

City of York Council Code of Corporate Governance

Introduction - What is Corporate Governance?

Corporate governance is about the systems, processes and values by which Councils operate and by which they engage with, and are held accountable to their communities and stakeholders.

City of York Council is committed to demonstrating that it has the necessary corporate governance arrangements in place to perform effectively. Building on previous best practice the Council has developed and adopted a refreshed approach to developing a Local Code of Corporate Governance which follows the latest guidance issued by the Chartered Institute of Public Finance and Accountancy (CIPFA) and the Society of Local Authority Chief Executives (SOLACE), entitled "Delivering Good Governance in Local Government (2016)". This code brings together in one document the various governance and accountability arrangements currently in place.

The guidance defines the seven core principles, each supported by sub-principles that should underpin the governance framework of a local authority.

- Behaving with integrity, demonstrating strong commitment to ethical values and respecting the rules of law.
- Ensuring openness and comprehensive stakeholder engagement.
- Defining outcomes in terms of sustainable economic, social and environmental benefits.
- Determining the interventions necessary to optimise the achievement of the intended outcomes.
- Developing the Council's capacity, including the capability of its leadership and the individuals within it.

- Managing risks and performance through robust internal control and strong public financial management
- Implementing good practices in transparency, reporting, and audit, to deliver effective accountability.

Benefits & Monitoring

The documents and arrangements set out in the framework within this code demonstrate that the Council continually seeks to ensure it remains well governed and that to deliver good governance the Council must seek to achieve its objectives whilst acting in the public interest at all times.

The **Governance, Risk & Assurance Group** is responsible for ensuring the Code is reviewed annually as part of the preparation of the Annual Governance Statement. Any revisions to the code will be reported to the Audit & Governance Committee for approval as part of this process.
