

# Navigation Road low-traffic neighbourhood – cycle and pedestrian improvements

## Background

Navigation Road has always been well used by local residents to access nearby facilities but is increasingly being used by drivers as part of an informal cross city shortcut to reach the Inner Ring Road.

We want to know your views on the proposed improvements for this section of the city's road network. These changes seek to improve road safety for residents in the community, reduce through-traffic and improve our city's north-south cycle route.

# What we're improving

These proposed changes aim to support a low-traffic neighbourhood in the Navigation Road area and improve the safety of local residents, pedestrians and cyclists travelling in the area.

## How will these changes help?

- A one-way 'plug' for a short section of Navigation Road between Rosemary Place and Rowntree Wharf: This would reduce through-traffic which comes from Walmgate and improve safety for all road users. Two-way traffic will be allowed at either end of this 'plug', continuing access for residents and deliveries from the inner ring road. This will also improve the cross-city cycle route through Hungate.
- Improved junction area at Foss Island Road: Widening the shared path and installing a build-out kerb to help cyclists safely join the shared path.
- Safety improvements around Hungate Bridge: Changes to bollards, new signage and road markings at the Rowntree Wharf car park exit have been proposed to reduce potential conflict between pedestrians, cyclists and drivers.

**Consultation open from  
7 December to 4 January 2021.**

At the end of the consultation feedback will be reported to the Executive Member for Transport to decide whether or not to proceed with each aspect of the scheme.

# We really want to hear your views.

You can respond in a number of ways:

## 1. Online

If you have internet access, please visit [www.york.gov.uk/consultations](http://www.york.gov.uk/consultations) to complete the short survey.

## 2. By post

Complete the questions on the back page, detach and post for free to:

# Navigation Road low-traffic neighbourhood – cycle and pedestrian improvements

Please circle your response to each statement and the proposed changes.

For example:

*I strongly agree*  
*I agree*  
*I don't mind*  
*I disagree*  
*I strongly disagree*

1. The council need to take action to improve safety along Navigation Road.
2. A short one-way section on Navigation Road, between Rosemary Place and Rowntree Wharf.
3. Improved shared path on Foss Islands Road and build-out kerb on Navigation Road junction.
4. Access and safety improvements at either end of Hungate Bridge.
5. Improved signage and road markings near Rowntree Wharf car park exit.
