## **12. Safeguarding Vulnerable Adults Annual Assurance**

Members received a report which outlined the actions taken to further improve the arrangements in place to ensure that City of York Council was able to discharge its responsibilities to keep vulnerable adults within the City protected from violence and abuse, whilst maintaining their independence and wellbeing.

The Chair of the Safeguarding Adults Board, Kevin McAleese was also in attendance to present the Safeguarding Adults Board Annual Report 2014-15.

Members asked the following questions;

- Was safeguarding in day care investigated by the Board?
- Was there a trend in finance being a source of risk in adult safeguarding investigations and was this as a result of austerity?
- Could safeguarding training be made more available?

The Chair of the Board responded that there was no separate national data collection for day care safeguarding, which was why it had not been included within the report. In response to the question about financial risks, he gave an example where some younger family members had been regularly accessing their older relative's bank account without his knowledge.

It was reported that safeguarding training was co-ordinated via the Council's Workforce Development Unit and personalised training could be provided.

Members suggested that the Chair contact the Head of Civic and Democratic Services to request that they all take the Level 1 Safeguarding training.

The Chair of the Safeguarding Board highlighted that it was important to keep in mind capacity and consistency of practice across all partners that dealt with vulnerable people, in order to make sure that safeguarding was kept personal. For example he highlighted that there was not a protocol between the York Adults Safeguarding Board, Children's Safeguarding Board and Community Safeguarding Board.

One Member suggested that the second recommendation take into account the comments around capacity and protocol.

The Chair thanked the Chair of the Adults Safeguarding Board for attending the meeting and for answering Members questions.

Resolved: (i) That the report be noted and the Health and Adult Social Care Policy and Scrutiny Committee take assurance that arrangements for safeguarding adults and the improvements made over the year are satisfactory and effective.

- (ii) That the Health and Adult Social Care Policy Committee consider the further updates it requires regarding adult safeguarding and that these updates include the consideration of capacity and protocol.
