

Annex 1

City of York Local Plan

Consolidated Main Modifications

January 2023

CONTENTS

CONTENTS	2
1. SECTION 2: VISION.....	9
MM2.1 Paragraph 2.5	9
MM2.2 Policy DP2: Sustainable Development	9
MM2.3 Policy DP2: Sustainable Development	9
MM2.4 Policy DP2 explanation – paragraphs 2.19a and 2.19b	9
MM2.5 Policy DP4: Approach to Development Management	10
2. SECTION 3: SPATIAL STRATEGY.....	11
MM3.1 Policy SS1: Delivering Sustainable Growth for York.....	11
MM3.2 Policy SS1 explanation – new paragraphs	12
MM3.3 Key Diagram	13
MM3.4 Table 1a and 1b (housing supply and distribution).....	16
MM3.5 Policy SS1 Explanation – paragraph 3.3	17
MM3.6 Policy SS2: The Role of York’s Green Belt	18
MM3.7 Policy SS3: York City Centre.....	18
MM3.8 Policy SS4: York Central.....	19
MM3.9 Policy SS4: York Central.....	19
MM3.10 Policy SS4: York Central.....	20
MM3.11 Policy SS5: Castle Gateway.....	20
MM3.12 Policy SS5: Castle Gateway.....	20
MM3.13 Policy SS5: Castle Gateway.....	21
MM3.14 Policy SS5 explanation – new paragraph	21
MM3.15 Policy SS6: British Sugar/Manor School	22
MM3.16 Policy SS7: Civil Service Sports Ground	22
MM3.17 Policy SS8: Land Adjacent to Hull Road.....	22
MM3.18 Policy SS9: Land East of Metcalfe Lane	23
MM3.19 Policy SS9: Land East of Metcalfe Lane	23
MM3.20 Policy SS9: Land East of Metcalfe Lane	23
MM3.21 Policy SS9: Land East of Metcalfe Lane	24
MM3.22 Policy SS9: Land East of Metcalfe Lane	24
MM3.23 Policy SS9: Land East of Metcalfe Lane	24
MM3.24 Policy SS9: Land East of Metcalfe Lane	25
MM3.25 Policy SS9 explanation – paragraph 3.48	25
MM3.26 Policy SS10: Land North of Monks Cross.....	25
MM3.27 Policy SS10: Land North of Monks Cross.....	25
MM3.28 Policy SS10: Land North of Monks Cross.....	26
MM3.29 Policy SS10: Land North of Monks Cross.....	26

MM3.30 Policy SS10: Land North of Monks Cross.....	26
MM3.31 Policy SS11: Land North of Haxby	26
MM3.32 Policy SS11: Land North of Haxby	27
MM3.33 Policy SS11: Land North of Haxby	27
MM3.34 Policy SS11: Land North of Haxby	27
MM3.35 Policy SS11: Land North of Haxby	27
MM3.36 Policy SS11 explanation – paragraph 3.56	28
MM3.37 Policy SS12: Land West of Wigginton Road	28
MM3.38 Policy SS12: Land West of Wigginton Road	28
MM3.39 Policy SS12: Land West of Wigginton Road	28

MM3.77 Policy SS22: University of York Expansion.....	40
MM3.78 Policy SS22 Explanation.....	40
MM3.79 Policy SS23: Land at Northminster Business Park.....	43
MM3.80 Policy SS24: Whitehall Grange, Wigginton Road	44
3. SECTION 4: ECONOMY AND RETAIL	45
MM4.1 Policy EC1: Provision of Employment Land	45
MM4.2 Policy EC1 Provision of Employment Land	45
MM4.3 Policy EC1 explanation	47
MM4.4 Policy EC1 explanation – table 4.1	47
MM4.5 Policy EC1 Explanation paragraph 4.8a	48
MM4.6 Policy EC2 Explanation paragraph 4.9.....	49
MM4.7 Policy EC5: Rural Economy	49
MM4.8 Policy EC5 Explanation – paragraph 4.17.....	49
MM4.9 Policy R1: Retail Hierarchy and Sequential Approach.....	49
MM4.10 Policy R2: District and Local Centres and Neighbourhood Parades.....	50
MM4.11 Policy R3: York City Centre Retail.....	50
4. SECTION 5: HOUSING	52
MM5.1 Policy H1: Housing Allocations	52
MM5.2 Policy H1, table 5.1.....	52
MM5.3 Policy H1 Explanation – paragraphs 5.4 to 5.16.....	56
MM5.4 Policy H1 Explanation	57
MM5.5 Table 5.2	58
MM5.6 Policy H2: Density of Residential Development	59
MM5.7 Policy H2 explanation.....	59
MM5.8 Policy H3: Balancing the Housing Market	60
MM5.9 Policy H3: Balancing the Housing Market	61
MM5.10 Policy H4: Promoting and Custom House Building	61
MM5.11 Policy H5: Gypsies and Travellers.....	61
MM5.12 Policy H5: Gypsies and Travellers.....	62

MM5.13 Policy H6: Travelling Showpeople	62
MM5.14 Policy H6: Travelling Showpeople	63
MM5.15 Policy H5 and H6 Explanation Para 5.38 and Table 5.3.....	63
MM5.16 Policy H5 and H6 Explanation – paragraph 5.42	64
MM5.17 Policy H7: Student Housing	65
MM5.18 Policy H7 Explanation – paragraph 5.47	66
MM5.19 Policy H9: Older Persons Specialist Housing	66
MM5.20 Policy H9 explanation – paragraph 5.59	67
MM5.21 Policy H10: Affordable Housing.....	67
MM5.22 Policy H10 explanation.....	69
5. SECTION 6: HEALTH AND WELLBEING	73
MM6.1 Policy HW1: Protecting Existing Facilities	73
MM6.2 Policy HW1 explanation – paragraph 9.5.....	74
MM6.3 Policy HW1 explanation – paragraph 6.9.....	74
MM6.4 Policy HW1 explanation – paragraph 6.10.....	74
MM6.5 Policy HW2: New Community Facilities	75
MM6.6 Paragraph 6.12a	75
MM6.7 Policy HW3: Built Sport Facilities	75
MM6.8 Policy HW3 explanation – Paragraph 6.20.....	76
MM6.9 Policy HW4: Childcare provision	77
MM6.10 Policy HW5: Healthcare services.....	77
MM6.11 Policy HW5: Healthcare services.....	78
MM6.12 Policy HW5 explanation – Paragraph 6.36.....	79
MM6.13 Policy HW6: Emergency Services	79
MM6.14 Policy HW7: Healthy Places.....	80
6. SECTION 7: EDUCATION	82
MM7.1 Policy ED1; University of York.....	82
MM7.2 Policy ED1 explanation - paragraphs 7.1a (new) to 7.2	83
MM7.3 Policy ED1 explanation - paragraphs 7.2a, 7.2b, 7.2c, 7.2d and 7.2e	83
MM7.4 Policy ED2: Campus West.....	85
MM7.5 Policy ED2 explanation – paragraphs 7.4, 7.4b and 7.5	85
MM7.6 Figure 7.1.....	86
MM7.7 Policy ED3: Campus East	87
MM7.8 Policy ED3 explanation – paragraphs 7.6 to 7.12.....	88
MM7.9 Policy ED5: York St. John University Further Expansion.....	88
MM7.10 Policy ED5 explanation – paragraph 7.16	89
MM7.11 Policy ED5 explanation – paragraph 7.18a.....	89

