

**Notice of a public
Decision Session - Executive Member for Culture, Leisure and
Communities**

To: Councillor Smalley (Executive Member)

Date: Tuesday, 22 February 2022

Time: 10.00am

Venue: The Snow Room - Ground Floor, West Offices (G035)

AGENDA

Notice to Members – Post Decision Calling In:

Members are reminded that, should they wish to call in any item* on this agenda, notice must be given to Democratic Services by **4:00pm** on **Thursday 24 February 2022**.

*With the exception of matters that have been subject of a previous call in, require Full Council approval or are urgent which are not subject to the call-in provisions. Any called in items will be considered by the Customer and Corporate Services Scrutiny Management Committee.

Written representations in respect of items on this agenda should be submitted to Democratic Services by **5.00pm** on **Friday 18 February 2022**.

1. Declarations of Interest

At this point in the meeting, the Executive Member is asked to declare:

- any personal interests not included on the Register of Interests;
- any prejudicial interests;
- any disclosable pecuniary interests

which he may have in respect of business on this agenda.

- 2. Minutes** (Pages 3 - 6)
To approve and sign the minutes of the Decision Session held on 11 January 2022.

- 3. Public Participation**
At this point in the meeting members of the public who have registered to speak can do so. Members of the public may speak on agenda items or on matters within the remit of the committee.

Please note that our registration deadlines have changed to 2 working days before the meeting. The deadline for registering at this meeting is at **5.00pm on Friday 18 February 2022**.

To register to speak please visit www.york.gov.uk/AttendCouncilMeetings to fill out an online registration form. If you have any questions about the registration form or the meeting please contact the Democracy Officer for the meeting whose details can be found at the foot of the agenda.

Webcasting of Public Meetings

Please note that, subject to available resources, this public meeting will be webcast including any registered public speakers who have given their permission. The public meeting can be viewed on demand at www.york.gov.uk/webcasts.

During coronavirus, we've made some changes to how we're running council meetings. See our coronavirus updates (www.york.gov.uk/COVIDDemocracy) for more information on meetings and decisions.

- 4. York Learning – Self-Assessment Report** (Pages 7 - 34)
2020/21
This report presents York Learning's Self-Assessment Report (SAR) for the academic year 20/21.
- 5. Urgent Business**
Any other business which the Executive Member considers urgent under the Local Government Act 1972.

Democracy Officer:

Angela Bielby

Tel: 01904 551088

Email: democratic.services@york.gov.uk

For more information about any of the following please contact the Democracy Officer responsible for servicing this meeting.

- Registering to speak
- Written Representations
- Business of the meeting
- Any special arrangements
- Copies of reports

Contact details are set out above.

Coronavirus protocols for attending Committee Meetings at West Offices

If you are attending a meeting in West Offices, you must observe the following protocols.

Good ventilation is a key control point, therefore all windows have been opened to allow adequate ventilation, they must be left as set prior to the start of the meeting.

If you're displaying possible coronavirus symptoms (or anyone in your household is displaying symptoms), you should follow government guidance. You are advised not to attend your meeting at West Offices.

Testing

The Council encourages regular testing of all Officers and Members and also any members of the public in attendance at a Committee Meeting. Any members of the public attending a meeting are advised to take a test within 24 hours of attending a meeting, the result of the test should be negative, in order to attend.

Test kits can be obtained by clicking on either link: [Find where to get rapid lateral flow tests - NHS \(test-and-trace.nhs.uk\)](https://www.nhs.uk/conditions/coronavirus/coronavirus-test-kits), or, [Order coronavirus \(COVID-19\) rapid lateral flow tests - GOV.UK \(www.gov.uk\)](https://www.gov.uk/order-coronavirus-rapid-lateral-flow-tests).

Alternatively, if you call 119 between the hours of 7am and 11pm, you can order a testing kit over the telephone.

Guidelines for attending Meetings at West Offices

- Please do not arrive more than 10 minutes before the meeting is due to start.
- You are not required to wear a face covering whilst in West Offices. CYC supports the decision of those who wish to do so.
- Visitors to enter West Offices by the customer entrance and Officers/Councillors to enter using the staff entrance only.
- Ensure your ID / visitors pass and lanyard is clearly visible at all time and worn around the neck.
- Regular handwashing for 20 seconds is recommended.
- Please use the touchless hand sanitiser units on entry and exit to the building and hand sanitiser within the Meeting room.
- Bring your own drink if required.
- Only use the designated toilets next to the Meeting room.

Developing symptoms whilst in West Offices

If you develop coronavirus symptoms during a Meeting, you should:

- Make your way home immediately
- Avoid the use of public transport where possible
- Follow government guidance in relation to self-isolation.

You should also:

- Advise the Meeting organiser so they can arrange to assess and carry out additional cleaning
- Do not remain in the building any longer than necessary
- Do not visit any other areas of the building before you leave

If you receive a positive test result, or if you develop any symptoms before the meeting is due to take place, **you should not attend the meeting.**

City of York Council

Committee Minutes

Meeting	Decision Session - Executive Member for Culture, Leisure and Communities
Date	11 January 2022
Present	Councillor Smalley (Executive Member)

In view of the changing circumstances around the Covid-19 pandemic, this meeting was held remotely. Any relevant decisions recorded in these minutes will be formally approved by the Chief Operating Officer, using his emergency delegated powers.

1. **Declarations of Interest**

The Executive Member was asked to declare, at this point in the meeting, any personal interests not included on the Register of Interests or any prejudicial or discloseable pecuniary interests that he might have in respect of the business on the agenda. None were declare.

2. **Minutes**

Resolved: That the minutes of the Decision Session held on 7 September 2021 be approved and be signed by the Executive Member as a correct record at a later date.

3. **Public Participation**

It was reported that there had been one registration to speak at the meeting under the Council's Public Participation Scheme.

