

Community Impact Assessment: Summary

1. Name of service, policy, function or criteria being assessed:

The Personal Support and Inclusion (PSI) Service

2. What are the main objectives or aims of the service/policy/function/criteria?

The Personal Support and Inclusion (PSI) Service is a targeted provision for vulnerable young people aged 11-17 years (up to 21 years Learning Disability). There is a core of work that runs throughout our service: building up young people's social and emotional capabilities so they can successfully take charge of their own lives.

Our key objectives:

- Make sure young people make sound choices that mean they stay away from risky situations and have better emotional and mental well-being
- Help young people stay in school, not get excluded and have aspirations for the future
- Help young people stay at home when things are tough, and if not, help them successfully move into independent living
- Prevent anti-social behaviour and young people entering the criminal justice system

How we do this:

- Through one to one intervention sessions we have agreed as part of a wider Team Around the Child plan. This may be bespoke intervention work i.e. complete an anger management programme
- Act as Lead Practitioner in cases that have been 'stepped down' from statutory services or have no other service involved
- Delivering targeted group sessions to particular groups with particular needs (i.e. in-school sessions, girls group)
- Being part of a multi-agency development of the Youth Offer to targeted groups

Our current Youth Offer for targeted groups:

- Look at the City youth offer for all Looked After Children
- Work with key schools to identify groups where social factors prevent them achieving their best potential
- Bring robust support to the Howe Hill 4 Young People project and build on the early success of multi-agency youth homeless prevention and move-on work
- Co-ordination and support of work at Children's Centres on sexual health and relationships, delaying teen pregnancy and working with young parents

3. Name and Job Title of person completing assessment: Angela Crossland – Youth Offending Team Manager

Community Impact Assessment (CIA)

Community Impact Assessment Title:
Personal Support and Inclusion Service

What evidence is available **to suggest that the proposed service, policy, function or criteria could have a negative (N), positive (P) or no (None) effect** on quality of life outcomes? (Refer to guidance for further details)

Can negative impacts be justified? **For example: improving community cohesion; complying with other legislation or enforcement duties; taking positive action to address imbalances or under-representation; needing to target a particular community or group e.g. older people.** NB. Lack of financial resources alone is NOT justification!

Intervening early with young people at risk of multiple poor outcomes is cost effective; reducing the need for specialist services, and provides significant improvement in long term outcomes. The costs of late intervention, particularly in the priority areas identified for the service are significant (Early Intervention Foundation: http://www.eif.org.uk/).
