Appeals Performance and Decision Summaries

Summary

- 1 This report (presented to both Planning Committee and the Area Planning Sub Committee) informs Members of the Council's performance in relation to appeals determined by the Planning Inspectorate between 1 January and 31 March 2018, and provides a summary of the salient points from appeals determined in that period. A list of outstanding appeals at date of writing is also included.

Background

- 2 Appeal statistics are collated by the Planning Inspectorate on a quarterly basis. The Government propose to use the quarterly statistical returns as one of a number of measures to assess the performance of local planning authorities. To assess the quality of decisions, this will be based on the number of decisions that are subsequently overturned at appeal. The threshold whereby a Local Planning Authority is eligible for designation as under-performing is 10% of the Authority's total number of decisions on applications made during the assessment period being overturned at appeal.
- 3 The tables below include all types of appeals such as those against refusal of planning permission, against conditions of approval, listed building applications and lawful development certificates. Table 1 shows results of appeals decided by the Planning Inspectorate, for the quarter 1 January to 31 March 2018 and the corresponding quarter for 2017, Table 2 shows performance for the 12 months 1 April 2017 to 31 March 2018 and the corresponding period 2016/17.

% Part Allowed	2%	7%

Analysis

- 4 Table 1 shows that between 1 January and 31 March 2018, a total of 21 appeals were determined by the Planning Inspectorate. Of those, 3 were allowed (14%). There were no appeals relating to “major” developments during this reporting period. By comparison, for the same period 2016, out of 9 appeals 3 were allowed (33%). Using the assessment criteria set out in paragraph 2 above, 0.8% of the total decisions made in the quarter were overturned at appeal.
- 5 For the 12 months between 1 April 2017 and 31 March 2018, 23% of appeals decided were allowed, which is below to the national percentage figure of 31% of appeals allowed, but up on the previous 12 month figure. Using the assessment criteria set out in paragraph 2 above, 0.7% of the total decisions made in the 12 month period were overturned at appeal.
- 6 The summaries of appeals determined between 1 January and 31 March 2018 are included at Annex A. Details as to of whether the application was dealt with under delegated powers or by committee are included with each summary. In the period covered one appeal was determined following a decision at sub-committee/committee.

Ref No	Site	Proposal	Officer Recom.	Appeal Outcome

- 7 The list of current appeals is attached at Annex B. There are 19 planning appeals lodged with the Planning Inspectorate (excluding tree related appeals but including appeals against enforcement notices).
- 8 We continue to employ the following measures to ensure performance levels are maintained at around the national average or better:
- i) Officers have continued to impose high standards of design and visual treatment in the assessment of applications provided it is consistent with Paragraph 56 of the NPPF and draft Development Control Local Plan Policy.
 - ii) Where significant planning issues are identified early with applications, revisions are sought to ensure that they can be recommended for approval, even where some applications then take more than the 8 weeks target timescale to determine. This approach is reflected in the reduction in the number appeals overall. This approach has improved customer satisfaction and speeded up the development process and, CYC planning application performance still remains above the national performance indicators for Major, Minor and Other application categories.
 - iii) Additional scrutiny is being afforded to appeal evidence to ensure arguments are well documented, researched and argued.