Cllr Kilbane spoke on agenda item 4, York Learning and North Yorkshire Adult Learning and Skills Engagement Strategy 2021-2025. He welcomed the opportunity to have input into the draft strategy and he highlighted his experiences within this area, noting what a life-changing experience good adult education can be and that it was also crucial in terms of the jobs market, particularly as we transition towards a low carbon economy. He raised concerns regarding resourcing and hoped adequate funding would be available to support the projects and he also

hoped deep meaningful engagement with residents, businesses and education providers would take place throughout the city.

It was also reported that the Executive Member had received a written representation from Cllr Webb regarding agenda item 4. He had raised concerns with paragraph 5 of the report, particularly regarding the potential loss of control of Adult Learning to a potential Mayor who may not be close enough to York to understand the particular issues faced by Adult Learners, as well as the particular needs of the York job market. He understood that there was a need to focus on skills that would improve a person's opportunity for employment but he hoped that this wouldn't be at the expense of supporting a person's health and wellbeing and he suggested that this point could be clarified in the draft report at Annex 1 of the report.

4. York Learning and North Yorkshire Adult Learning and Skills Engagement Strategy 2021-2025

The Executive Member considered a report that proposed a consultation on a draft York Learning and North Yorkshire Adult Learning and Skills Engagement Strategy for the years 2021 to 2025.

The Shared Head of Adult Learning and Skills (York and North Yorkshire), the Assistant Director of Communities and Culture and the Head of Service Adult Education were in attendance to provide an update and answer any questions raised.

Officers informed the Executive Member that the aim of the strategy was to set a clear direction for adult learning and skills engagement across both York and North Yorkshire and to also offer the opportunity for individuals to contribute to that. It was noted that it was a draft consultation at this stage and that the draft strategy set an engagement vision with the largest and broadest members of the community.

Officers addressed the research commissioned by York and North Yorkshire Local Enterprise Partnership (YNYLEP), as highlighted within paragraph 5 of the report, and they noted that provision had been delivered to meet a whole range of individual needs but that the majority of people who were currently engaging in learning across York and North Yorkshire were doing so because they were already looking in that direction. Reflecting on the concerns raised, officers agreed it

was essential to set a clear strategy for adult learning based upon a number of key principals.

The Executive Member was also informed that York Learning was funded by the Education Skills Funding Agency (ESFA) and that they provided a clear remit to target English, maths, digital skills and family learning. Other areas also supported included health and social care, child care and business and management skills and the new strategy would also ensure people could gain the relevant skills to engage with learning providers that supported green skills training.

The Executive Member shared Cllr Webb's viewpoint regarding devolution and he expected residents of York to receive the best possible deal out of their adult education service when devolution discussions restarted. Officers also confirmed that the strategy within the agenda pack was the summary document and that the full consultation document provided a greater level of detail and set an effective landscape to protect the importance of community learning, which not only built people in skills but built and supported their health and wellbeing.

In answer to questions raised regarding the consultation process and engaging with the wider population, officers confirmed that:

- The full document would be published for residents, stakeholders and partners to read and comment on.
- York Learning would work collaboratively with all stakeholders and partners.
- Wider consultation would take place in January and February 2022 with an implementation plan to be in place by March 2022.
- A wide range of marketing and communication strategies would be used, including developing effective partnerships to reach communities of interest and underrepresented groups.
- York Learning would take part in any nationwide campaigns that encouraged people back to learning.

The Executive Member thanked officers for their report and for delivering an extensive offer to learners and for their continued work during the pandemic.

Resolved: That the Chief Operating Officer be recommended to approve further public consultation to be undertaken, to include further education (FE) colleges, York and North Yorkshire Local Enterprise Partnership Skills Board, North Yorkshire and York Community Learning Partnership, and other education, voluntary sector and business partners.

Reason: To advance partnership working between the two adult learning services and local stakeholders to stimulate engagement with adults to support the aspirations of local, regional and national skills strategies.

Cllr Smalley, Executive Member

[The meeting started at 11.00am and finished at 11.27am].

**Decision Session - Executive Member for
Culture, Leisure and Communities**

22 February 2022

Report of the Assistant Director of Customer & Communities

York Learning – Self-Assessment Report 2020/21**Summary**

1. This report presents York Learning's Self-Assessment Report (SAR) for the academic year 20/21. The full report is attached at Annex 1 with performance data at the end of the report.
2. The final report is sent to Ofsted February 2022.

Recommendations

3. The Executive Member is asked to consider the findings of the service's self-assessment report and make comments and recommendations for the production and publication of the final report.

Reason: To help monitor the service and ensure robust governance arrangements.

Background

4. York Learning is a council service which delivers a range of learning programmes to support people into employment, to improve their skills and to support their personal development. The service is funded almost exclusively from external contract funding and fee income. For the academic year 2021/22 this will be just over £3m. Our funding spend was over the 90% threshold set and any claw back in funding was related to late initiatives set due to Covid which we were unable to respond in the time set or related to activities we could not develop due to Covid, such as Traineeships where placements were unavailable.
5. This report is an important element in enabling the service to demonstrate to Ofsted that it has secure and robust governance arrangements in place.

6. The SAR leads to a number of Quality Improvement Plans (QIPs), which are dynamic documents used to monitor and record quality improvement actions at a service level. It also helps to inform the production of the next strategic plan which will be presented to the Executive Member in July.