7. SECTION 8: PLACEMAKING, HERITAGE, DESIGN AND CULTURE	90
MM8.1 Policy D1: Placemaking.....	90
MM8.2 Policy D1: Placemaking.....	90
MM8.3 Policy D2; Landscape Setting.....	91
MM8.4 Policy D3: Cultural Provision	91
MM8.5 Policy D4: Conservation Areas	92
MM8.6 Policy D4 Explanation – new paragraph 8.26a.....	93
MM8.7 Policy D5: Listed Buildings.....	93
MM8.8 Policy D5 Explanation – new paragraphs.....	94
MM8.9 Policy D6: Archaeology.....	95
MM8.10 Policy D6 Explanation.....	96
MM8.11 Policy D7: The Significance of Non-Designated heritage Assets.....	97
MM8.12 Policy D7 Explanation – paragraphs 8.35 to 8.37.....	97
MM8.13 Policy D8: Historic Parks and Gardens	98
MM8.14 Policy D8 Explanation – new paragraph.....	98
MM8.15 Policy D10: York City Walls and St Marys Abbey Walls (York Walls).....	99
MM8.16 Policy D13: Advertisements	99
8. SECTION 9: GREEN INFRASTRUCTURE	100
MM9.1 Policy GI1 Green Infrastructure.....	100
MM9.2 Policy GI2: Biodiversity and Access to Nature.....	100
MM9.3 Policy GI2: Biodiversity and Access to Nature.....	101
MM9.4 Policy GI2 explanation – paragraph 9.5	101
MM9.5 Policy GI2 explanation – paragraph 9.6	101
MM9.6 Policy GI2a: Strensall Common Special Area of Conservation (SAC)	102
MM9.7 Policy GI4: Trees and Hedgerows.....	105
MM9.8 Policy GI5: Protection of Open Space and Playing Fields.....	106
MM9.9 Policy GI5 explanation – paragraph 9.17	106
MM9.10 Policy GI6: New Open Space provision	106
MM9.11 Policy GI6: New Open Space provision	106
MM9.12 Policy GI6: New Open Space provision	107
9. SECTION 10: MANAGING DEVELOPMENT IN THE GREEN BELT	108
MM10.1 Policy GB1: Development in the Green Belt	108
MM10.2 Policy GB1 Explanation – paragraph 10.8	109
MM10.3 Policy GB1 Explanation – new paragraph	110
MM10.4 Policy GB2: Development in Settlements within the Green Belt.....	110
MM10.5 Policy GB3: Reuse of Buildings	110
MM10.6 Policy GB4: ‘Exception’ Sites for Affordable Housing in the Green Belt.....	110
MM10.7 Policy GB4.....	111

10. SECTION 11: CLIMATE CHANGE	112
MM11.1 Policy CC1: Renewable and Low Carbon Energy Generation Storage	112
MM11.2 Policy CC1: Renewable and Low Carbon Energy Generation Storage	112
MM11.3 Policy CC1 explanation – paragraph 11.8 – 11.11.....	113
MM11.4 Policy CC2: Sustainable Design and Construction of New Development.....	113
MM11.5 Policy CC2: Sustainable Design and Construction of New Development.....	113
MM11.6 Policy CC2: Sustainable Design and Construction of New Development.....	114
MM11.7 Policy CC2: Sustainable Design and Construction of New Development.....	114
MM11.8 Policy CC2: Sustainable Design and Construction of New Development.....	115
MM11.9 Policy CC2 explanation – paragraph 11.15.....	115
MM11.10 Policy CC2 Explanation	115
MM11.11 Policy CC2 Explanation	116
MM11.12 Policy CC2 explanation – paragraph 11.18 – 11.23.....	116
MM11.13 Policy CC3: District Heating and Combined Heat and Power Networks	117
MM11.14 Policy CC3 explanation – paragraph 11.28 – 11.34.....	118
11. SECTION 12: ENVIRONMENT QUALITY AND FLOOD RISK	119
MM12.1 Policy ENV1: Air Quality	119
MM12.2 Policy ENV1 Explanation.....	119
MM12.3 Policy ENV2: Managing Environmental Quality	122
MM12.4 Policy ENV3: Land Contamination.....	123
MM12.5 Policy ENV4: Flood Risk	123
12. SECTION 14: TRANSPORT AND COMMUNICATIONS	126
MM14.1 Section 14 Introduction – paragraphs 14.2-14.3	126
MM14.2 Policy T1: Sustainable Access	126
MM14.3 Policy T1 explanation – paragraph 14.4.....	127
MM14.4 Policy T2: Strategic Public Transport Improvements	127
MM14.5 Policy T2 Explanation – paragraphs 14.15 to 14.23	129
MM14.6 Policy T3: York Railway Station and Associated Operational Facilities	132
MM14.7 Policy T4: Strategic Highway Network Capacity Improvements	133
MM14.8 Policy T5: Strategic Cycle and Pedestrian Network Links and Improvements	134
MM14.9 Policy T6: Development at or Near Public Transport Corridors, Interchanges and Facilities	136
MM14.10 Policy T7 Explanation – paragraph 14.49	137
MM14.11 Policy T8: Demand Management	137
MM14.12 Policy C1: Communications Infrastructure.....	138
13. SECTION 15: DELIVERY AND MONITORING	139
MM15.1 Policy DM1: Infrastructure and Developer Contributions	139
MM15.2 Policy DM1 explanation – paragraph 15.13	139
MM15.3 Policy DM1 explanation – paragraph 15.15 and Table 15.1	139

