

AGENDA SUPPLEMENT

City of York Outbreak Management Advisory Board

To: All Board Members

Date: Wednesday, 26 January 2022

Time: 5.30 pm

Venue: Remote Meeting

The Agenda for the above meeting was published on **18 January 2022.** The attached presentation slides are now available for the following agenda items:

3. Current Covid-19 Situation in York (Pages 1 - 12)

Presentation on the day.

5. Vaccination and Winter Planning (Pages 13 - 18)
Programmes

Including:

- Vaccine Take Up & Boosters & Flu Vaccine
- Access to Vaccines and Addressing Vaccine Inequality

This agenda supplement was published on **27 January 2022.**

Data Update

26th January 2022

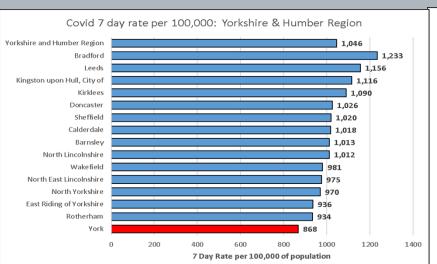

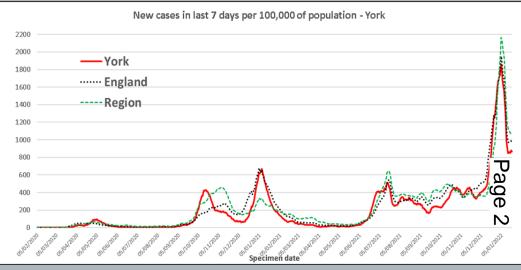

Page '

Position in Region

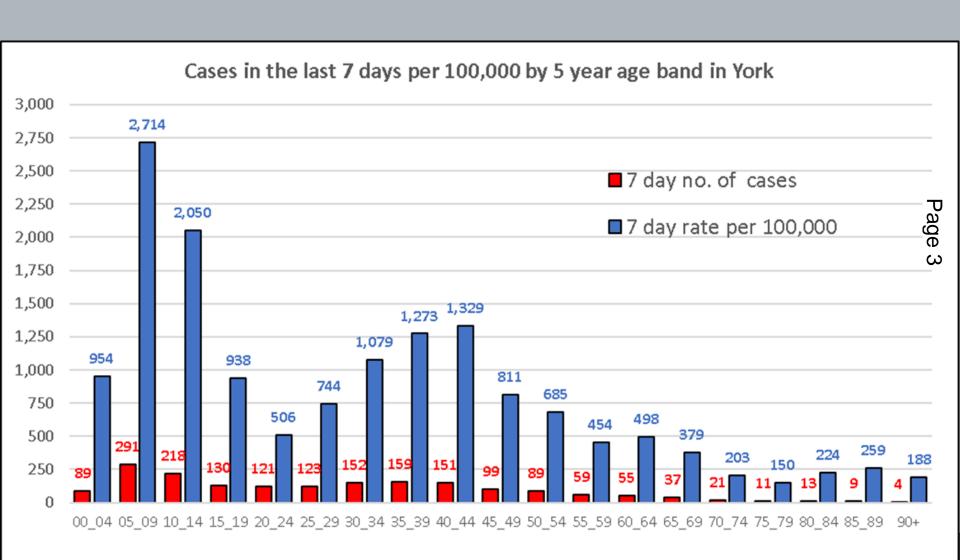

Epidemic Curve

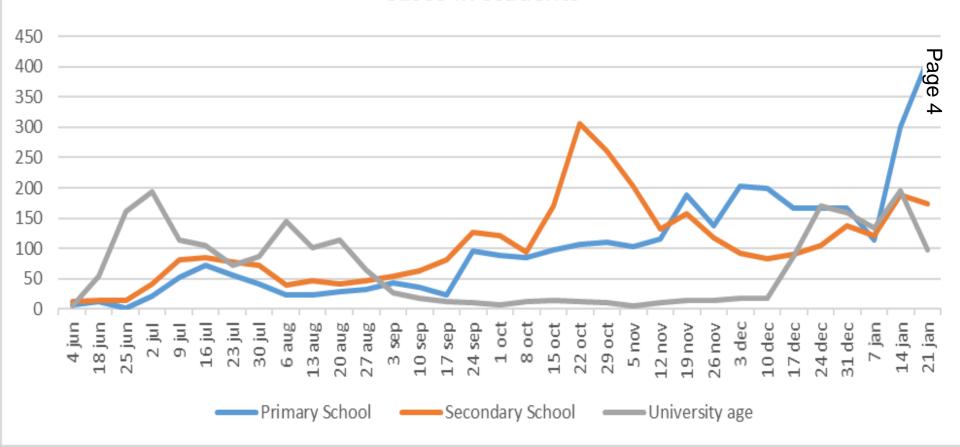

The latest official "validated" rate of new Covid cases per 100,000 of population for the period 14.1.22 to 20.1.22 in York was 868.2 (1,832 cases). The national and regional averages at this date were 988.9 and 1,045.8 respectively (using data published on Gov.uk on 25.1.22).

