

## TellUs Survey Results Pertaining to Play Opportunities

The TellUs survey is a survey of children and young people across England, asking their views about their local area, and including questions covering the five Every Child Matters outcomes.

For each yearly survey a sample of schools are selected within each local authority, representing the different types of schools in each area. The schools are then provided with guidance detailing how to select pupils to take part in the survey.

The results pertaining to play and activities from the 2008 & 2009 surveys are presented below. The questions are shown in the same way they were presented to respondents. The questions were developed through cognitive testing with children, to ensure they understood the questions and could answer them in a meaningful way. This means that some of the questions, such as self-defining a disability, may not give data consistent with 'standard' definitions.

The responses from the survey were weighted to ensure that the report at local authority and national level is representative of the population of Year 6, 8 and 10 children within that area in terms of the following characteristics: gender, proportion of children eligible for free school meals in the school (as a proxy for deprivation) and type of school.

In regard to the Tellus3 Survey, population data for 2007 from the Pupil Level Annual School Census (PLASC) was used to derive the weights, and the number of children attending Pupil Referral Units was obtained from the 2007 School Level Annual School Census (SLASC).

In regard to the Tellus4 Survey, population data for 2008 from the Pupil Level Annual School Census (PLASC) was used to derive the weights, and the number of children attending Pupil Referral Units was obtained from the 2008 School Level Annual School Census (SLASC).

Please note there was a low participation rate for Tellus3 and no year 10 pupils took part.
