

Extract from 2015 Annual Review Report

<p>11</p>	<p>Location Abelton Grove (off South Lane)</p>
<p>Nature of problem and requested solution Problem with visitors to local shops and non residents parking in the road</p>	
<p>Background information Abelton Grove is a quiet residential cul de sac about 150m long. It already has “no waiting at any time” (double yellow line) restrictions to protect the junction with South Lane. Vehicles parking in Abelton Grove don’t seem to be causing an obstruction or other traffic management issue at the moment.</p>	
<p>Recommendation No action</p> 	

Ward Councillor comments

Cllr I Cuthbertson:

“My response to the TRO items considered:

I.1 Noted

Cllr T Richardson:

“Item 11.

As pointed out at residents meetings in this area, the residents have asked for a single line restricting parking between 8am to 6pm to prevent the ongoing issues of vehicles being parked all day and restricting or even blocking the road.

Officer comment: The suggestions for I1 were considered as part of the review.
