| Vacancy: Mr Evan Hirsch: I have a great personal interest in teaching; this probably comes from my mother, who has been a teacher for over 20 years. When I was younger, I taught science classes at a Boy Scouts of America summer camp and then went on to run that camp and was the manager for all of the instructors who taught there. I love teaching and education and feel like it is a joy I am missing in my life working with a large company like Aviva - this is what has made me decide that I want to be a school governor. I am currently employed as a corporate responsibility manager for Aviva UK. In this capacity, I run two national volunteering programmes, have created a reporting system which enables us to measure our social impacts and manage complex projects with large budgets. I also have experience working in marketing and media relations. | | | | | |

Nomination (s) for 1 Vacancy**Vacancy:** Mrs Sally McIlveen: Having worked in Education for over 30 years I feel I would like to be more involved in the running of a school and I feel I have some of the necessary skills required for this. Presently I am a freelance Drama teacher, working with young people of all ages and abilities across the city and am aware of some of the needs of both staff and young people. I develop communication skills and creativity amongst the young and feel this could help in a team situation. Similarly as freelance I have to be organised and be able to make my own decisions which could help also when acting as a Governor. I am and always have been, passionate about developing learning and personal skills for young people. I would therefore like the opportunity of fulfilling this aim in a different supportive way.**Affiliation:** Labour**Appointment:** with immediate effect

Vacancy: Miss Jennifer Talbot: I have recently returned to the UK after working abroad in different educational setting for a few years. I have worked in Australasia and the Caribbean and have observed and practiced in different educational set-ups from being a qualified scuba instructor to also being an outstanding biology teacher, in both England and Melbourne... I have now settled back in York with a new permanent position at an agricultural college, concentrating on raising achievement in teaching and learning. I feel I would make a valuable School Governor as I would like to utilise my excellent team working abilities along with my varied educational experiences in order to manage and make positive impacts and contributions to the education system and experiences of young people.

Vacancy: Mr Michael Grant: Well educated children are the future of this country. We have encouraged our children to make the most of their educational opportunities and they have done so, all did well at school and graduated from university with good degrees. There are less fortunate children who do not receive such a level of encouragement and I would like to help all children aspire to the best of their ability. I have a great deal of experience in the world of business, have run my own company and have been a company director for the past 15 years responsible for a turnover in excess of £40 million. I feel that I can bring my business experience to the schools to assist in the setting of budgets and expenditure. Above all, I was fortunate to have had a good education and good career, and feel that I want to give something back to society and the community I live in and what better way of doing so than helping young people.

Vacancy: Mr Christopher Pegg: I would love the opportunity to become a school governor. I have just returned from volunteering at a childrens orphanage in Kenya and I really want to help in my community...I want to use my enthusiasm and passion for school to help other children from all different kinds of backgrounds reach their potential... I also believe that being a bit younger, I will be able to really relate to the children, giving a younger persons perspective on life in school and hopefully helping the school to give the kids the best start in life. I have worked in various jobs, with varying levels of skills required, and I have also done a lot of travelling around the world, so hopefully the excellent experiences that I have gained will benefit the school and the kids alike. Although I am not an avid follower of religion, I would say I live my life by a set of values that are closely representative of the Christian faith.

| Vacancy: Ms Sue Bentley: I have very recently retired from a career in the NHS where I was an executive member of a health authority board for 15 years. I had responsibility for various functions including planning, corporate governance, regulation and risk management. Before that, for nine years, I also taught in first a secondary school and then a sixth form college. I am recognised for my logical reasoning, and rational decision-making and I have a strong sense of corporate responsibility. I am able to maintain a strategic overview and I have experience of working with colleagues across many disciplines and organisations. I am seeking a non executive/governor role to make use of the skills and experience that I have gained through my career to date and I feel that I would have a lot to offer as a school governor. | | | | | |