1. SECTION 2: VISION

Section 2: Vision		
Modification Reference	Proposed Modification	Reason for change
MM2.1 Paragraph 2.5	This will require the provision of sufficient land for minimum average annual net provision of 822 dwellings over the plan period to 2032/33 867 dwellings per annum and will include...	To reference the modified housing requirement figure as discussed in phase 2 hearings (matter 2).
MM2.2 Policy DP2: Sustainable Development	<p>iii. Development will help Conserve, Maintain and Enhance the Environment through:</p> <p>...</p> <ul style="list-style-type: none"> Maintaining the natural geomorphology of watercourse, water quality and the ecological value of the water environment including in the River Ouse, River Derwent and River Foss water corridors; Ensuring that there is no deterioration in the status of any surface or ground water body; Making positive progress towards achieving 'good' status or higher in surface and groundwater bodies, in line with the Water Framework Directive; remediation of polluted land/ groundwater or the protection of groundwater; <p>...</p>	To reflect the requirements of the Water Directive Framework as agreed in Statement of Common Ground with the Environment Agency (EX/SoCG/4).
MM2.3 Policy DP2: Sustainable Development	<ul style="list-style-type: none"> Mitigate and adapt to climate change through designing new communities and buildings, transport networks and services that support each community to be energy and resource efficient and reduce carbon emissions. 	To make explicit the Plan's contribution to, and requirement for the mitigation of, and adaptation to, climate change in accordance with Section 19(1A) of the Planning and Compulsory Purchase Act 2004.
MM2.4 Policy DP2 explanation – paragraphs 2.19a and 2.19b	<p>2.19a The Water Framework Directive (WFD) establishes a legislative framework for the protection of surface waters (including rivers, lakes and coastal waters) and ground waters.</p> <p>2.19b The Water Environment (WFD)(E&W) Regulations 2017 place a duty on each public body, including Local Planning Authorities to 'have regard to' River Basin Management Plans (RBMP), and so the City of York Council must ensure that new development is compliant with the requirements of the WFD and Humber RBMP. York's water resources are a crucial part of the district's environment which provide important wildlife</p>	To reflect the requirements of the Water Directive Framework as agreed in Statement of Common Ground with the Environment Agency(EX/SoCG/4).

Section 2: Vision

Modification Reference	Proposed Modification	Reason for change
	<p>habitats and encourage biodiversity, provide opportunities for recreation and form an important element to alleviate flood risk to the city. Many of York's watercourses have been physically changed over time for example by land drainage, culverting or being run through artificial channels, which can reduce their amenity value and harm their ecology. Opportunities to re-naturalise watercourses should be supported, for example by removing existing artificial engineering works. Any new physical changes to watercourses in the district should be avoided unless there are compelling grounds for doing so and all alternative options have been considered.</p>	
<p>MM2.5 Policy DP4: Approach to Development Management</p>	<p>Policy DP4 and explanation at paragraph 2.21 deleted.</p>	<p>Notwithstanding the transition arrangements, the NPPF section of DP4 is inconsistent with the latest NPPF (2021) which will technically apply to planning applications. For clarity and effectiveness, the policy is therefore to be deleted.</p>

2. SECTION 3: SPATIAL STRATEGY

Section 3: Spatial Strategy		
Modification Reference	Proposed Modification	Reason for change
MM3.1 Policy SS1: Delivering Sustainable Growth for York	<p>Policy SS1: Delivering Sustainable Growth for York</p> <p>Development during the plan period (2017 - 2032/33) will be consistent with the priorities below. To ensure Green Belt permanence beyond the plan period, sufficient land is allocated for development to meet a further, minimum, period of 5 years to 2038.</p> <ul style="list-style-type: none"> • Provide sufficient land to accommodate an annual provision of around 650 new jobs that will support sustainable economic growth, improve prosperity and ensure that York fulfils its role as a key economic driver within both the Leeds City Region and the York, North Yorkshire and East Riding Local Enterprise Partnership area. • Deliver a minimum average annual net provision of 867 new 822 dwellings over the plan period to 2032/33 and post plan period to 2037/38 that will support an overall housing requirement of at least 13,152 new homes. This will enable the building of strong, sustainable communities through addressing the housing and community needs of York's current and future population. • Deliver 15 new permanent pitches for Gypsies and Travellers and 4 permanent plots for Showpeople (as defined by Planning Policy for Traveller Sites) over the plan period. Whilst the needs of Gypsies, Travellers and Travelling Showpeople who do not meet the planning definition fall outside this allocation, in order to meet their assessed needs the Plan makes provision for 25 permanent pitches for Gypsies and Travellers who do not meet the definition. • Deliver at least 45% of the 9,396 affordable dwellings that are needed to meet the needs of residents unable to compete on the open market <p>The location of development through the plan will be guided by the following five spatial principles.</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.</p> <p>Modifications to the list of priorities make clear the approach to securing Green Belt permanence; the plan's overall housing requirement (including affordable housing); the Council's target for meeting affordable housing need; and, the plan's provision for Gypsies, Travellers and Travelling Showpeople. These matters were discussed during phase 2 and 3 hearings.</p> <p>Figures updated to reflect latest evidence in the Gypsy and Traveller Accommodation Assessment 2022.</p> <p>Basis for the affordable housing target set out in EX/CYC/107/2).</p> <p>Modification to spatial principles respond to matters discussed during phase 1, recognising that it is unreasonable to require brownfield redevelopment to come forward first.</p>

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
	<ul style="list-style-type: none"> Conserving and enhancing York's historic and natural environment. This includes the city's character and setting and internationally, nationally and locally significant nature conservation sites, green corridors and areas with an important recreation function. <u>Prioritise making the best use of previously developed land.</u> <u>Directing development to the most sustainable locations, E</u>nsuring accessibility to sustainable modes of transport and a range of services. Preventing unacceptable levels of congestion, pollution and/or air quality. Ensuring flood risk is appropriately managed. <u>Where viable and deliverable, the re-use of previously developed land will be phased first</u> <p>York City Centre, as defined on the <u>Proposals Policies</u> Map, will remain the focus for main town centre uses¹.</p>	
<p>MM3.2 Policy SS1 explanation – new paragraphs</p>	<p><u>3.1a The Plan's strategic policies set out an overall strategy for the pattern, scale and quality of development over the Plan period.</u></p> <p><u>3.1b The Plan focusses on identifying sufficient land to meet housing and economic growth (spatial drivers) in a pattern of development aligned to the factors which shape growth (spatial shapers) set out in SS1. Development is directed to the most sustainable locations, making as much use as possible of suitable previously developed land (with some release of Green Belt land). As is set out in SS1, sustainable growth for York emphasises conserving and enhancing York's historic environment. The scale and pattern of development is guided by the need to safeguard a number of key elements identified as contributing to the special character and setting of the historic City. These include the City's size and compact nature, the perception of York being a free-standing historic city set within a rural hinterland, key views towards the City from the ring road and the relationship of the City to its surrounding settlements.</u></p> <p><u>3.1c Development is focussed on the main urban area of York and in new free-standing settlements with some urban and village extensions. The development strategy limits the amount of growth proposed around the periphery of the built-up area of York.</u></p>	<p>New text associated with MM3.1, MM3.3 and MM3.4</p>

