

SECTION 1: CIA SUMMARY
Community Impact Assessment: Summary

1. Name of service, policy, function or criteria being assessed: The retrofitting of energy efficiency measures to homes and non- domestic properties throughout the city

2. What are the main objectives or aims of the service/policy/function/criteria?

To implement the Leeds City Region Framework agreement to deliver green deal energy efficiency measures throughout the city

3. Name and Job Title of person completing assessment:

Ruth Abbott Housing Standards and Adaptations Manager

4. Have any impacts been Identified? (Yes/No)

Yes

Community of Identity affected:

Age, disability;
Pregnancy/Maternity

Summary of impact:

5. Date CIA completed: Ruth Abbott and Jacqueline Warren

6. Signed off by:

7. I am satisfied that this service/policy/function has been successfully impact assessed.

Name:

Position:

Date:

8. Decision-making body:
Cabinet

Date:
7th October 2014

Decision Details:

Send the completed signed off document to ciasubmission@york.gov.uk It will be published on the intranet, as well as on the council website.

Actions arising from the Assessments will be logged on Verto and progress updates will be required

Community Impact Assessment (CIA)

Community Impact Assessment Title:

The retrofitting of energy efficiency measures to homes and non-domestic properties throughout the city

What evidence is available to suggest that the proposed service, policy, function or criteria could have a negative (N), positive (P) or no (None) effect on quality of life outcomes? (Refer to guidance for further details)

Can negative impacts be justified? For example: **improving community cohesion; complying with other legislation or enforcement duties; taking positive action to address imbalances or under-representation; needing to target a particular community or group e.g. older people.** NB. Lack of financial resources alone is NOT justification!

Community of Identity: Age

Evidence	Quality of Life Indicators	Customer Impact (N/P/None)	Staff Impact (N/P/None)
Data from the Business Intelligence Hub Landmark data regarding Energy Performance Certificates Fuel Poverty Data Private Sector Stock Condition Survey 2008	Longevity; Physical Security; Health; Standard of Living; Individual, family and social life	Positive	None

Details of Impact	<i>Can negative impacts be justified?</i>	Reason/Action	Lead Officer	Completion Date
<p>Positive Evidence shows that older people are more likely to suffer from fuel poverty. The green deal contract aims to alleviate this through retrofitting of energy efficiency measures including simple measures such as loft and cavity wall insulation to more complex installations such as solid wall insulation. This will result in reduce fuel bills, provide warmer homes and reduction in cold – related illnesses</p> <p>Negative There may be some additional costs which are not fully covered by the scheme and older people maybe asked to contribute towards the shortfall. In addition we are aware from other schemes that older people are uncomfortable with the upheaval caused by the installation of measures such as loft insulation e.g. the creation of a loft hatch and the removal of items from the loft space.</p>	No	Explore with the preferred bidder their support towards older people including financial assistance where there is a shortfall and practical support to help them have the measures installed.	The new sub regional post	Following the call off the contract

Community of Identity: Carers of Older or Disabled People

Evidence		Quality of Life Indicators	Customer Impact (N/P/None)	Staff Impact (N/P/None)
