# Additionally ...

- The Situational Awareness Explorer Post-Acute Covid-19 model currently predicts that in York, in the 2 month period 1.5.22 to 30.6.22, there will be **975** new cases of post-acute Covid, of which **185** will require services.
- COVID still with us, as well as high levels of other circulating viruses and concerns around lower uptake of e.g. childhood and teenage immunisations. Standard infection, prevention and control measures still need to be emphasised.
- Wider and ongoing impacts of COVID on health and care e.g.
  - High demands for health and social care e.g. 166,966 appointments fulfilled in primary care in March 2022
  - York and Scarborough Teaching Hospitals Trust at OPEL 4 (York) and OPEL 3 (Scarborough)
  - As of April 17,851 on an elective waiting list in York, 7,615 waiting longer than 18 weeks, 1,199 waiting longer than a year and 60 waiting longer than 2 years
