MEMORANDUM

From: Ian Gray
To: Lesley Cooke
Extn: 1567
Date: 19 April 2007

Application for Variation of Premises Licence, Toffs Nightclub, Toff Green

With regard to the above application for a variation, I would like to make the following representations.

I would like to object to the extent of the smoking area. It would be preferable if the area was reduced in size such that the seating and covered area is screened by the adjacent wall such that it would provide a barrier between the patrons and the windows of nearby sensitive properties and remove the direct line of site to the windows.

Reason: To prevent a public nuisance.

If the plans were amended to comply with my above recommendations, I would have no objections. This has been discussed with the applicant.

Regards

Ian Gray
Senior Environmental Protection Officer
