

## Annex U Westfield Ward

**U4**

### Location

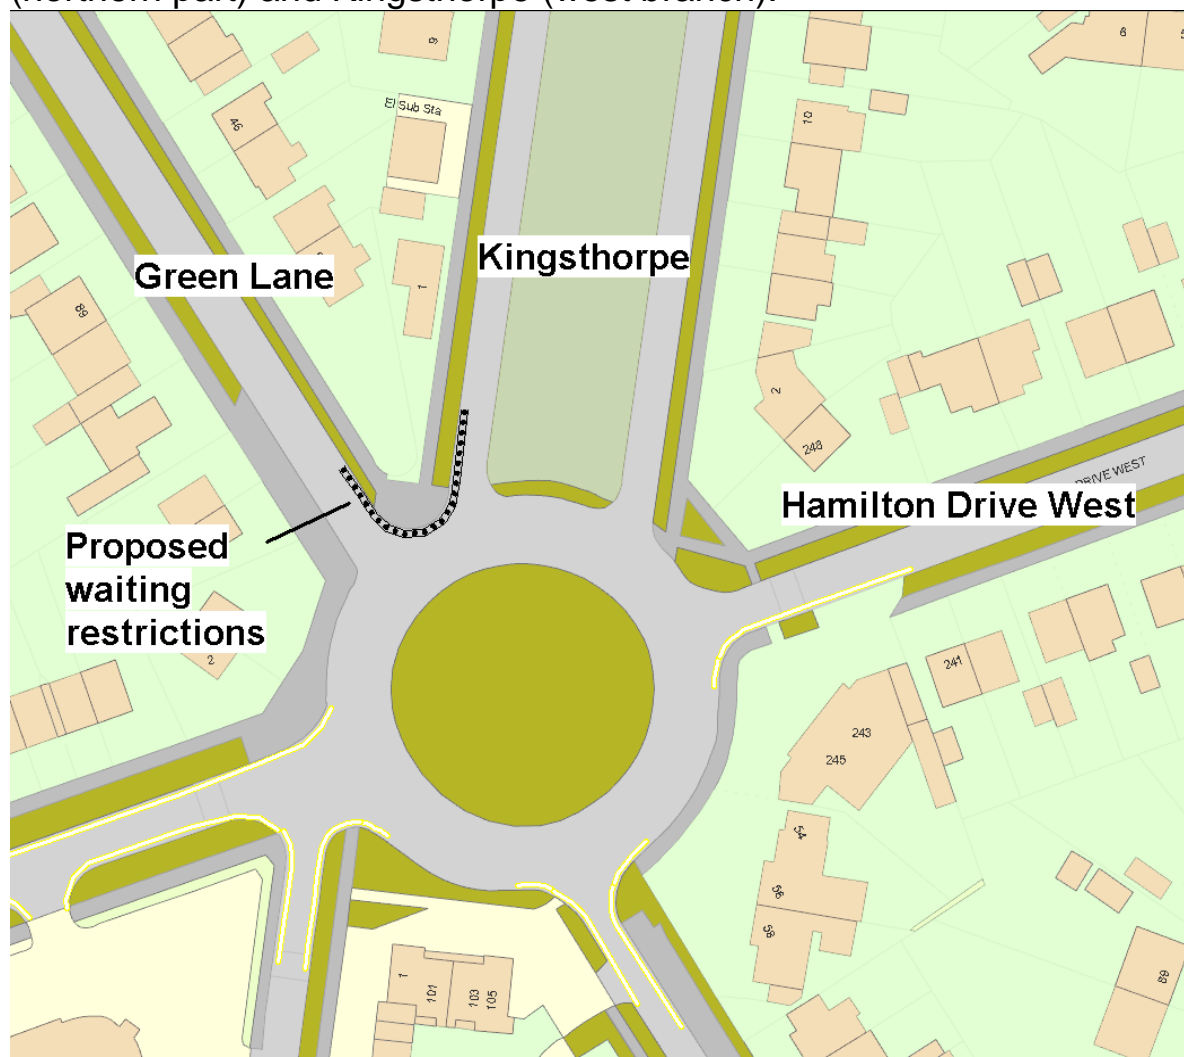

Kingsthorpe/Green Lane

### Reason for change

Inconsiderate parking causing access problems at the junction of Green Lane and Kingsthorpe (roundabout).

### Initial Recommendation

Introduce “no waiting at any time” restrictions (double yellow lines) to the standard distance for junction protection at the junction of Green Lane (northern part) and Kingsthorpe (west branch).

### Objections

One objection to the proposal was received. The objection was that the restrictions would simply displace parking further up Kingsthorpe.

### Recommendation

Reduce the restrictions slightly in length to minimise the problem (10m from kerbline)

## **Comments from Ward Councillors**

### **Cllr Waller:**

Thank you for this email. The need for some double yellow lines at this point is important for safety at this junction. I feel that the adjustment in relation to the objection is an appropriate modification, and I hope that this will enable the proposal to go through.

### **Cllr Burton:**

With regards to the proposal at the junction of Green Lane and Kingsthorpe in Westfield Ward I've received one comment from a resident in Kingsthorpe asking for an update on this traffic management measure which she supports in principle.

I would be happy to accept either the original or amended plan which ever is deemed most appropriate.

## **Political Party Comments**

### **Cllr Reid:**

I support the comments of Cllr Andrew Waller.
