**Process:**

The Acomb Front Street Phase 2 public engagement commenced on 26 February 2024 and ran to 24 March 2024. The purpose of the open public engagement work was to test the ideas set out in the Phase 2 project scope and determine the community priorities in the context of the cost and desirability. Learnings from the previous community consultation (Future of Acomb Front Street Study 2021) and community petition July 2023 were also carried forward.

The public engagement sought feedback on :-

- enhancing the area through better placemaking, creating a more people friendly space and reducing the number of bollards
- creating a more accessible destination, with wider, more generous pedestrian crossing points, new accessible toilet facilities and improved blue badge parking
- extending the benefits beyond the high street to better connect local amenities
- longer-term aspirations, including but not limited to looking how to reduce the vehicle dominance in Front Street or the adoption of private frontages

An accessible mix of engagement methods were used to allow for the greatest reach into the community, including in person public meetings/drop-in events, stakeholder meetings and online survey, plus paper-based format.

The community response was tremendous and generated 900 completed surveys, and more than 5,000 comments to be analysed.

The Executive report in July 2024 included a detailed summary of the engagement feedback received to inform the high level principles and next steps for the project.

**Description:** Purpose of report: In 2022, officers undertook an opportunity mapping exercise (with the help of external consultant landscape architects) to find suitable sites for new tree planting within York's urban areas. The Council Plan contains a commitment plant 4,000 trees within York's urban area in response to the declared climate and nature emergencies. Thirteen sites were planted in 2023/24 with c2,500 trees putting the council well on the way to achieving its goal. These sites were fully funded by external grant, including 3yrs maintenance. A further 47 sites, mainly council owned land, are now being considered for planting in 2024/25.

The report seeks in-principle approval to progress these sites towards delivery subject to relevant external consultation and successful external funding bid.

**Description:** Purpose of Report: 14 New Lane was until the 1980's the West Bank Park parkkeepers' accommodation. In the early 1990's the current boundary fence was erected reinforcing its separation from rest of park.

During the 1990s and 2000's it was used by Housing Association tenants. After which the property was unoccupied until 2016 when a major fire seriously damaged the building resulting in its partial demolition.

Following the fire, a payment was received from the council insurers which has been used to fund site safety and clearance. Demolition should be completed later this summer.
