To whom it may concern,

Can we table our concerns/objections to the proposed changes in licensing arrangements for The Cross Keys public house?

We are already experiencing an unacceptable level of noise pollution and nuisance behaviour (rowdy behaviour after closing hours on St. Helen's Road, littering with discarded bottles, cans and occasionally glasses) and we feel that any further facilitation of this – vis-à-vis extended licensing hours and/or the installation of the so-called 'Jumbrella' in the external area linked to the pub car park – would further exacerbate this situation and, more generally, would further degrade the quality of life in this primarily residential area.

We hope that the Licensing Office will take this into account in making their decision.

Yours sincerely,

Dear Sirs,

The Cross Keys, Tadcaster Road
Ref: CYC-009012

We do hope the Council will refuse this Application.

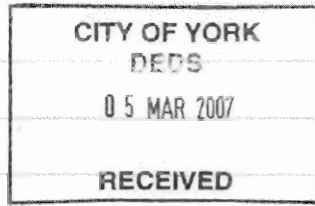

All the noise, nuisance, litter, bottles and glasses chucked over into our garden, cigarette ends on the pavements, all this happens late at night. Any relaxation of the present limits can only make matters worse and would be quite out of keeping with the neighbourhood, which is residential and sub-urban.

Yours faithfully,

Dear Sir/Madam,

Ref: CYC-009012 CROSS KEYS PUBLIC HOUSE

I write to express concerns regarding the above relating to the proposed amendment to its Premises Licence.

My concerns are related to the possibility of extending the time period that allows drinking in the external area after 23.20 hrs. Bearing in mind that this is a residential area I would wish to keep noise and nuisance behaviour (which potentially would increase) at this time of night to a minimum.

Yours faithfully