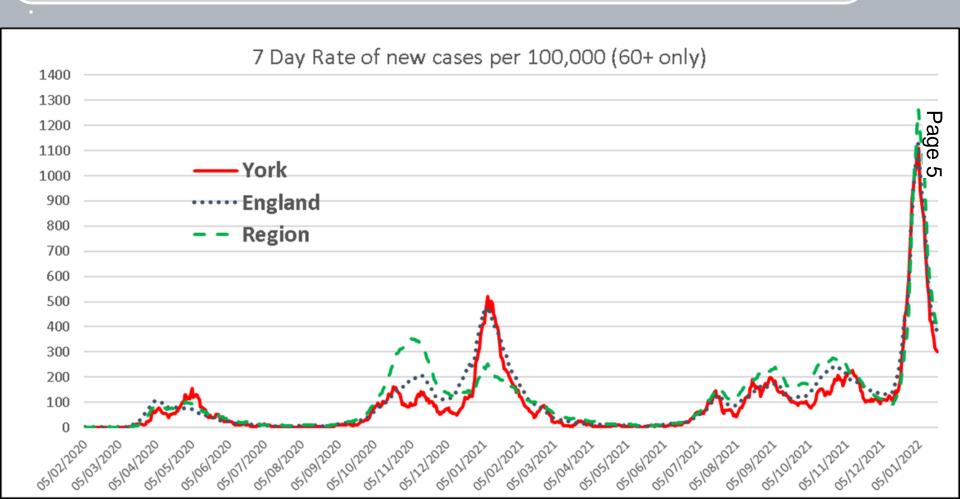

The rate of new Covid cases per 100,000 of population for the period 14.1.22 to 20.1.22 for people aged 60+ in York was 300.5 (150 cases). The national and regional averages were 382.6 and 405.1 respectively.

Care homes and Schools

• Cases in Residential Care Settings

- As at 21.1.22 there were 18 care homes in the CYC area with confirmed Covid-19 infection (at least 1 case of either a staff member or resident).
- The latest 'outbreak' (2+ cases of either a staff member or resident) in a residential care setting in York was reported by PHE on **26.1.22** (1 home).
- Cases amongst School Aged Children
- In the 7 days up to 24.1.22 there were **627** children of primary or secondary school age who tested positive across **59** schools.
- (The time period relates to the dates when the positive cases were uploaded onto the local database from the DPH line listing rather then test specimen date).

Variant Summary

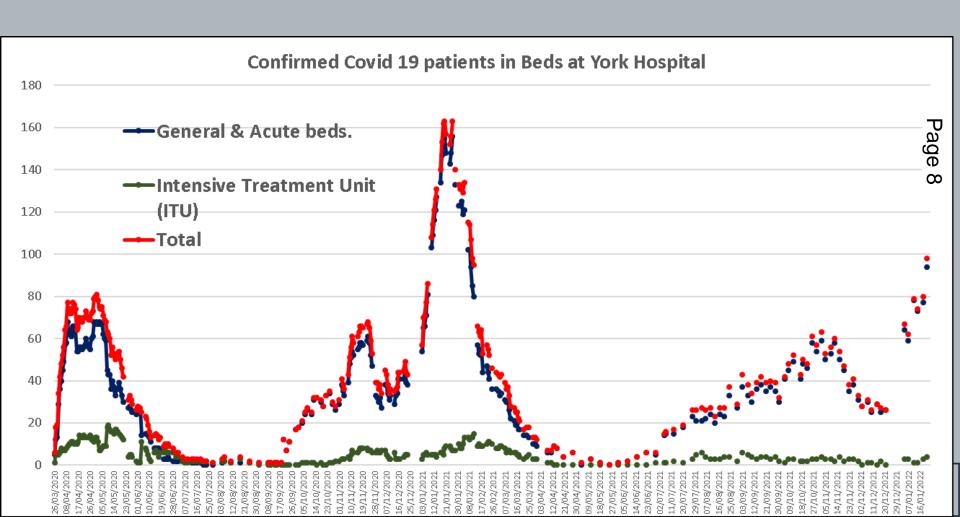

In the latest month for which data is available in York (cases with a specimen date between 23rd December 2021 and 22nd January 2022) the estimated percentage breakdown by Variant of Concern (VOC) or Variant under Investigation (VUI) is as follows:

- VOC-21APR-02 (Lineage B.1.617.2 Delta /India): 0.21% of cases
- VUI-21OCT-01 (Lineage A.Y 4.2 Delta 'Plus'): 0.13% of cases
- VOC-21NOV-01 (Lineage B.1.1.529 Omicron): 99.66% of cases

