20/239 - TO RECEIVE A REPORT FROM A CITY OF YORK COUNCILLOR

City Cllr. Anne Hook reported on the following: -

I walked both sides of every road in Nether Poppleton, with the exception of Poppleton Park, to see what problems were caused by the works done by TalkTalk to lay their cables and, at the same time, to note any other matters of concern like potholes or blocked drains.

Church Lane was particularly upsetting because all the work done last year to clean up the bend has been undone with lots of mud, stopping water running to the drain - which is also blocked. There are several other blocked drains along the lane which have resulted in more mud and standing water. This has all been reported.

The good news is that CYC has bought an area of land between the A59 and the B1224, easily reachable along Northfield Lane, to plant a new section of the Northern Forest. As well as trees, there will be wildflower meadows, cycle paths and a cafe. At the moment, they are drawing up a "straw man" plan, which will be put before local people for comments. If anyone was interested in giving feedback, I can put them in touch and their suggestions will be welcomed. This is an exciting project which will eventually be combined with planting at Harewood Whin when appropriate, to create a large area for local people to enjoy, as well as help reduce the carbon footprint of the city.

A grant has been received from the government for the second tranche of spending on safe pedestrian and cycle routes. I have been told that they will try to make the A1237 bridge over the river and railway as safe as possible to help children from Rawcliffe and Skelton reach Manor

School. With new cycle paths along the A19, it will be easier to get to the city centre and trips to Clifton Moor would be safer for Poppleton residents.
