

Keep Grange Lane Play area Clean and Tidy for children to play safely.

Many parents are concerned that the Play Area between Grange Lane and Westfield School suffers from dog fouling around the play equipment, and problems with broken glass due to the removal of so many public litter bins in the area. It is felt that it is a false economy to install great play equipment and then not maintain it.

Other Play Areas, such as at Acomb Green, have fencing and hinged gates to deter dogs from entering the equipment, and reduce the problem of dog dirt. Having litter bins nearby would help to reduce the incidents of broken glass. So to deal with the problem please sign the petition below.

"We the undersigned call upon the council to install a dog deterring fence around the Play Area off Grange Lane next to Westfield School, and ask that more dog dirt bins, and litter bins are provided close to the Play Equipment so that the health hazards due to dog fouling and broken glass can be tackled so that children can play on the equipment."