Section 3: Spatial Strategy

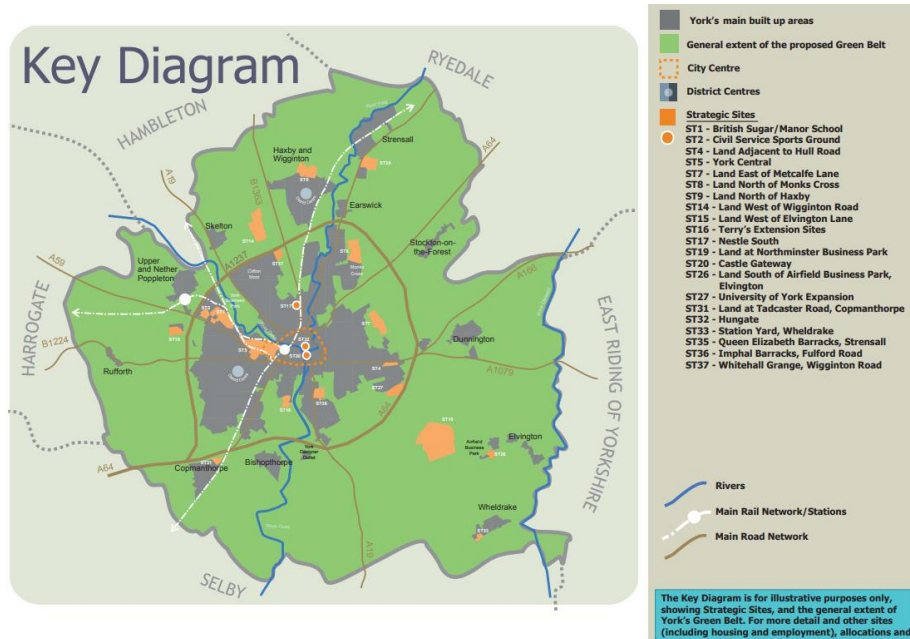

Modification Reference	Proposed Modification	Reason for change
	<p>While new settlements will clearly affect the openness of Green Belt in those locations, their impact is considered to be less harmful to the elements which contribute to the special character and setting of York. Their size and location has taken into account the potential impact on those elements, and on the identity and rural setting of neighbouring villages.</p> <p>3.1d There will also be opportunities for rural exception sites, these small scale developments provide affordable homes in locations where new homes would not usually be appropriate.</p> <p>3.1e The proposed distribution of development identified in the Plan's allocations and deliverable unimplemented consents is described in the following table (Table 1). The anticipated pattern of development as identified in the Plan's strategic allocations is shown on the Key Diagram.</p>	
<p>MM3.3 Key Diagram</p>	<p><u>KEY DIAGRAM</u> 2018</p>	<p>To clarify range of sites delivered within the Spatial Strategy and to be consistent with the recommendations of the HRA (2020) Key diagram amendments to clarify strategic allocations and their locations in line with the spatial strategy and the removal of ST35]</p>

MM3.4 Table 1a and 1b (housing supply and distribution)

Table 1a Sources of supply over the Plan period 2017-2032/33

Total Target (requirement)*	13,152
Net Completions (2017 – 2022)	3,767
Commitments (extant permissions at 1st April 2022)	2,149
Strategic Housing Allocations (ST sites)	8,160
Housing Allocations (H sites)	1,733
Windfall allowance (from 2025/26 @199 dpa)	1,592
Total	17,401

*Requirement = annual requirement (822dpa) x 16 years. Includes housing requirement for Gypsies and Travellers who do not meet the Planning definition.

Defined Gypsy and Traveller housing requirement (Gypsies/Travelling Showpeople)	18 (15/3)
Site allocations	18 (15/3)
Total	18

Informed by our spatial development strategy, the anticipated distribution of allocated sites is reflected in Table 1b below.

Table 1b: Spatial Strategy: Distribution of Housing allocations

Spatial Locations*	Residential Strategic Allocations (ST sites)	Housing Allocations (H sites)	Total Homes**
Residential urban development	6155	1501	7656

To provide clarity on the housing supply and distribution, reflecting EX/CYC/76 and 76a, EX/CYC/86, EX/CYC/88 and EX/CYC/107-1.

Section 3: Spatial Strategy

Modification Reference

Proposed Modification

Reason for change

Residential urban extensions	1705	0	1705
Residential village extensions	305	232	537
New Settlements/ Garden Villages	5532	0	5,532
Total	13,697	1,733	15,430

*Note: in the first instance, provision is made within larger allocations for those Gypsies and Travellers not meeting the Planning definition. Alternative provision in line with policy H5 may alter the overall stated spatial distribution.

** Note: the figures in Table 1b include delivery of whole allocations which may extend beyond 2032/33 and for a minimum of 5 years to define a permanent Green Belt.

MM3.5 Policy SS1
Explanation – paragraph 3.3

Housing Growth

3.3 Technical work has been carried out by GL Hearn in the Strategic Housing Market Assessment Update (2017). This work has updated the demographic baseline for York based on the July 2016 household projections. ~~to 867 per annum.~~ Following consideration of the outcomes of this work, the Council aims to ~~meet~~ ~~address~~ an objectively assessed housing need of ~~867 new dwellings~~ ~~790 homes~~ ~~per annum for the plan period to 2032/33.~~ This produces a housing requirement amounting to a minimum average annual net provision of 822 dwellings over the plan period to 2032/33, including an allowance for ~~any a~~ shortfall in housing provision ~~against this need~~ from the period 2012 to 2017, ~~and for the post plan period to 2037/38.~~

Evidence suggests that there is a need for 9,396 affordable homes in York between 2017-2033. To help meet this need it is important that a reasonable, but viable, proportion of all new housing developments are affordable.

Additional explanation of the approach to meeting housing needs as evidenced during phase 2 and phase 3 hearings (and evidenced in EX/CYC/43a and EX/CYC/107/2).

