Declaration of Support / Objection

I/We* support/object to* this Public Path Order (if objecting, please give your reasons, using a separate sheet if necessary. Comments in support of the Order may be given if desired.)

We have no objection to this diversion provided it is at no cost to your PROW budget. The offer of free diversions was made some years ago & you promised it would not be repeated. It is for the advantage of the land owner and the landowner should agree to maintain the resulting head land paths, so there is no ongoing maintenance cost to your PROW budget. In support of the Order, it will result in less maintenance for the occupier, in that he will no longer have the resulting costs of maintaining a cross field path.
