A variety of investment instruments will be used, subject to the credit quality of the institution, to place the council's surplus funds. The criteria, time limits and monetary limits applying to institutions or investment vehicles are listed in the tables below.

Investments are split into two categories of specified investments and non-specified Investments. Specified investments are relatively high security and high liquidity investments, which must be sterling denominated and with a maturity of no more than a year. Non-specified investments are those investments with a maturity period of greater than one year or are still regarded as prudent but may require more detailed scrutiny and assessment procedures.

**Accounting treatment of investments.** The accounting treatment may differ from the underlying cash transactions arising from investment decisions made by this council. To ensure that the council is protected from any adverse revenue impact, which may arise from these differences, treasury officers will review the accounting implications of new transactions before they are undertaken.

## **Specified investments:**

Counterparty type	Minimum 'high' credit criteria/colour band	Maximum investment limit per counterparty institution	Maximum maturity period
DMADF – UK Government	UK sovereign rating	£15m	6 months
UK Government Treasury Bills	UK sovereign rating	£15m	1 year