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
	<p>Policies H7 and H10 set out the Plan’s policy approach to this, and at least 2,360 affordable homes are expected to be delivered within the plan period through the operation of these policies. Combined with recorded completions (to 1st April 2022), other sources of forecast supply on windfall sites and known provision secured through the Council’s Housing Delivery Programme, it is estimated that around 3,265 affordable homes will be delivered in the plan period.</p> <p>To help increase the proportion of need being met to more than 35%, the Council has set a target of providing at least 45% of its affordable housing need. Through its annual monitoring (in accordance with the delivery and monitoring framework at table 15.2), the Council will review progress on meeting the target and take appropriate action and intervention should delivery rates fall short.</p>	
<p>MM3.6 Policy SS2: The Role of York’s Green Belt</p>	<p>...</p> <p>The general extent of the Green Belt is shown on the Key Diagram. Detailed Green Belt boundaries are shown on the proposals Policies Map. follow readily recognisable physical features that are likely to endure such as streams, hedgerows and highways.</p> <p>To ensure that there is a degree of permanence beyond the plan period sufficient land is allocated for development to meet the needs identified in the plan and for a further minimum period of five years to 2038.</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012</p>
<p>MM3.7 Policy SS3: York City Centre</p>	<p>...</p> <p>Within the city centre, as defined on the Proposals Policies Map, the following development types are acceptable in principle:</p> <p>Retail (A4 E) – within the designated Primary Shopping Area (PSA). Outside of the PSA the sequential test and impact tests will apply in order to protect the vitality and viability of the city centre;</p> <p>Office (B4a E);</p> <p>Food and Drink (A3/A4/A5 E);</p>	<p>To align policy to use classes which came into force September 2020.</p>

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
	<p>...</p> <p>Finance and Professional Services (A2 E).</p> <p>As shown on the Proposals Policies Map, the following city centre sites have been allocated:</p> <p>ST32: Hungate (328 dwellings residential development); ST20: Castle Gateway (mixed use); and Elements of ST5: York Central falling within the city centre boundary (mixed use).</p> <p>The city centre will remain the focus for main town centre uses (unless identified on the Proposals Policies Map). Proposals for main town centre uses for non city centre locations will only be considered acceptable in accordance with Policy R1 where it can be demonstrated that they would not have a detrimental impact on the city centre’s vitality and viability and that the sustainable transport principles of the Plan can be met. Change of use of existing retail (use class E), office (Use Class E) Use Class A, B1(a) and town centre leisure, entertainment, and culture uses will be resisted.</p> <p>...</p> <p>York Minster Cathedral Precinct is approximately 8 hectares in size (as shown on the proposals Policies Map).</p> <p>...</p>	
MM3.8 Policy SS4: York Central	York Central (ST5), as identified on the Policies Map , will enable the creation of a new piece of the city...	To make clear the location of York Central for effectiveness.
MM3.9 Policy SS4: York Central	The following mix of uses will be permitted within York Central: <ul style="list-style-type: none"> • Offices (B1a E); • Financial and Professional Services (A2 E); • Residential; • Hotels (C1) 	To align policy to use classes which came into force September 2020. To clarify that ancillary retail serving day to day needs does not require an impact assessment, in line with the requirements of Policy R1.

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
	<ul style="list-style-type: none"> • Culture, leisure, tourism and niche/ancillary retail facilities; • Open space, high quality public realm and supporting social infrastructure; • Rail uses, and; • Ancillary retail appropriate to serve the day to day needs of local residents and other site users, subject to a sequential assessment, and; • Non-ancillary retail, subject to an impact and sequential assessment. 	
MM3.10 Policy SS4: York Central	Land within York Central is allocated for 1,700 – 2,500 dwellings, of which a minimum of 1,500 (around 950 dwellings will be delivered in the plan period), and approximately 100,000 sq m of Office (E B4a).	Replacing 'minimum' with 'around' and including 'approximately' to provide appropriate flexibility. Revision to 950 dwellings is for consistency with the latest housing trajectory. Reference to class E to reflect use class which came into force September 2020.
MM3.11 Policy SS5: Castle Gateway	Castle Gateway (ST20) is allocated as an Area of Opportunity, as indicated on the Proposals Policies Map...	To correct the reference to the 'policies' map.
MM3.12 Policy SS5: Castle Gateway	... The purpose of the regeneration is to: <ul style="list-style-type: none"> • Radically enhance the setting of Clifford's Tower and other features within the Eye of York to recognise the significance of these historic assets and interpret their importance in York's history. • Promote opportunities for the significance of other historic assets in the wider Castle Gateway area to be better revealed or enhanced. ... To achieve these aims development in the Castle Gateway will be delivered through the following: <ul style="list-style-type: none"> • Removing the Castle Car Park to create new public space and high quality development opportunities. 	Additional regeneration purpose in recognition of the historic assets in the wider area. Text deleted for clarity and effectiveness, recognising the matters are duplicated within the sub-area criteria. Text moved to explanation (paragraph 3.33A).

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
	<ul style="list-style-type: none"> • Provision of a replacement car park within the Castle Gateway area. • The addition of a new landmark River Foss pedestrian cycle bridge. • Where possible, the opening up of both frontages of the River Foss with riverside walkways. • Engagement with stakeholders in the development of masterplan and public realm proposals. • Securing public realm, transport and infrastructure investment as a catalyst for wider social and economic improvement. • Funding the implementation of public space, transport improvements and infrastructure through developer contributions and commercial uplift from development sites across the area. 	
<p>MM3.13 Policy SS5: Castle Gateway</p>	<p>Development within the five Castle Gateway sub-areas will be <u>permitted delivered having regard to the above regeneration objectives and in accordance with</u> the following principles, <u>as appropriate</u>:</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012: Introduction to sub-area makes clear that, where appropriate, development should have regard to the broad regeneration objectives along with specific sub-area principles.</p>
<p>MM3.14 Policy SS5 explanation – new paragraph</p>	<p><u>3.33a To achieve these aims development in the Castle Gateway will be delivered through the following:</u></p> <ul style="list-style-type: none"> • <u>Removing the Castle Car Park to create new public space and high quality development opportunities.</u> • <u>Provision of a replacement car park within the Castle Gateway area.</u> • <u>The addition of a new landmark River Foss pedestrian cycle bridge.</u> • <u>Where possible, the opening up of both frontages of the River Foss with riverside walkways.</u> 	<p>Text moved to explanation in accordance with MM3.12</p>

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
	<ul style="list-style-type: none"> • Engagement with stakeholders in the development of masterplan and public realm proposals. • Securing public realm, transport and infrastructure investment as a catalyst for wider social and economic improvement. • Funding the implementation of public space, transport improvements and infrastructure through developer contributions and commercial uplift from development sites across the area. 	
MM3.15 Policy SS6: British Sugar/Manor School	i. Create a sustainable balanced community with an appropriate mix of housing informed by the Council's Strategic Housing Market Assessment.	Deleted because housing mix is addressed under policy H3.
MM3.16 Policy SS7: Civil Service Sports Ground	i. Create a sustainable balanced community with an appropriate mix of housing informed by the Council's Strategic Housing Market Assessment. ii. Be of a high design standard to give a sense of place and distinctive character.	Criteria deleted because matters addressed under policy H3 and D1 respectively.
MM3.17 Policy SS8: Land Adjacent to Hull Road	ii. Provide access to the site from a new roundabout created for the Heslington East development Kimberlow Rise via Field Lane, subject to detailed transport analysis. Other access (e.g. via Hull Road) is not preferred. iii. Deliver a sustainable housing mix in accordance with the Council's Strategic Housing Market Assessment. v. Maintain and enhance existing trees and hedgerows behind to the south of the site which act as a gateway for biodiversity vi. Provide appropriate contributions to expand existing education facilities, given that primary and secondary school facilities have limited existing capacity to accommodate the projected demand arising from the site. Secure developer contributions for education provision, including primary and secondary, which meet the needs generated by the development ...	To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012: At vii and viii to make clear the requirement for impacts to be mitigated.

