

Annex N Hull Road Ward

N1

Location

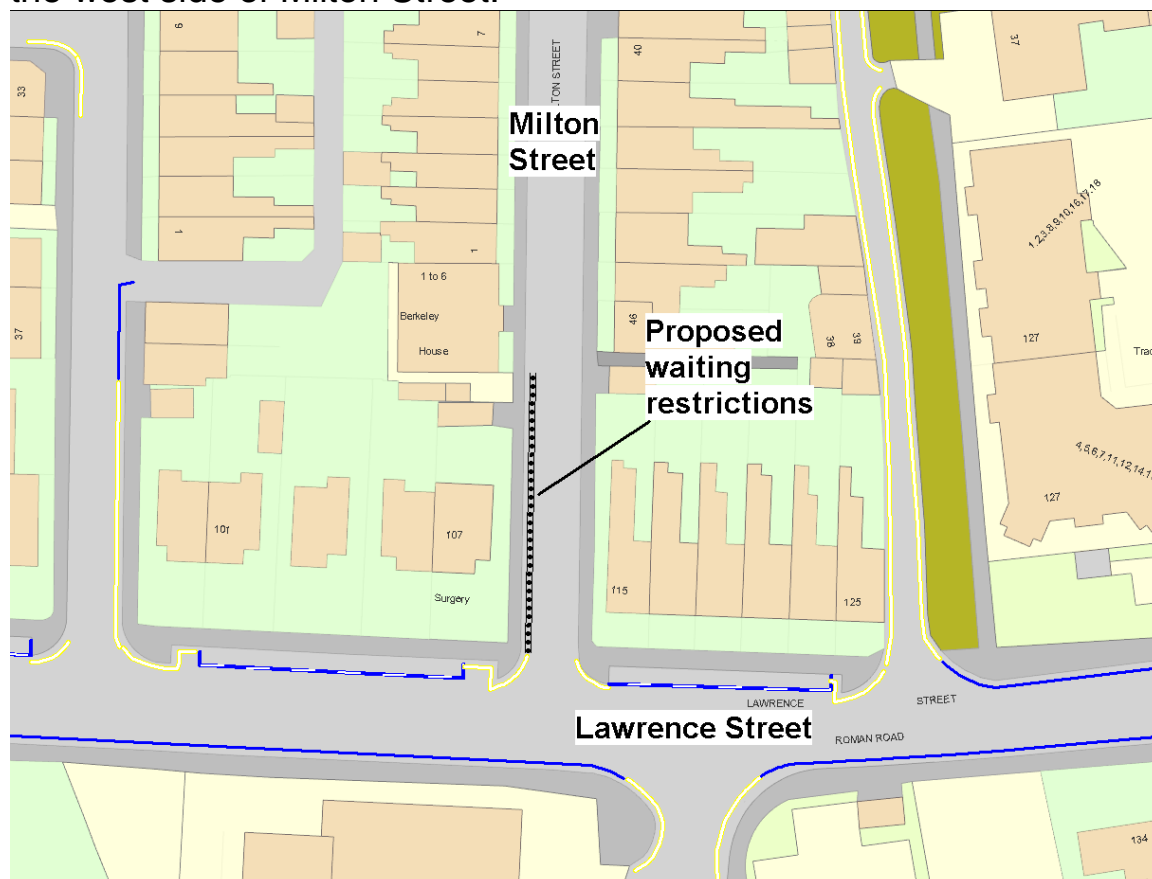

Milton Street (off Lawrence Street)

Reason for change

Inconsiderate parking causing problems accessing Milton Street from Lawrence Street

Initial Recommendation

Introduce “no waiting at any time” restrictions (double yellow lines) on the west side of Milton Street.

Objections

One objection to the proposal was received. This was from a representative of Lawrence Street Dental Practice (107 Lawrence Street), the side of their premises form the west side of Milton Street. The objection was that parking close to the surgery is already very restricted but is needed due to the high number of elderly and disabled patients attending the surgery.

Recommendation

Not to implement the advertised proposal.

Comments from Ward Councillors

Cllr Barnes:

If it's not too late, I would like to support the revised recommendation, but wonder if parking can be restricted to surgery visitors only. It may not be enforceable but a sign could be a deterrent out of surgery hours?

E.g. "Parking for surgery visitors only during opening hours XXam to XXpm, parking restrictions apply at all other times"

[Response:

"I'm afraid I don't think there is any way we can reserve on street space for a particular business/organisation. There are already one hour bays nearby which were put in for the convenience of surgery visitors (though of course anyone can use them)."]

Political Party Comments

Cllr Reid:

I have no objection to the revised proposal.
