Hi Ben,

I attended you meeting on Tuesday evening and I am grateful for your time and the preparation you had undertaken ahead of the meeting. Your patience and professional approach were appreciated.

The impression created is of a professional organisation trying to do the right thing, taking its relationship with the local community seriously and wanting to work with its neighbours for a successful long term mutually enjoyable partnership.

The challenge is always the successful delivery, however I'm greatly encouraged by what I have already learnt.

Many thanks

John [REDACTED]