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
	<p>vii. Undertake an air quality assessment as there is potential for increased traffic flows which may present new opportunities for exposure if not designed carefully. The assessment should also consider the impact of the University of York boiler stacks. <u>Identified adverse impacts should be appropriately mitigated.</u> .</p> <p>viii. Undertake a noise survey given the site's proximity to the A1079 and the Grimston Bar Park & Ride. <u>Identified adverse impacts should be appropriately mitigated.</u></p>	
<p>MM3.18 Policy SS9: Land East of Metcalfe Lane</p>	<p>ii. <u>Deliver a sustainable housing mix in accordance with the Council's most up to date Strategic Housing Market Assessment and affordable housing policy. Protect and, where appropriate, strengthen existing boundary features that are recognisable and likely to remain permanent. Where the site's boundary is not defined by recognisable or permanent features it should be addressed through the masterplan and design process in order for strong and defensible Green Belt boundaries to be created and secured.</u></p>	<p>Deleted because housing mix is addressed under policy H3. Replaced with wording to secure strong green belt boundaries around the site in response to the assessment at EX/CYC/59g.</p>
<p>MM3.19 Policy SS9: Land East of Metcalfe Lane</p>	<p>iv. <u>Deliver Secure developer contributions for education and community provision, including primary and secondary, which meet the needs generated by the development early in the scheme's phasing, in order to allow the establishment of a new sustainable community. A new primary facility and secondary provision (potentially in combination with Site ST8— North of Monks Cross) may be required to serve the development as there is limited capacity available in existing schools. Further detailed assessments and associated viability work will be required.</u></p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012: Recognition of further work that that has clarified onsite provision is not required (and consistency with modified wording across strategic site policies).</p>
<p>MM3.20 Policy SS9: Land East of Metcalfe Lane</p>	<p>v. <u>Demonstrate that all transport issues have been addressed, in consultation with the Council and Highways England, as necessary, to ensure sustainable transport provision at the site is achievable. The transport and highways impacts of the site development should be assessed individually and cumulatively with sites ST8, ST9, ST14 and ST15 should be addressed. Where necessary, proportionate mitigation will be required</u></p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012: making clear a 'proportionate' approach is to be applied and that mitigation will be required where there is evidence of need. Wording consistent with modifications to other strategic site policies.</p>

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
<p>MM3.21 Policy SS9: Land East of Metcalfe Lane</p>	<p>vi. Provide vehicular access from Stockton Lane to the north of the site and/or Murton Way to the south of the site (as shown <u>indicatively</u> on the <u>proposals Policies</u> Map), with a small proportion of <u>public transport</u> traffic potentially served off Bad Bargain Lane. Access between Stockton Lane and Murton Way will be limited to <u>public transport and</u> walking/ cycling links <u>only</u>, <u>and, if necessary and feasible, public transport.</u></p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.</p>
<p>MM3.22 Policy SS9: Land East of Metcalfe Lane</p>	<p>vii. Deliver high quality, frequent and accessible public transport services through the whole site, to provide attractive links to York City Centre. <u>It is envisaged such measures will enable upwards of 15% of trips to be undertaken using public transport.</u> Public transport links through the adjacent urban area will be sought, as well as public transport upgrades to either the Derwent Valley Light Rail Sustrans route, or bus priority measures on Hull Rd and/or Stockton lane, subject to feasibility and viability. <u>All measures proposed to support public transport use should be identified and agreed as part of a Sustainable Travel Plan which has an overall aim to achieve upwards of 15% of trips by public transport.</u></p>	<p>For effectiveness, making clear how meeting the 15% target should be demonstrated through a travel plan.</p>
<p>MM3.23 Policy SS9: Land East of Metcalfe Lane</p>	<p>ix. <u>Provide a detailed site wide recreation and open space strategy and demonstrate its application in site masterplanning. This must include:</u></p> <ul style="list-style-type: none"> o <u>Create</u> <u>Creation of</u> new open space (as shown on the <u>proposals Policies</u> Map <u>as allocation OS7</u>) to protect the setting of the Millennium Way that runs through the site. Millennium Way is an historic footpath which follows Bad Bargain Lane and is a footpath linking York's strays and should be kept open. A 50m green buffer has been included along the route of the Millennium Way that runs through the site to provide protection to this Public Right of Way and a suitable setting for the new development. o <u>Open space provision that satisfies policies GI2a and GI6</u> 	<p>To ensure impacts identified in the HRA (2020) as a result of recreational pressure on Strensall Common SAC are mitigated.</p>

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
<p>MM3.24 Policy SS9: Land East of Metcalfe Lane</p>	<p>x. Minimise impacts of access from Murton Way to the south on ‘Osboldwick Meadows’ Candidate Site of Importance for Nature Conservation and provide compensatory provision for any loss.</p>	<p>For clarity. Inclusion of ‘candidate’ recognises the habitats are still of value, but do not fully meet the SINC criteria.</p>
<p>MM3.25 Policy SS9 explanation – paragraph 3.48</p>	<p>Education and community provision should be made early in the scheme’s phasing, in order to allow the establishment of a new sustainable community. A new primary facility and secondary provision may be required to serve the development as there is limited capacity available in existing schools. Contributions towards secondary provision will be sought with a new facility provided in association with ST8 (Land North of Monks Cross). Further detailed assessments and associated viability work will be required.</p>	<p>Deleted for consistency with MM3.19.</p>
<p>MM3.26 Policy SS10: Land North of Monks Cross</p>	<p>i. Deliver a sustainable housing mix in accordance with the Council’s most up to date Strategic Housing Market Assessment. Protect and, where appropriate, strengthen existing boundary features that are recognisable and likely to remain permanent. Where the site’s boundary is not defined by recognisable or permanent features it should be addressed through the masterplan and design process in order for strong and defensible Green Belt boundaries to be created and secured.</p>	<p>Deleted because housing mix is addressed under policy H3. Criterion replaced with wording to secure strong green belt boundaries around the site in response to the assessment at EX/CYC/59g.</p>
<p>MM3.27 Policy SS10: Land North of Monks Cross</p>	<p>iv. Explore the creation of Provide a new green wedge to the west of the site south of the Garth Road link to play an important role in protecting ecological assets, safeguarding the historic character and setting of the city and conserving on-site heritage assets including Ridge and Furrow, archaeology, hedgerows and trees that contribute to the setting of Huntington. It should be linked into the adjacent new housing scheme currently under construction development at Windy Ridge/Brecks Lane...</p>	<p>For clarity and effectiveness, recognising the green wedge is deliverable south of the Garth Road link.</p>

