

The 'Better Decision Making' tool should be completed when proposing new projects, services, policies or strategies.

This integrated impact assessment tool was designed to help you to consider the impact of your proposal on social, economic and environmental sustainability, and equalities and human rights. The tool draws upon the priorities set out in our Council Plan and will help us to provide inclusive and discrimination-free services. The purpose of this new tool is to ensure that the impacts of every proposal are carefully considered and balanced and that decisions are based on evidence.

Part 1 of this form should be completed as soon as you have identified a potential area for change and when you are just beginning to develop a proposal. If you are following the All About Projects Framework it should be completed before going through Gateway 3.

Part 2 of this form should be filled in once you have completed your proposal and prior to being submitted for consideration by the Executive. If you are following the All About Projects Framework it should be completed before going through Gateway 4. Your answer to questions 1.4 in the improvements section must be reported in any papers going to the Executive and the full 'Better Decision Making' tool should be attached as an annex.

Guidance to help you complete the assessment can be obtained by hovering over the relevant text or by following this link to the 'Better Decision Making' tool on Colin.
