

Summary of CYC Low Emission Taxi Grant Scheme

CYC Taxi Grant Requirements

- Replacement petrol-hybrid vehicles eligible for the local CYC grant scheme need to be a minimum of Euro 6 standard and have CO₂ emissions of less than 100g/km
- To ensure compliance with state aid rules, vehicles eligible for the government's national plug-in grant, listed here: <https://www.gov.uk/plug-in-car-van-grants>, are not eligible to receive additional financial support through CYC's local grant scheme to assist with the purchase costs of the vehicle. Should drivers wish to purchase a vehicle listed on this website, CYC are able to offer financial support towards running costs (purchased and invoiced from an approved third-party supplier). This will not exceed a total value of £3000.
- The replacement vehicle should be purchased from a local main dealership, where available
- Trade in vehicles must be older than replacement vehicles purchased through the scheme
- To be eligible for CYC grant funding, the applicant must be a taxi driver licensed to work in York by City of York Council. The vehicle they are buying must be used as a taxi in York, with an intention to operate the vehicle in the city for a period greater than 12 months. Grant funded vehicles need to be presented for a minimum of 2 successive annual checks in York unless they are written off or the vehicle licence is surrendered.
- Replacement vehicle should meet all relevant City of York Council Taxi Licensing criteria