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
<p>MM3.28 Policy SS10: Land North of Monks Cross</p>	<p>vi. Provide a detailed site wide recreation and open space strategy and demonstrate its application in site masterplanning. This must include:</p> <ul style="list-style-type: none"> o Create Creation of a new open space on additional land to the east of the Monks Cross Link Road (as shown on the proposals Policies Map as allocation OS8). This land remains in the Green Belt. Open space provision should still be provided to the required quantum within the main allocation boundary and Traffic calming measures should be provided along Monks Cross Link Road alongside the provision of pedestrian footways and safe crossing points. Ecological mitigation is also required on land to the east of the Link Road. o Open space provision that satisfies policies GI2a and GI6 	<p>To ensure impacts identified in the HRA (2020) as a result of recreational pressure on Strensall Common SAC are mitigated.</p>
<p>MM3.29 Policy SS10: Land North of Monks Cross</p>	<p>x. Demonstrate that all transport issues have been addressed, in consultation with the Council and Highways England, as necessary, to ensure sustainable transport provision at the site is achievable. The site will exacerbate congestion in the area, particularly at peak times given its scale and the capacity of the existing road network. The transport and highway impacts of the site development should be assessed individually and cumulatively with sites ST7, ST9, and ST14, and ST35. Where necessary proportionate mitigation will be required should be addressed.</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012: making clear a 'proportionate' approach is to be applied and that mitigation will be required where there is evidence of need. Wording consistent with modifications to other strategic site policies</p>
<p>MM3.30 Policy SS10: Land North of Monks Cross</p>	<p>xi. Deliver high quality, frequent and accessible public transport services through the whole site including facilitation of links to local employment centres and York City Centre. It is envisaged such measures will enable 15% of trips to be undertaken using public transport. All measures proposed to support public transport use should be identified and agreed as part of a Sustainable Travel Plan which has an overall aim to achieve upwards of 15% of trips by public transport.</p>	<p>For effectiveness, making clear how meeting the 15% target should be demonstrated through a travel plan.</p>
<p>MM3.31 Policy SS11: Land North of Haxby</p>	<p>Land North of Haxby (ST9) will deliver approximately 735 dwellings...</p>	<p>For appropriate flexibility</p>

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
MM3.32 Policy SS11: Land North of Haxby	<p>i. Be of a high design standard which will provide an appropriate new extension to the settlement of Haxby.</p> <p>ii. Deliver a sustainable housing mix in accordance with the Council's most up to date Strategic Housing Market Assessment and affordable housing policy, addressing local need for smaller family homes and bungalows/sheltered housing.</p>	<p>Deleted because matters are addressed under policy H3 and other design and placemaking policy, including D1.</p>
MM3.33 Policy SS11: Land North of Haxby	<p>iii. Provide a detailed site wide recreation and open space strategy and demonstrate its application in site masterplanning. This must include:</p> <ul style="list-style-type: none"> • Create Creation of new open space to the south of the site (in accordance with policy G16 shown on the proposals map) to reflect the needs of the Haxby and Wigginton ward. This may include including formal pitch provisions, informal amenity greenspace, play provision, cemeteries and allotments. The open space needs of the area should be assessed in detail, liaising with Haxby Town Council and Wigginton Parish Council, the neighbourhood plan group and local residents. • Open space provision that satisfies policies G12a and G16. 	<p>To ensure impacts identified in the HRA (2020) as a result of recreational pressure on Strensall Common SAC are mitigated.</p>
MM3.34 Policy SS11: Land North of Haxby	<p>i. Create new local facilities as required, subject to viability, to provide an appropriate range of shops, services and facilities to meet the needs of future occupiers of the development.</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.</p>
MM3.35 Policy SS11: Land North of Haxby	<p>viii. Demonstrate that all transport issues have been addressed, in consultation with the Council as necessary, to ensure sustainable transport provision at the site is achievable. The transport and highway impacts of the site development should be assessed individually and cumulatively with sites ST7, ST8, ST14 and ST15. Where necessary proportionate mitigation will be required should be addressed.</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012 – making clear a ‘proportionate’ approach is to be applied and that mitigation will be required where there is evidence of need. Wording consistent with modifications to other strategic site policies.</p>

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
MM3.36 Policy SS11 explanation – paragraph 3.56	The new open space shown on the proposals Policies Map...	To correct the map reference.
MM3.37 Policy SS12: Land West of Wigginton Road	... It will deliver approximately 1,348 dwellings, approximately 1200 1000 units of which will be delivered within the plan period....	To update the expected delivery beyond the plan period in accordance with EX/CYC/107
MM3.38 Policy SS12: Land West of Wigginton Road	ii. Deliver a sustainable housing mix in accordance with the Council's most up to date Strategic Housing Market Assessment and affordable housing policy.	Deleted because matters are addressed under policy H3 and H10.
MM3.39 Policy SS12: Land West of Wigginton Road	<ul style="list-style-type: none"> iv. Deliver on site, accessible combined nursery and primary education facilities, which meet the needs generated by the development, and are well connected to housing by dedicated pedestrian/ cycleways. v. Secure developer contributions for secondary school places as necessary to meet the need for new places generated by the development 	For clarity and effectiveness.
MM3.40 Policy SS12: Land West of Wigginton Road	vi. Ensure provision of new all purpose access roads to the east/south from A1237 Outer Ring Road/ Wigginton Road roundabout Clifton Moor Gate and off the Wigginton Road/B1363 (as indicatively shown on the proposals Policies Map). The internal layout of any future development on the site could be such that it creates discrete sectors, each with a specific access.	To correct the roundabout reference and make clear the locations on the policy map are indicative.
MM3.41 Policy SS12: Land West of Wigginton Road	vii. Demonstrate that all transport issues have been addressed, in consultation with the Council as necessary, to ensure sustainable transport provision at the site is achievable. The transport and highways impacts of the site development individually and cumulatively should be assessed with sites ST7, ST8, ST9, and ST15. and ST35 should be addressed. Where necessary, proportionate mitigation will be required.	For clarity and effectiveness; making clear a 'proportionate' approach is to be applied and that mitigation will be required where there is evidence of need. Wording consistent with modifications to other strategic site policies