Key Issues

7. There has been significant improvement in education and training achievement across the service from moving from 77.4% in 19/20 to 81.7% in 20/21. Whilst this still doesn't exceed/match pre-Covid figures of 84.4% we feel this is still very good considering the challenges for learners over the last year.
8. The apprenticeship programmes have formally been removed from ESFA sanctions due to the improvements this area has made. And whilst achievement is still low at 61.50% this is related to legacy learners that had been unable to complete due to Covid impact on the Health and Social Care and Childcare sectors.
9. York Learning continue to struggle to provide premises for more face to face learning in a Covid safe environment which is also suitable for adults. This is due to not having their own premises or venue. We continue to search for a suitable site that enables adults from across the city to reach easily but which doesn't have an impact on increasing costs for services to learners.
10. The High Needs (SEND) programmes continue to provide good outcomes for young people to support their ongoing preparation for adulthood learning. Increased partnership building is increasing choice for these young people in their chosen area of study. Good support is provided to all subcontractors to ensure the offer reflects good quality and systems for the best achievements and outcomes for learners.
11. The 16-18 Study Programme has continued with smaller numbers due to Covid class size restrictions. Learners are motivated by an excellent supportive team and achievement has increased this year from 60.5% in 19/20 to 78.8% for 20/21. On top of that 79% of young people on this programme has progressed into positive outcomes after finishing their programme of study into employment, further study or volunteering.
12. The service continues to develop its offer to reflect the outcomes expected of the combined authority. New partnerships have been formed and social prescribing has started to be rolled out with the CVS and Kyra. New education programmes are being developed with York's Menfulness, Men's

Shed, York Carers and Young Carers whilst moving some of our wider creative and fitness learning into full costs provision so that we can retain an offer for those most in need for York.

13. We have suffered, for a second year, a drop in income due to Covid through 20/21 of £86,266. This is mainly due to the provision having to be fully online during the summer of 19/20 and then through most of autumn, spring and summer of 20/21. Whilst being online was helpful for many, and for many new learners recruited through lockdowns, it wasn't the way some of our learners wanted to engage. This was related to those who access our classes to allay their sense of isolation and loneliness; or due to their lack of equipment or Wi-Fi; or for those who need greater support due to their starting points in learning essential skills such as English, maths and Digital Skills.
14. Unfortunately, for many being online was not an option they would, or could choose. I am happy to report that this academic year saw a return to the classroom for our wider community learning learners and our income has already exceeded what was earned in 20/21 which is a promising start.

Consultation

15. The plan is presented for consultation and approval. It has gone through some internal service consultation with senior managers, 'peer partners' who are also adult learning providers across the region and our governance board, and is in part a result of a rigorous self-assessment processes which are ongoing.

Options and Analysis

16. It is open to the Executive Member to suggest any amendment to the SAR before York Learning send to update with Ofsted accordingly.

Corporate Objectives

17. York Learning's plan is set within the context of the council plan responding to providing people with a 'good' place that offers them access to quality education and opportunities; a decent job and standard of living; a sense of fairness and inclusion; good health and wellbeing; strong cultural knowledge and a safe community.

18. The council plan is structured around eight core outcomes, which in turn reflect the key components of a good quality of life for our residents. These are:
- Well-paid jobs and an inclusive economy
 - A greener and cleaner city
 - Getting around sustainably
 - Good health and wellbeing
 - Safe communities and culture for all
 - Creating homes and world-class infrastructure
 - A better start for children and young people
 - An open and effective council
19. Our plan also responds to a number of sub regional, regional and national policy objectives.

Implications

20. **Finance:** Any actions or financial implications of the SAR are contained with service budgets already set for 2021/22. The service is fully funded via external contracts and grants.
21. The report has no Human Resources, Equalities, Legal, Crime and Disorder, Information Technology, Property or other implications.

Risk Management

22. In compliance with the Council's risk management strategy the main risks identified associated with the areas of work covered in this report are operational: affecting delivery of the Council's business objectives and its image and reputation. Measured in terms of impact and likelihood, the risk score has been assessed at 10 which equates to "Low". This is acceptable but means that regular monitoring will be required of the Quality Improvement Plans.

City of York Council

York Learning

DRAFT

Self-Assessment Report

2020-2021

York Learning - High Level Summary

York Learning is the Adult Learning arm of City of York Council. Offering a broad curriculum plan across the City to provide residents with different opportunities in which to engage with learning. York Learning last visit by Ofsted was at the end of November 2019 and were graded as a 'Good' provider.

Comments from Learners on their learning with York Learning:-

'The course has helped me consider the kind of work I would like to do going forward' English for jobs Learner

'Not currently in employment but feel it has helped moved me forward towards what I would like to do next' English learner

'I was planning to enrol onto a creative media course at University. This has given me a better idea and confidence of how I could use photography within that course.' Photography learner

'I think my tutor Helen and Jon are excellent as they are patient and willing to help sort out student problems by the arrangement of tutorial. I really enjoy the maths course. I may carry on the A Level Maths study if my GCSE Maths grade is good.'

'The thing that made me like the most about the course was the fact that there's an equality of treatment among the diverse communities and you were being welcomed, supported and encouraged as anyone else towards the progression of the course.' FS learner

York is viewed as an affluent city however, it does have some small pockets of deprivation and has the largest proportion of residents on zero hour contracts in the Yorkshire and Humber region. A substantial amount of the workforce in York is linked to tourism and hospitality, traditionally a low income sector, which is a concern when the national picture is that households with incomes under £35,000 are likely to have decreased digital engagement during the COVID pandemic at a time when digital engagement needed to increase. As part of our intent we work hard to reach residents who are most in need, to have ample opportunities to gain the skills they require to find work and improve their life chances and wellbeing to achieve their ambitions. Our Foundation Learning programme is aimed at some of the most vulnerable young people in the City making the transition from education into employment. Tutors know their learners extremely well and use this knowledge to provide provision that is flexible and individual to meet learner's needs and enable them to achieve their full potential.

