

We the undersigned inhabitants of Deighton ask the City of York Council to instal a traffic island on the A19 to enable us to get to and from the bus stop on the southbound carriage way in safety. The pedestrian crossing sign, ~~the rumble strips~~, and the extra lighting have had no effect in reducing the speed of the traffic, and the safety of villagers using the bus is being put at risk. The Council will be aware that three pedestrians have been killed at the crossing, which lies on a blind bend.
