 The content of the audit plan is subject to consultation with directors and other senior council officers, and is formally approved by the Audit and Governance Committee. The committee is responsible for monitoring progress against the plan. Changes to the plan are agreed through the council’s client management arrangements and are notified to the committee. Proposed audit work is also discussed with the council’s external auditors, to ensure that there is no duplication of effort.

1.4 Further detail about the audit planning process can be found in the approved audit strategy.

2. 2013/14 AUDIT PLAN

2.1 The ongoing financial pressures faced by the council and the consequent need to review and adapt services are major factors affecting systems and controls. Veritau’s priority for the immediate future continues to be to help support the council maintain an effective control environment in these challenging times. The approach to audit planning for 2013/14 follows that adopted over the last few years by providing a balance between regularity audits in areas such as the main financial systems where the volume and value of transactions processed are significant and regular audit is essential; and other reviews targeted towards areas of increased risk due to change. This includes:
• direct support to change projects - to provide advice and challenge on controls being implemented or changed, and project governance

• emphasis in other audit work on the appropriateness of control systems in the current climate, and key objectives to meet current needs (e.g. progress with savings plans).

2.2 Details of the 2013/14 plan are set out in sections 3 – 8 below.
3. CORPORATE & CROSS CUTTING AUDITS

Audit Days

Annual Governance Statement & Governance Support 20
Advice and support on governance matters and support in preparing the council’s annual governance statement.

Apprenticeships 20
A review of the council’s apprenticeship programmes to include controls in place to ensure consistent, high quality provision across the council.

Budget Savings 30
The 2013/14 audit will consider the controls in place related to the planning, monitoring and achievement of agreed budget savings, and the effectiveness of arrangements to manage risks relating to the budget. This is a combination of audits previously undertaken separately related to budget setting, budget monitoring and efficiency and value for money.

Business Continuity 20
A review of the council’s revised business continuity arrangements following the major office moves during 2012/13.

Capital Accounting 18
A review of systems and controls for recording and accounting for council assets. This will include review of the new capital accounting package being introduced.

Capital Programme 18
A review of capital programme planning and monitoring arrangements.
