

Annex C: Policy H8:Conversions

Planning permission will only be granted for the conversion of a dwelling to flats or multiple occupation where:

- the dwelling is of sufficient size (min 4 bedrooms) and the internal layout is shown to be suitable for the proposed number of households or occupants and will protect residential amenity for future occupiers.
- external alterations to the building would not cause harm to the character or appearance of the building or area; and
- adequate off and on street parking and cycle parking is incorporated; and
- it would not create an adverse impact on neighbouring residential amenity particularly through noise disturbance or residential character of the area by virtue of the conversion alone or cumulatively with a concentration of such uses.
- adequate provision is made for the storage and collection of refuse and recycling.

7.50 Houses in multiple occupation (HMO's) are those occupied by a number of unrelated people who do not live together as a single household. They include bed sits, hostels lodgings and bed and breakfasts not primarily used for holiday purposes.

7.51 The Use Classes Order (1987) does not distinguish between a dwelling occupied by a conventional household, and that of a dwelling occupied by up to six residents living together as a single household. Therefore a change of use from a family dwelling to one occupied by no more than six individuals does not constitute as a change of use.

7.52 There is potential for the number of dwellings in the City to be increased by the sensitive conversion of large dwellings. Such conversion can ensure a continued life for properties and can contribute to meeting housing need. Nonetheless, in certain situations, a concentration of such conversions can have an adverse impact on the residential environment. In considering this impact, attention will be given to the character of the street, the effect on and the amount of available amenity space, parking requirements, traffic generation and any other material planning considerations particular to the case.

7.53 The number of residential conversions will be monitored to calculate the contribution that they make to the Local Plan's housing requirement and so that the cumulative impact of several conversions in any one location can be ascertained.
