Petition Front Pages

Tudor Road

Petition, requesting that

- The Council reviews safety at the current junction of Tudor Road with Gale Lane and reintroduces the crossing island at this wide junction on a route to school and local shops and services;
- The new junction with the Lowfields Playing Fields housing estate does not result in the loss of parking provision in the area; and
- The Council ensures that there is no worsening of surface water issues in the surrounding area resulting from the building on playing fields.

Thanet Road Petition

We, the undersigned, request

- no additional utility boxes be placed on Thanet Road due to the safety problems with being unable to see traffic clearly when leaving sports club car parks
- the council work with utility companies to reduce the number of boxes here.

Towthorpe Road Road Petition

Petition to reduce speed limit from 60mph to 40mph - Towthorpe Road, Towthorpe

As a resident of Towthorpe Road, we are increasingly concerned about the speed of some road users and believe the 60mph national speed limit to be dangerous and wholly inappropriate for the section of Towthorpe Road between the junction with Strensall Road and the end of the built up part of Towthorpe within Strensall with Towthorpe Parish.

With this petition, we call upon the City of York Council for a reduction to 40mph for this section of road. We are aware that there have been safety calls previously for this section of road and with several recent barn conversions near doubling dwelling properties and the number of residents, we believe it is time for action. We are particularly concerned for the safety of residents of several homes which are without pavement outside their properties and have no option to step from their drives into the 60mph section with lines of sight reduced