We work hard as a service to insure our intent also supports with the council plan which is centred on core outcomes, aligning our offer to provide outcomes to:-

- Well-paid jobs and an inclusive economy
- A greener and cleaner city
- Good health and wellbeing
- Safe communities and culture for all
- A better start for children and young people

We follow robust and rigorous quality processes starting with each curriculum area producing a self-assessment report (SAR) through the year with regular quality updates with senior management and observations of teaching and learning. These individual reports are presented at a peer 'SAR' challenge who interrogates their input and data. These reports are collated together to form our one report and this report is then presented at a SAR challenge with regional peer partners who will interrogate the data and judgements. This report then goes back to governance for their final approval and then to our Executive Member to approve and sign off.

York Learning continues to manage a high-quality curriculum for adult learning that focuses on improving learners' knowledge and skills in English, mathematics, ICT and digital skills. We recognise the importance of these subjects in tackling social disadvantage. During 2020-21 much of the English, maths, ICT and digital skills provision remained online, as it had done at the end of 19-20, but we recognised that some learners in this skills area needed to have face to face provision. This was particularly apparent within our IT basics cohort – teaching someone how to use a computer via a remote computer link doesn't work for those with little skill/confidence. We also knew that some learners on full accredited programmes didn't have the equipment required to work remotely or did have the equipment but didn't have the required skill level or confidence. Where we can we have provided equipment and data access but for some learners, only face to face was going to help. We therefore put into place a limited amount of face to face provision, with robust safety procedures and ran this where we could. The broad curriculum offer also includes; English for Speakers of Other Languages, 16-25 High Needs Supported Delivery, Apprenticeships & Work Based Learning, Employability, Family Learning, Visual Performing Arts, Modern Foreign Languages, courses for Health, Wellbeing and Leisure and Counselling all of which is supported by a robust information, advice and guidance (IAG) offer.

Building on the changes made in March-July 2020 the curriculum teams have continued through 2020_21 to refine and adjust our delivery methods to reflect remote and blended delivery. We have also led training for other staff both internally within York Learning and externally to help them improve their own digital confidence and skills.

Very positive relationships have continued to be fostered in class and online by tutors, which help to motivate, inspire & contribute to the social wellbeing of our learners. Individuals achieve and often extend their learning goals because of this. The peer learning which occurs within our classes is often cited as one of the main reasons for re-enrolment.

York Learning, regularly run highly valued extension opportunities for both existing and new learners. Learners who come from craft, art and vulnerable groups in the City work together with other parts of the service on a combined theme. Despite COVID we still had our Inspirations Exhibition to celebrate our learners' achievement, online, via Padlet. Although completion of our 2020 Community Arts project "The Place Where I Live" had to be postponed last year, we relaunched the

project this year. Individual pieces have been sent to participants after attending Zoom meetings where the practicalities and scope of the project was discussed. The finished work will be exhibited in a City Centre location during autumn 2021/Spring 2022.

Current Community Arts project: - [The Place Where I Live \(padlet.com\)](#)

Inspirations Exhibition: - [Inspirations 2021: Art & Photography \(padlet.com\)](#)
[Inspirations 2021: Textiles & Dressmaking \(padlet.com\)](#)

York Learning has developed long lasting effective partnerships with local libraries, employers, Job Centre Plus, local schools, nurseries, charities and community centres. These partnerships support our recruitment to our targeted provision.

York Learning's governing body have met regularly during 2020-21. The body includes representatives from; employers who we work with; representatives of our sub-contracted provision; learner voice is represented through current and historical learners; senior managers within York Learning; local government in the form of City of York Council councillors one of whom is the Chair. Governance is also provided by our elected members and senior leaders via scrutiny committee, with information provided through clearly defined reporting processes.

There have continued to be challenges for the service due to COVID which was primarily around entry level learners in all areas of related provision and apprenticeships not being able to do their workplace assessments and delays with IQAs. Recruitment of new learners has significantly reduced in all areas of delivery apart from Counselling. This area sustained the number of applications it received for 20-21 and has seen an increase in applications for 2021-22 academic year which has led to an additional course being offered at Level 2 and Level 3 surmounting to an additional 30 learners enrolling onto the programme. Many older learners who comes to classes for their wellbeing and social health have decided to not join us online and were waiting for classes to return in venues and some have moved into private provision. Within accredited learning, those who are low skilled and harder to reach have been slow to sign up or challenging to keep on board without face to face contact or partnership - work due to their starting points or life challenges. Family Learning learners have struggled to juggle home schooling and work commitments, particularly with shared spaces, limited equipment and lack of good Wifi access at home. The partial restoration of face to face delivery has helped, although due to the long term impact of COVID and the demands of shielding/isolation placed on the population numbers are still not where they were before March 2020. A positive is that some learners have indicated that they will continue learning remotely and that this style of learning suits them. To support learners with digital equipment needs, who do not have devices or access to Wifi/data, we have actively worked across partnerships to support the formation of a York IT Reuse scheme. This allowed us to refer learners who have low/no income to receive a free refurbished device which can be customised to their specific wishes. Over 85 devices have been given out so far and this will continue into 2021-22.

Our Apprenticeship programme has continued to be strong this year but some few legacy learners in qualifications have left some qualifications in minimum standards. These learners should have completed in 2020-21 but due to Covid were not able to do their workplace assessments and faced difficulty with attending/running exams and on top of that delayed IQAs and EVs all culminated in those continuing over into the next academic year. Our minimum standards percentage is at 19.5% so well below the baseline.

Arrangements for Safeguarding and Prevent are good but we are improving and further developing them to include sexual exploitation and harassment. Further training is being rolled out to staff which includes on how to cascade that information to learners in a meaningful way.

