Section 13: Waste and Minerals	87
Section 14: Transport and Communications	88
Section 15: Delivery and Monitoring	93

Introduction

This Annex has been prepared to support the Publication Draft Local Plan (September 2014). It provides a summary of the previous stages of consultation on the Local Plan, namely the Preferred Options (2013) and Further Sites (2014) consultations, to enable the reader of the Publication Draft Local Plan to consider what views have previously been expressed on a given policy issue or site.

A considerable amount of information is available relating to the number and content of comments received as part of both previous stages of consultation on the Local Plan. In the main these comprise three pieces of information:

- (i) the number of objections, supports or comments received in relation to each policy and site;
- (ii) a summary of the comments received (at both previous stages of consultation on the Local Plan, officers summarised the comments received by section, policy and site); and
- (iii) full copies of the responses received (redacted to remove personal information).

This Annex sets out for each policy and allocation in the Publication Draft Local Plan where it was previously considered in the Preferred Options and/or Further Sites consultation documents. For example, the issues covered by Policy DP1 in the Publication Draft were considered under Policy SS1 in the Preferred Options. It then sets out the level of objections, supports or comments that were received at the previous stages of consultation. A summary box is included for each policy and site set out in the order that they appear in the Publication Draft.

As well as providing an initial overview of the level of comments (i) received on each issue and site, it then provides a means of locating the relevant summaries of comments (ii) and/or full responses (iii) on the issue or site. The summaries and full responses can be found on the Local Plan website.

The summary of comments and full responses for the Preferred Options consultation can be found on the Council's website at http://www.york.gov.uk/info/200792/preferred_options_consultation_june-july_2013/1427/preferred_options_consultation_june-july_2013

The summary of comments and full responses for the Further Sites consultation can be found on the Council's website at http://www.york.gov.uk/info/200396/planning_policy/428/planning_policy/2

It should be noted that an audit of the development of policy tracking back to work on the Local Development Framework (LDF), including views received through consultation has been undertaken as part of the Sustainability Appraisal Process. For more information on this, please see Appendix K of Annex C: Sustainability Appraisal & Strategic Environmental Assessment which also accompanies the Publication Draft Local Plan (Sept 2014).
