1	I want to be able to walk along the street and not worry about falling off the curb. As I get older, I have been prone to twisting my ankle on uneven pavements and curbs. It would be much safer for myself and others I have spoken to along the street if the surface was levelled. Obviously it would need a marker along the edge to show partially sighted where they may be entering a possible cycling area. Deansgate is tricky as it is completely free for anyone and cycles have to weave around people on foot.
2	We have a van which delivers daily to 42 Fossgate, Luton van/transit van sized, usually between 10-12 in the morning. It needs to park as near as possible as we have to carry heavy boxes to and from the van.
3	Not strictly Fossgate but require access to Fossbridge House down ramp behind bus stops.
4	Have some disability from a spinal injury, making lifting & carrying difficult. Would always want to retain full vehicle access to Fossgate for deliveries etc.
5	Not at present. But we are an ageing population and I will be nearly 60 when/if changes are implemented. And who can say when ill-health will strike...
6	I want to be able to walk down the road and hold my daughter's hand without stepping in to the road
7	Contraflow cycle lane
