

[REDACTED]

Hi [REDACTED],

Thank you for sending through the clarification points needed regarding the clubs Asset of Community Value renewal, and are as follows:-

1) Details of current position regarding a lease:-

The club currently and for the foreseeable future, operates under an agreed rolling lease extension, this while, and quite recently, the Club (NEIBC) representatives and representatives of the Joseph Rowntrees Housing Trust (JRHT), have been agreeably engaged in ongoing meetings with sight on a sustainable future for the NEIBC, whilst maximising opportunity for the JRHT.

2) Club Confirmation:-

This from [REDACTED] NEIBC's Treasurer!

We confirm that at no time does the club re-distribute profits back to the membership, as any profits earned are held in reserves and would be invested back into the club's facilities as and when deemed appropriate.

Annual budgeting is however designed to run the club at a break even position, and so any year end profits are considered to be so minimal that re-distribution back to the membership would be pointless and is therefore never undertaken, and therefore held in reserves until required.

As a footnote, it is also worth noting that none of the clubs officers receive any remuneration for the work they do, choosing instead to insure that all available monies go back into the club funds.

3) Name Confirmation:-

In this I am able to confirm that the name New Earswick and District Indoor Bowls Club for Community Asset Status is correct, reflecting as it does the clubs previously successful application; and can also confirm that other names mentioned are indeed referencing the same club.

Again, thank you for your communication, and if there is anything else that crops up, please don't hesitate in contacting me.

With kindest regards

[REDACTED].