Types of Provision

Provision for Learners with High Needs

York learning continues to have a growing, healthy and responsive personalised learning delivery in post 16 education for students with Education Health and Care plans (EHCP) who have significant learning support needs. Provision for these learners is very good and the partnership working and co-ordinated offer through sub-contractors provides an outstanding offer to these learners. Our sub-contracting partners have worked tirelessly with us to ensure this provision has continued throughout lockdown using innovative delivery models and embracing the use of technology, particularly for those learners who are clinically very vulnerable and have been required to shield. In 2021/22 we had around 102 learners and work with a range of subcontractors to ensure there is an adequate choice of courses and delivery models. Students undertake a range of accredited qualifications but most provision is non- accredited and covers vocational and independent living skills to support successful transition to adulthood. Ofsted reported (Dec 2019) that these learners experience a welcoming atmosphere that tutors work hard to create. Learners have also commented that they have a feeling of belonging they have not experienced in previous learning environments.

This provision has continued to be highly responsive and of significant benefit to young people, providing a very good educational experience. Programmes are targeted at learners with an EHCP and are completely subcontracted but we fully support and provide assistance to the sub-contractors throughout the process and quality management of it. Teaching of vulnerable adults has continued throughout lockdown and all risk assessments ensure that venues and teams are following strict safety protocols. The focus of this provision is to provide a learning pathway that moves students towards a variety of employment options ranging from paid employment, self-employment, enterprise co-operatives or voluntary work. As the learners have a range of learning needs some are moving through a pathway that is more geared to independent living skills allowing them to have more choice within a social care destination.

Adult Learning Programmes

There is a wide and inclusive curriculum offer which is evenly spread across the City and since going online is accessible as long as learners have access to a device and data. We ensure all our classes have a welcoming environment in which they feel safe and able to learn. Achievement rates in Education and Training have risen from 77% to 81.7% but is not yet fully returned to 18/19 levels 84.4%. Whilst this can be attributed to COVID, where some classes were cancelled OR where learners felt unable to continue to study at home due to also working from home or home schooling, we have continued to improve our online resources, to support them.

There is consistently good standards of work within ICT, maths and English, including English for Speakers of Other Languages. Sustained progress continues across all programme types and programme aims with good improvement in all areas. Outcomes for learners is good and the community learning programme is wide ranging prompting community engagement and different pathways to return to learning.

Learners have access to good information, advice and guidance across a range of programmes. We have introduced a wide range and accessible programme relating to employability skills and IAG career/interviews for individuals. Recognising and recording learner progress is good but has become challenging whilst being solely online and therefore continues to be an area for development.

16-18 Study Programmes

The 16-18 study program is very good and meeting the needs of some of the most vulnerable young people in the city. This is a full time programme which attracts those young people who cannot attend college or other mainstream provision.

Classes have continued through COVID with a combination of reduced classroom times in bubbles and increased online/blended learning. The combination of remote and face to face learning has worked well in keeping learners engaged and achievement is good. A large proportion of learning took place face to face which been imperative in supporting learners with their mental health and well-being. The majority of learners suffer with anxiety/mental health issues which, for some, have escalated during COVID and we continue working with outside agencies to ensure support is in place.

Safeguarding and Prevent arrangements have continued to be extremely well managed with good support for learners on programmes. Learners feel safe and whilst attendance is challenging, it is being well managed.

79% of learners have had positive outcomes from their learning even though work placement opportunities have been difficult to arrange.

Apprenticeships

Apprenticeship provision is no longer in minimum standards and continues to improve.

Our Onefile E-Learning system has ensured that extensive quality improvement actions have taken place over the past year. These include improved partnerships with employers, enhanced initial assessments and support of candidates during COVID. Improved systems for tracking of learners, supporting learners & portfolio building continues to develop, and improvements have continued to be communicated to the Education & Skills Funding Agency (ESFA) which leads to better outcomes for learners.

We continue to plan and support our employers and candidates, as individuals and with face to face meetings, where possible. This assures the quality of our offer, which currently includes Level 2, 3 & 5 qualifications related to Childcare, Adult Care, Business Admin, Management and Customer Service.

We have had significant success targeting Functional Skills qualifications linked to apprenticeships in the last 18 months and as a consequence have been able to achieve success with some learners who had been previously flagged as likely to pass their main aim but not complete their apprenticeship overall.

Overall Grade	Good
Quality of Education	Good
Personal Development	Good
Behaviours & Attitudes	Good
Leadership & Management	Good

We are not yet outstanding due to these

Key Areas for Improvement

- Development work is required to build on existing partnerships and develop new partners and programmes targeted at those most disadvantaged or least engaged in the area.
- Tutor feedback to support learner's reflections on their work requires more work to be meaningful and effective to help progress learners.
- Processes are required to be put in place to facilitate the consistent identification of how adult learning builds learners transferable (soft) skills across the provision to better reflect the impact of community non vocational learning.
- Further work is required to improve the meaningful delivery of Prevent and other violent risk within online learning courses.

Covid – Strengths and Challenges through this period

Covid highlighted that we have resilient, talented and highly committed management and tutor teams. Tutors have continued to engage with new technologies such as Zoom video conferencing, Teams and Google Classroom, attending training set up by our own IT team and also pairing up with peers to “practise” new skills. Courses have been further developed with additional resources and student 1-1 tutorials to ensure learners kept engaged and felt supported.

York learning and City of York Council have continued to provide a high level of support during the pandemic to all team members to support remote working and accommodate work/life balances and wellbeing.

Learner numbers within community learning have maintained a drop in learner numbers from 18/19 (4,660) with 20/21 numbers at 3,906 enrolments. However, whilst the online offer doesn't suit all learners, we have taken the opportunity to re-target our offer and develop 'ground up' planning as part of programmes moving forward. We suspect this will keep learner numbers lower but this enables us to deliver more targeted classes which will be smaller in numbers to those most disadvantaged and moving some of the offer into a full cost offer. Learning how to teach online has enabled some of our tutors to become self-employed and they have picked up those missing learners in a private capacity instead.