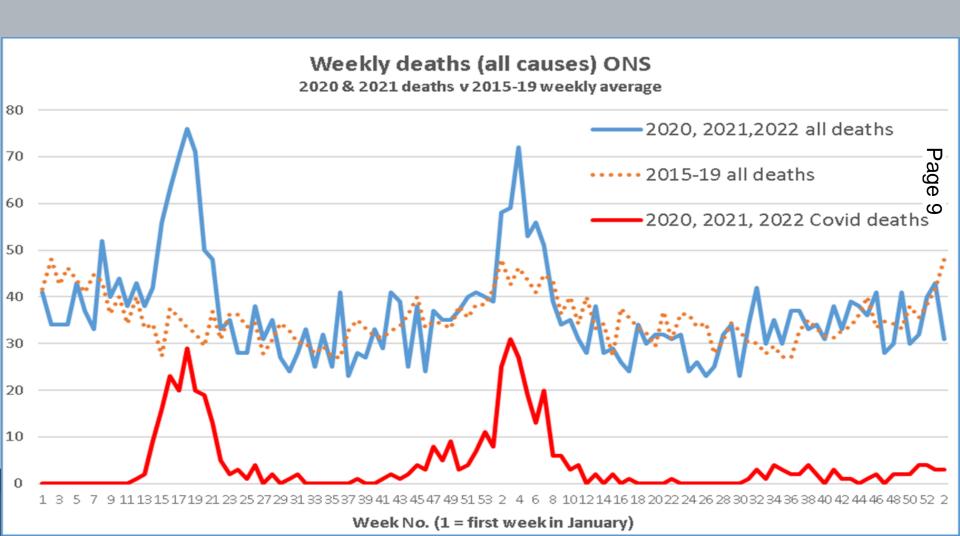

As at 21.1.22 there were **94** people with Covid in a General / Acute bed and **4** in ITU.

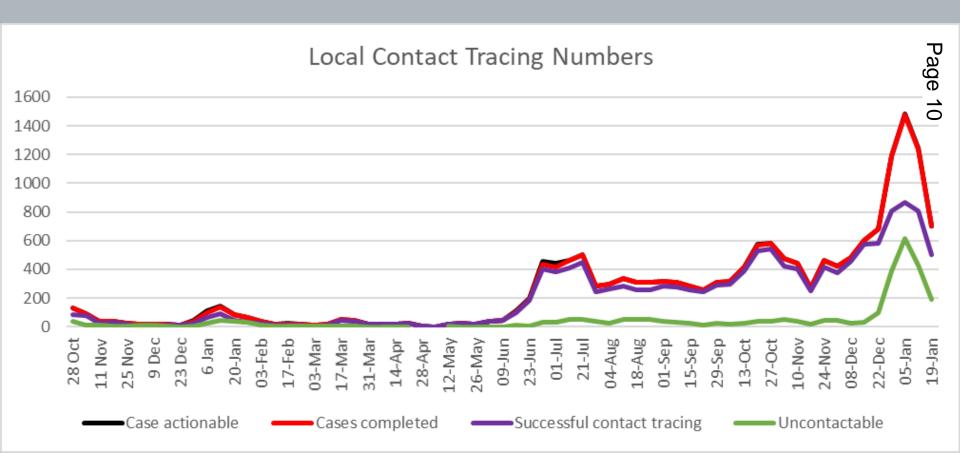

There have been 165 'excess deaths' in York since the start of the 2020 (using the 2015-2019 weekly average number of deaths as the comparator)

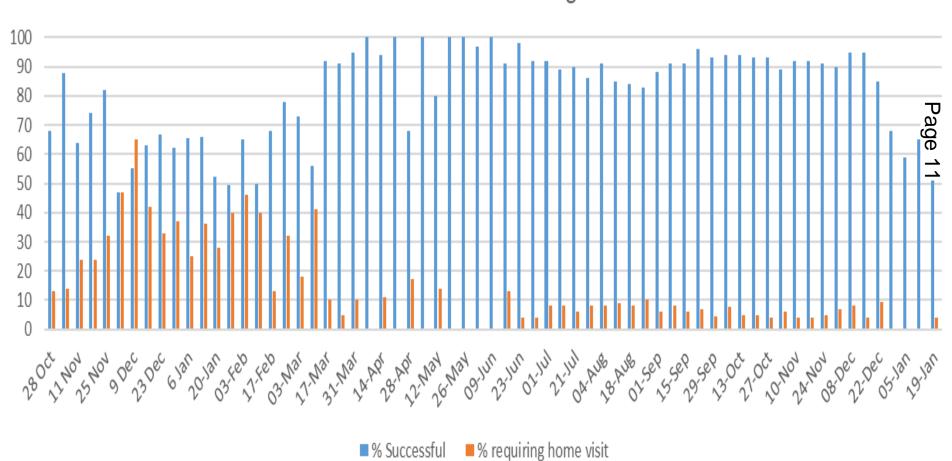

The substantial rise in cases over December led to an inevitable drop in successful contacts by our local team

