KCR 1 FINANCIAL PRESSURES: The ongoing government funding cuts will continue to have an impact on council services. Over the course of the last 4 years there has been a substantial reduction in government grants leading to significant financial savings delivered. The council needs a structured and strategic approach to deliver the savings in order to ensure that any change to service provision is aligned to the council's key priorities. In addition other partner organisations are facing financial pressures that impact on the council.

KCR 2 GOVERNANCE: Failure to ensure key governance frameworks are fit for purpose. With the current scale and pace of transformation taking place throughout the organisation it is now more important than ever that the council ensures that its key governance frameworks are strong particularly those around statutory compliance including information governance, transparency and health and safety.

KCR 3 EFFECTIVE AND STRONG PARTNERSHIPS: Failure to ensure partnership arrangements are fit for purpose to effectively deliver outcomes. In order to continue to deliver good outcomes and services, the council will have to enter into partnerships with a multitude of different organisations whether they are public, third sector or commercial entities. The arrangements for partnership working need to be clear and understood by partners to ensure they deliver the best possible outcomes.

KCR 4 CHANGING DEMOGRAPHICS: Inability to meet statutory duties due to changes in demographics. York has a rapidly changing demographic in relation to both residents and business. This brings with it significant challenges particularly in the delivery of adult social care and children's services. There has also been significant inward migration and as such the council needs to ensure that community impacts are planned for and resourced.

regeneration makes York more desirable and accessible to residents, students and business, resulting in increasing inward migration to York. An increase in the aging population requiring services from the council Increase in complexity of needs as people get older Increase in people living with dementia Increase in ethnic diversity of the population means that the council has to understand the needs of different communities in relation to how services are delivered	Increased service demand from residents, including; statutory school placements, SEND, mental health, adult social care and environmental services (eg waste collection) Increased service demand in relation to business (eg Regulation, Planning) Impact of additional demands cause significant financial and delivery challenges, such as a rise in delayed discharges Reputational impact as these mainly impact high risk adult and children's social care service areas Unable to recruit workers in key service areas eg care workers	Probable	Major (20)	Place planning strategy to ensure adequate supply of school places DfE returns and school population reported every 6 months Local area working structures in frontline services, including Early intervention initiatives and better selfcare Assessment and Care management review complete, to better manage adult social care demand on CYC based on community led support Advice and Information Strategy complete, to provide residents with direct access to support and services, to better manage adult social care demand on CYC, resulting in the launch of Livewell York in March 19 Investment in support brokerage work with NHS integrated commissioning Stakeholder and officer group, to create a more connected and integrated health and social care system. KCR 5 SAFEGUARDING: A vulnerable child or adult with care and support needs is not protected from harm. KCR 7 CAPITAL PROGRAMME: Failure to deliver the Capital Programme, which includes high profile projects. The capital programme currently has a budget of £615m from 2019/20 to 2023/24. KCR 8 LOCAL PLAN: Failure to develop a Local Plan could result in York losing its power to make planning decisions and potential loss of funding. The council has a statutory duty to develop a Local Plan, a city wide plan, which helps shape the future development in York over the next 20 years. It sets out the opportunities and policies on what will or will not be permitted and where, including new homes and businesses. The Local Plan is a critical part of helping to grow York's economy, create more job opportunities and address our increasing population needs.

Fail to adopt and agree a Local Plan Local Plan adoption process delayed Significant opposition to the plan that may impede its progression The Council has submitted the Local Plan for Inspection and therefore taken a significant step in reducing the risks associated with the Local Plan. However the plan has a public enquiry process to proceed through and the impacts of a failure in the public enquiry phase remain as previous therefore the overall risk score remains unchanged.	Significant negative impact on the council's strategic economic goals Council continues to have no adopted development plan/framework Legal and probity issues Reputational damage Increased resources required to deal with likely significant increase in planning appeals Development processes and decision making is slowed down Widespread public concern and opposition Inability to maximise planning gain from investment Adverse impact on investment Adverse impact on investment in the city Unplanned planning does not meet the authority's aspirations of the city	Probable	Major (20)	Continued close liaison with neighbouring authorities. KCR 9 COMMUNITIES: Failure to ensure we have resilient, cohesive, communities who are empowered and able to shape and deliver services. The council needs to engage in meaningful consultation with communities to ensure decisions taken reflect the needs of residents, whilst encouraging them to be empowered to deliver services that the council is no longer able to do. Failing to do this effectively would mean that services are not delivered to the benefit of those communities or in partnership.

Failure to effectively engage with the communities we serve Failure to contribute to the delivery of safe communities Failure to effectively engage stakeholders (including Members and CYC staff) in the decision making process Failure to manage expectations Communities are not willing/able to fill gaps following withdrawal of CYC services Lack of cohesion in the planning and use of CYC and partner community based assets in the city	Lack of buy in and understanding from stakeholders Alienation and disengagement of the community Relationships with strategic partners damaged Impact on community wellbeing Services brought back under council provision — reputational and financial implications Budget overspend Create inefficiencies Services not provided Poor quality provision not focused on need, potential duplication, ineffective use of resources, difficulty in commissioning community services e.g. Library services	Probable	Major (20)	Creating Resilient Communities Working Group (CRCWG) New service delivery models, including Local Area Teams. KCR 10 WORKFORCE/ CAPACITY: Reduction in workforce/ capacity may lead to a risk in service delivery. It is crucial that the council remains able to retain essential skills and also to be able to recruit to posts where necessary, during the current periods of uncertainty caused by the current financial climate and transformational change. The health, wellbeing and motivation of the workforce is therefore key in addition to skills and capacity to deliver.

KCR 11 EXTERNAL MARKET CONDITIONS: Failure to deliver commissioned services due to external market conditions.

The financial pressures experienced by contracted services (in particular Adult Social Care providers) as a result of increases to the living wage could put the continued operation of some providers at risk. The Council has a duty to ensure that there is a stable/diverse market for social care services delivery to meet the assessed needs of vulnerable adults/children.

Some services provided by the Council cannot be provided internally (eg Park and Ride) and must be commissioned. External market conditions such as the number of providers willing to tender for services may affect the Council's abilty to deliver the service within budget constraints.

KCR 12 MAJOR INCIDENTS: Failure to respond appropriately to major incidents. Local Authorities are required by law to make preparations to deal with emergencies. Local Authorities have four main responsibilities in an emergency 1. to support the Emergency Services, 2. to co-ordinate non-emergency organisations, 3. to maintain their own services through a robust Business Continuity Management process and 4. to facilitate the recovery of the community.

The Council must ensure that its resources are used to best effect in providing relief and mitigating the effects of a major peacetime emergency on the population, infrastructure and environment coming under it's administration. This will be done either alone or in conjunction with the Emergency Services and other involved agencies, including neighbouring authorities.

KCR 13 BREXIT: The implications for council services when the UK is set to leave the EU on 31 October 2019. Lack of clarity on the final outcome of negotiations and whether the withdrawal agreement will be accepted by parliament makes it difficult to fully access the implications of Brexit for York. Many risks are intangible given the variety of future scenarios that exist. The Council has therefore to the extent information allows undertaken limited assessments and planning for a no deal scenario looking at the implications internally, city wide and regional/national. This will inform the Council's response to any challenges or opportunities posed by Brexit and prioritise information and support for residents.