Strategies continue to be developed in how to engage the most disadvantaged when we are unable to do face to face activities. Better digital access is required if online only learning was to return, due to some learners being unable to participate or unwilling to engage with the move to online delivery. This is mainly within entry and lower level skills including family learning and Digital Skills. With Digital skills/ICT retention rate for 2020-21 is at 86.332%, however this reflects two factors:

- A number of learners were retained from 19-20 who had indicated they would return when face to face delivery was open again. When face to face was restarted they still did not feel comfortable returning or were required to shield and thus they were withdrawn.
- Additionally, the lockdown that was announced Jan-March 2021 seemed to have a significant impact on the mental health of some of our learners, both new and historical, and a number withdrew at that point citing the effect of the lockdown on their mental health as a reason to withdraw.

Due to the one-year condensed teaching format and fast-pace of the courses tutor assessed grades was challenging for our tutors but through good management and administrative support they successfully supported their learners.

16-24 provision has had significant impact due to COVID on work placements. Further work is required to identify and secure alternative, realistic and achievable employment options available to learners.

New approaches and resources were created during 20/21 on Prevent, Safeguarding and British Values for online delivery but these resources do not provide the conversations needed to make this learning meaningful.

Recruitment of new learners has continued to be challenging through lockdowns, particularly with Entry level learners in all areas of provision. Whilst learner numbers show a drop in 19/20 figures by 508, we have had an additional 441 learners move into full cost provision, as part of our strategy, which puts the drop in numbers at only 67 compared to 19/20. This is a reflection of how hard the team has worked to continue to engage with learners in spite of the barriers of lockdown and reduced face to face working.

Academic Year	Total number of Learners	Total Number of Enrolments	Drop in Learner Numbers (from previous year)	Plus/Minus in Enrolment Numbers
2018/19	3145	6451		
2019/20	2703	5329	442	-1,122
2020/21	2195 +441/Full Costs	5660	508	+331

The increased need for our own venue has been highlighted due to COVID and work is continuing to identify a suitable location for this.

York Learning – 2020-2021 Self-Assessment Report – York Learning

Quality of Education

Intent

Strengths

- Ambitious, responsive, creative, inclusive and well developed curriculum, extended through consultations with learners, which supports and engages learners to have high aspirations, motivation and commitment to their learning
- Wide range of opportunities are available via the curriculum offer to provide multiple entry points and progression routes meeting the needs of employers and industry standards to support learner's entry or progression within employment.
- Learners are empowered to connect with their learning via various schemes including; loan equipment; reused laptops or tablets to keep; broadband/wifi access and other mobile devices.
- Excellent planning within 16-19 and High Needs Special Education Need programmes are designed to support learner's complex SEMH issues alongside specific learning difficulties.
- Agile creation of additional Level 2 and Level 3 courses to support employment needs in the city or those with specific spiky profiles.
- Excellent enhancement of learner's wellbeing and confidence is enhanced through the acquisition of new employable or creative skills.
- Good development of learners transferrable 'human skills' that help in all aspects of life: critical thinking, social skills, increased ability and/or willingness to communicate, work collaboratively, etc.
- Well trained resilient, dedicated and knowledgeable teaching teams who creatively engage, motivate and support learners to achieve their aims and who deliver well organised, planned and progressive sessions which enable learners to develop and advance. 98% of learners agreed that tutors have excellent/good knowledge and skills.
- Good online learning delivery has continued and expanded to increase learner's opportunities for learning whilst strengthening the offer with excellent resources. Further embedding of digital platforms within High needs delivery has led to good online learning in an area, which historically has struggled with distance learning options, and has enabled learners to showcase work.
- There is good IAG provided to learners which supports learning and employment progressions. The counselling curriculum particularly has an embedded robust IAG across all levels of delivery to support and inform progression onto further training and employment with a range of providers.
- Good systems are in place to support employers, learners & internal teams to manage the apprenticeship delivery and progression.

Areas for Improvement

- Increased focus is required to develop a wider range of learning opportunities that support sustainable industries and higher level skills development to create pathways to support higher level skills for creativity and coding within the curriculum
- Lower level learners struggled to engage and learn online during lockdowns and additional support resources are being developed in case face to face becomes restricted again.
- IT tutors skills require development to broaden their skills in coding and to enable curriculum development and pathways to higher level learning across the city.
- Continued work is required to increase partner engagement so that it informs planning to be 'ground up' rather than a 'bottom up' cycle of programmes.
- Further work is required to develop a 'flexible' English course that offers multiple entry points in a flexible modular design.
- Fully return to face to face learning for Entry and Level 1 learners in essential skill areas
- Whilst overall learner's numbers from ethnic backgrounds is above the Cities demographic some areas of the provision could do to improve their curriculum to better reflect learning opportunities that reflect different interest.
- Research is required to look at the long term strategies needed to develop the apprenticeship offer so that it meets future employer needs.

Implementation:-

Strengths

- Dedicated teaching teams have excelled with a 'can do' attitude that has supported and informed learning and enhanced the peer support network by sharing skills and resources.
- Good teacher skills development via teaching conferences and Teacher Triangles has strengthened peer support across the teaching teams developing and enhancing pedagogy which better supports learner's development.
- Good specialist trained staff provide efficient and effective assessment and early identification of learner needs.
- Good flexibility with delivery has allowed greater support and 1-1 sessions for those learners with specific needs
- Good teaching and effective tutor collaboration has led to the development of a topic based programme that supports learners with essential vocabulary and bespoke courses to support parents with children's learning within the ESOL programme.
- Very good flexible and blended offer to provide opportunities for learner's engagement and support.

- Good systems are in place to record, track and monitor learner's progress with good online collection methods of outcome evidence within the creative learning areas.
- Good provision is provided to ensure learners are equipped with the necessary study skills and knowledge of the counselling sector to progress onto further education/employment that incorporates online/remote methods of delivery.