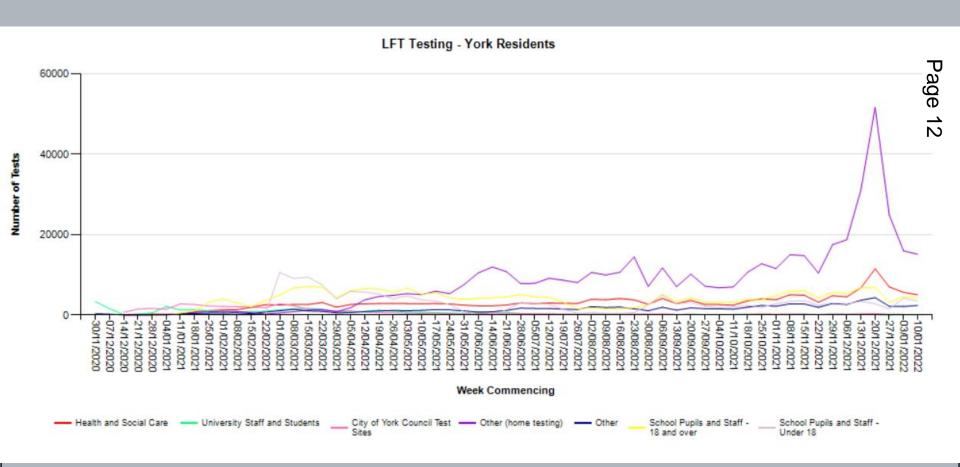

Local Contact Tracing

The number of lateral flow tests being registered over December tripled

Vaccination Programme Update

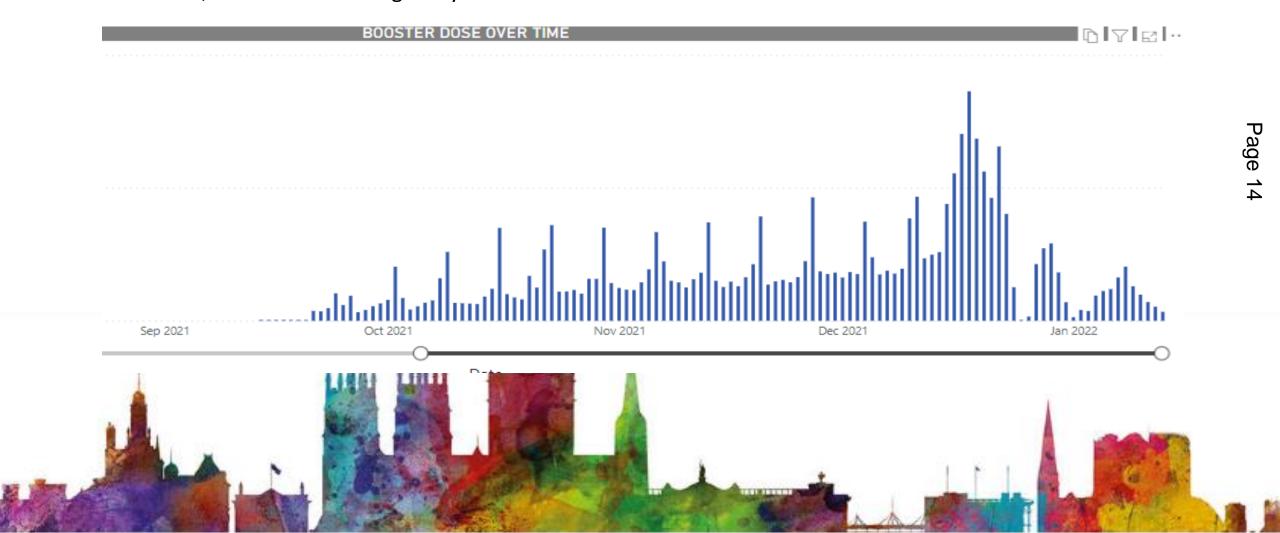

January 2022

Key Recent Successes

- 2021/22 Booster drive in partnership with VOY practices, CYC, CCG.
- Peak of 8,800+ doses in a single day within the vale of York

 High risk cohorts all have 90% uptake on 1st doses and 80%+ uptake for fully vaccinated

PCN = (AII)

Cohort
01) Care Home Residents & Residential Care Workers
02) 80+ & Health and Social Care workers
03) 75-79
04) 70-74 & CEV
05) 65-69
06) At Risk
