

The Representations

Objections (x2)

I am chairman for the York Taxi Action Group. I would like to object to your proposal if change of times to the Piccadilly taxi rank. We have been asking for the said taxi rank to be a 24 hot rank instead your reducing the hours. We the taxi trade object against the changes.

I notice in the The Press that parking restrictions in Piccadilly were going to change and BlueBadge holders would not be able to park before 11am.

I use Piccadilly Blue Badge parking most days when visiting the town. Some weeks three or four days during the week and Saturday and Sundays. I usually arrive at 8am and leave around 9-30 to 10-30am. If I have an appointment the times may vary.

I will be very disappointed if the parking times alter. Piccadilly is easier to get to and also when leaving town.

Support (x2)

I welcome these changes

I am writing on behalf of the MySight Access Group to say that we are very grateful to the Council for acting so quickly on this. The proposed changes will make it significantly easier for people with sight loss to visit MySight York. We just hope that use of the Blue Badge spaces will be adequately monitored.