Areas for Improvement

- Further development for opportunities for learners and employers to receive Google Classroom, One File and Zoom training before classes start would better support learners/apprentices and their employers at the start of a course.
- Flexible delivery methods within ESOL require further development for those who are on the higher levels of learning
- Collecting learner feedback within online learning continues to be challenging due to less opportunities in some areas for personalised discussions. Processes continue to be developed to improve comments being robust and have impact to give learners enough stretch and challenge.
- Tutor feedback needs further work whilst teaching online as there has been a 10% drop in learner satisfaction in this area.
- More face to face classes are required in some areas of learning as those learners who are furthest away from employment, with lowest of skills, suffering from isolation or who have no access to Wi-Fi, devices or are actively disinterested in engaging online are disadvantaged. Whilst being predominantly online delivery due to Covid, some learners have struggled to engage fully or at all and recruitment has been lower.
- Additional opportunities are required within the 16-19 study programme to develop practical skills. Further curriculum development is required to introduce more arts, crafts and life skills.
- Increased opportunities for face to face IAG is required to improve assessments to be more nuanced and therefore have provide improved impact with outcomes for learners.

Impact:-

Strengths

- Non accredited Achievement for maths has improved to 89.2% which is 3% above pre pandemic figures, ICT achievement is also up to 95.5% which is also 3% above pandemic figures
- Community Learning achievement overall is slightly higher at 93.9% than 19/20 but lower than 18/19 which was 96.7%
- 16-18 learner achievement has improved from 60.5% to 78.7% with 79% of learners having positive outcomes
- Accredited mathematic provision has improved substantially to 82.5% from 25.9% which was mainly related to learners being unable to study at the end of 19/20. Home schooling still had an impact on many learners ability to achieve.
- ICT provision has improved achievement from 2019/20 at 67.9% to 20/21 at 84.6%. Learners achievement has been affected by home schooling, unemployment/new employment, lack of resources or time to learn on from home when there was no face to face provision.
- English accredited achievement rates are excellent at 94.4%
- Overall achievement rates for 19+ learning is good at 82.5% (19_20 77.4%) and timeliness has improved from 19/20 at 72.6% to 79.3% 20/21
- Apprenticeship achievement is good at 65.6% considering the challenging working environments and pressures of Health & Social Care and Childcare through the last year due to Covid.
- Good achievement rates within the counselling programme at each level considering the challenging year many of the learners have had with getting to grips with online learning, home working and childcare/home schooling around their study responsibilities 88.2 % Level 2 Award: 89.1 % Level 2 Certificate: 90% Level 3 Certificate: 78.6% Level 4 Diploma.
- Good retention rates at 90.1% across the provision with excellent High Needs retention 100%
- Good RARPA achievement across all provision and 91% of learners felt there was a good/excellent range of activities within their learning
- 21% of Apprenticeship and work based learners move onto further higher learning including degrees and master's qualifications and 40% of learners receive promotions in their workplace after completing their qualifications.

Areas for Improvement

- Accredited maths need to continue to improve achievement rates from 78.4% to pre pandemic levels of 90.4%
- Non accredited English achievement is lower than usual at 78.1% due to difficulties with entry level learner's ability to attend, engage and study during Covid.
- Accredited ICT provision needs to continue to improve achievement rates from 84.6% to pre pandemic levels of 91.1% and improve timeliness from 50% to 75.7% again this is predominantly related to lower level learners who have struggled to engage with IT training via online learning and many waiting until face to face was available again.
- Improvement is required with achievement for preparation for life and work learning which has continued a 3 year decline of achievement from 18/19 80.9%, 19/20 79.9% and 20/21 77.7% this is related to Covid making it particularly hard to engage, motivate learners with low skills during lockdowns and the lack of available face to face support which has also had a similar effect on the timeliness which has dropped from 80.5% in 18/19 to 74.7% in 20/21..
- Achievement within 'Accounting and Finance' requires improvement with a small percentage of learners creating a three year decline in achievement from 18/19 90.7%, 19/20 83.3% & 20/21 80.8% whilst timeliness has improved on last year at 77.3% (19/20 62.1%)
- Retention rates need improvement in the following areas which are below 75%; Functional Skills ICT & maths; Bookkeeping, ESOL skills for Life Writing; Adult Care. Whilst these are small cohorts of learners who have been affected by challenges from Covid it is nevertheless below expectations

Behaviour and Attitudes

Strengths

- 16-18 Learners and those with special education needs receive extended welfare support across all provision.
- Good learner and employer support is provided and employers are supported to be good mentors to further encourage and support learners.
- Learners work is very good and have good self-motivation
- Apprentices and Work based learners feel safe in their learning and workplaces (98%)
- Learner's behaviours and attitudes is consistently excellent/good reflecting the dedicated work from tutors to create a welcoming and supportive learning environment. 95% of learners felt their classes were welcoming, 93% had a good learning experience
- Learners show good resilience to keep up their learning with great positivity through a challenging year of home working, home schooling and caring responsibilities. (90.1% retention)
- Strong culture of preparing for adulthood planning across subcontracting providers to support learners future development
- Well planned curriculums have enabled learners to master skills they can demonstrate independently away from the classroom. Leading to motivated learners who are passionate about the subject with good positive mental health and increased confidence.
- Excellent monitoring of learners development, behaviour and welfare with the 16-18 programmes, including daily meetings and extensive contact logs provide real time data that has led to better outcomes for learners.
- Safeguarding of learners is very good across the service but exceptional within the 16-18 programme where teams have undertaken advanced training to better support those who are extremely vulnerable and subject to multi-disciplinary adaptations due to complex layered needs.
- Excellent relations are fostered with learners and professionals to ensure a holistic approach supports and meets 16-18 learners' individual needs.
- Peer to peer relationships are very good and frequently identified as a major factor in learner progression and re-enrolment within the wider community learning and skills programmes.
- The wider community learning programmes particularly build a strong sense of community and the learning experiences help to combat loneliness, stress and the sense of isolation. This has been particularly helpful for learning during lockdowns.
- Excellent relations between tutor and learners create positive, and respectful cultures within classes whether online or face to face.

Areas for Improvement

- Covid has had a significant impact on identifying and securing work placements for learners. Further work is required to provide more opportunities that support realistic and achievable employment options for learners.
- Some repeat learners from within the wider community learning/full costs provision, especially those who suffer with loneliness and isolation, have found it impossible to engage with online learning because it doesn't meet their needs to get out and meet people.
- Further work is required to build motivation in lower level learners particularly within IT to engage with online learning.
- Extensions required in some areas of the curriculum to include additional extension opportunities that support learning within Food, Nutrition, craft construction and level 3 opportunities for those with spiky profiles.

Personal Development

Strengths

- 93% of learners confirmed that they had gained positive benefits from their course of study which could be related to employment or wellbeing.
- Strong culture of Preparing for Adulthood planning across subcontracted provision for High Needs learners.
- Community Arts projects and creative extension opportunities increases the sense of achievement and creative aspirations. They also encourage new learners to engage with activities and courses.
- Learners positively comment that attending a course improves their health, wellbeing and confidence.
- Significant numbers of learners use the skills/knowledge learnt in class as a means of enriching and improving their lives or the lives of family and friends.
- Good development of family learning programmes has created a strong focus on identifying, sharing and building on the skills of parents and carers to increase their sense of wellbeing and potential for learning.
- Apprenticeship and work based learners grow in confidence with many learners progressing to higher level learning.
- Flexible and supportive learning environment within ICT particularly enable learners to learn at their own pace with a wide level of differentiation enabled.
- Learners receive excellent support in all areas of the provision with 98% of learners confirmed that the support they received in their learning was excellent/good. This is exception within 16-18 and sub contracted provision with additional personalised support for these most vulnerable learners.
- 79% of 16-18 study programme learners progressed into positive outcomes after finishing their programme.
- 86% of Apprenticeships went on into employment opportunities.
- Good resources are developed in partnership with to produce tailored sex and relationship training material to meet personalised needs for students with more complex needs who are struggling in this area of life.

- Curriculum design and delivery particularly within Counselling, Apprenticeships and wider community learning programmes has promoted an increased focus on learner self-care and has been embedded within the programme to support learner resilience and promote mental and physical health during these challenging times.

Areas for Improvement

- More opportunities are required to celebrate learner's achievements which has been hampered during Covid.
- Expansion of PSHE curriculum is required to cover complex areas such as sexual & gender identify; eating disorders & self-harm; to support learner who historically have received little/no information on these topics.
- Information Advice and Guidance continues to need improvement across the wider community learning offer to provide a good level of transition planning across the offer and beyond.
- Further development work on British Values and Prevent is required to raise awareness and knowledge particularly within online learning so it is better embedded to support the development of safe communities.
- Further work is required to improve the timely access to online assessments, RARPA and ILP's for manager's quality purposes.
- Continue to strengthen and increase opportunities for the collection of the learner's voice across the wider service to support the shaping, development and visibility of programmes.

Leadership & Management

Strengths

- Fully inclusive programmes developed in the areas of High needs and ESOL from pre-entry to Level 2 enabling good outcomes for learners. Within ESOL particularly there are diverse learner groups many of whom are refugees with little formal education.
- Strong Leadership and Vision within the High Needs provision with increased and new partnership working to deliver effective progression routes to learners to mainstream delivery which previously had not been considered.
- Good partnership working to expand programmes with new partners/providers which widens choice and opportunities for learners
- Excellent tutor recruitment and development has led to increased opportunities for innovative teaching techniques which has better supported learners and provided a good learning experience for learners. (99% of learners agreed tutors had Excellent/Good knowledgeable/skills.
- Excellent training and support has been provided relating to online resource development which has created new tools, resources and task to improve the learner and employer outcomes.
- Very good Information Advice and Guidance sessions are provided to support learners needs and future progression
- IT skills and systems have improved exponentially to enable better communication between management, teams and with learners which has enabled improved support networks and improved response times to learners when needed
- Leaders and Managers provide excellent support to learners and staff fully support the learning journey and wellbeing needs wherever possible.
- Creative learner engagement via community arts, job fairs and information evenings for courses, motivate and expand learner's opportunities and motivation to join a class.
- Very good retention and achievement rates in the majority of the offer have led to good outcomes for learners

Areas for Improvement

- Track progress of improvements for small cohorts of learners relating to Retention and Achievement as identified above for the areas of; Preparation for Life and Work achievement (emerging three year reducing trend 18/19 80.9%, 19/20 79.9% and 20/21 77.7%); & Retention rates in the following areas- 75%; Functional Skills ICT & maths; Bookkeeping, ESOL skills for Life Writing & Adult Care.
- Further capacity for IQA and Assessors is required in some areas of delivery to enable expansion of the curriculum offer.
- Some few learners are still experiencing problems enrolling onto courses, therefore, systems should continue to be developed to tackle any barriers they may encounter.
- Continued development is required in the curriculum plan and curriculum teams, relating to Green Skills, technology and electronics, sustainability, Life skills and cookery.
- Some small areas of provision show a lack of curriculum planning relating to a minority groups or gender in balance of new students.
- Continued work is required to change curriculum planning from 'Bottom up' regurgitation to 'Ground up' planning linked to specific target groups and social needs.
- Processes are required to improve how we track, record and celebrate learners development of transferable skills across the service to better inform on the impact Community Learning makes within our community.
- Ongoing work is required to show progression pathways for learners towards employment from all entry points of provision.