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
<p>MM3.42 Policy SS12: Land West of Wigginton Road</p>	<p>viii. Deliver local capacity upgrades to the outer ring road in the vicinity of the site, to include associated infrastructure to protect public transport journey times on junction approaches. Opportunities to provide grade separated, dedicated public transport routes across the A1237 should be explored in feasibility, viability and cost-benefit terms. Phased development which reflects the delivery of dualling works to the A1237 outer ring road, upgrades and creation of a 4th arm to the Clifton Moor Gate roundabout and pedestrian/cycle underpass to connect Clifton Moor to the site.</p>	<p>For clarity and effectiveness and to reflect the off-site highway works required.</p>
<p>MM3.43 Policy SS12: Land West of Wigginton Road</p>	<p>ix. Deliver high quality, frequent and accessible public transport services throughout the development site, which provide links to other local rural communities where feasible, as well as to main employment centres. It is envisaged such measures will enable upwards of 15% of trips to be undertaken using public transport. All measures proposed to support public transport use should be identified and agreed as part of a Sustainable Transport Strategy which has an overall aim to achieve upwards of 15% of trips by public transport.</p> <p>x. To encourage the maximum take-up of more active forms of transport (walking and cycling), ensure the provision of high quality, safe, direct and accessible pedestrian and cycle links which create well-connected internal streets and walkable neighbourhoods including that provide connectivity to:</p> <ul style="list-style-type: none"> a) the community, retail and employment facilities immediately to the south, (likely to take the form of an overbridge); via pedestrian/cycle underpass b) the surrounding green infrastructure network (with particular regard to public rights of way immediately west of the site) and improvements to A1237 crossing facilities); and c) existing pedestrian and cycle networks across the city via pedestrian/cycle underpass that will connect Clifton Moor to the site. 	<p>For clarity and effectiveness relating to active and sustainable transport requirements.</p>
<p>MM3.44 Policy SS12: Land West of Wigginton Road</p>	<p>xii. Protect and enhance local green assets, trees and hedge lines and enhance existing landscape character. Protect and, where appropriate, strengthen existing boundary features that are recognisable and likely to remain permanent. Where the site's boundary is not defined by recognisable or permanent features it should</p>	<p>To ensure strong green belt boundaries around the site are secured in response to the assessment at EX/CYC/59g.</p>

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
	<p>be addressed through the masterplan and design process in order for strong and defensible Green Belt boundaries to be created and secured.</p>	
<p>MM3.45 Policy SS12: Land West of Wigginton Road</p>	<p>xiv. Provide a detailed site wide recreation and open space strategy and demonstrate its application in site masterplanning. Open space provision must satisfy policies GI2a and GI6.</p>	<p>To ensure impacts identified in the HRA (2020) as a result of recreational pressure on Strensall Common SAC are mitigated.</p>
<p>MM3.46 Policy SS12 explanation – paragraph 3.61</p>	<p>The design and layout of the road should minimise the impact upon the openness of the Green Belt and demonstrate how it would safeguard those elements which contribute to the special character and setting of the historic City.</p>	<p>In response to ongoing negotiation, and to provide clarity on the wider access considerations.</p>
<p>MM3.47 Policy SS13: Land West of Elvington Lane</p>	<p>...It will deliver approximately 3,339 dwellings, around 2,200 of which it is expected that 560 units of which will be delivered within the plan period...</p>	<p>To update the expected delivery beyond the plan period in accordance with EX/CYC/107</p>
<p>MM3.48 Policy SS13: Land West of Elvington Lane</p>	<p>ii. Deliver a sustainable housing mix in accordance with the Council's most up to date Strategic Housing Market Assessment and affordable housing policy</p>	<p>Deleted because matters are addressed under policy H3.</p>
<p>MM3.49 Policy SS13: Land West of Elvington Lane</p>	<p>iii. ...The south eastern and south western boundaries of the site are less well contained than to the north so it will be important for the site to establish its own landscape setting. Protect and, where appropriate, strengthen existing boundary features that are recognisable and likely to remain permanent. Where the site's boundary is not defined by recognisable or permanent features it should be addressed through the masterplan and design process in order for strong and defensible Green Belt boundaries to be created and secured.</p>	<p>To ensure strong green belt boundaries around the site are secured in response to the assessment at EX/CYC/59g.</p>
<p>MM3.50 Policy SS13: Land West of Elvington Lane</p>	<p>iv. Create new open space (as shown on the proposals map) within the site to maintain views of the Minster and existing woodland.</p>	<p>Correction to erroneous reference to the proposals map.</p>

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
<p>MM3.51 Policy SS13: Land West of Elvington Lane</p>	<p>v. Impacts to Elvington Airfield SINC and on biodiversity within the site and zone of influence will be addressed by following the mitigation hierarchy with the overall aim to prevent harm to existing biodiversity assets, delivering no net loss for biodiversity and maximise further benefits for biodiversity. Where required eCompensatory measures should take full account of the extent and quality of the asset being lost or damaged and equivalent or enhanced habitats should be provided within the development site of ST15, on the compensatory habitat of OS10 as provided for in Policy G16 and on the western part of the existing runway shown on the Policies Map.</p> <p>vi. Securing a minimum of 10% provision of biodiversity net gain in relation to ST15.</p> <p>vii. v Follow a mitigation hierarchy to first seek to avoid impacts, then to mitigate unavoidable impacts or compensate unavoidable residual impacts on Heslington Tillmire SSSI and the Lower Derwent Valley SPA/Ramsar through the:</p> <ul style="list-style-type: none"> • incorporation of a new nature conservation area (as shown on the proposals Policies Map as allocation OS10 and included within Policy G16) including a buffer of wetland habitats, a barrier to the movement of people and domestic pets on to the SSSI and deliver further benefits for biodiversity. A buffer of at least 400m from the SSSI will be required in order to adequately mitigate impacts unless evidence demonstrates otherwise; and • provision of a detailed site wide recreation and access strategy to minimise indirect recreational disturbance resulting from development and complement the wetland habitat buffer area which will be retained and monitored in perpetuity. A full understanding of the proposed recreational routes is required at an early stage. <p>viii. vii Deliver ecological mitigation and compensation measures 5 years prior to pre- commencement of any development. They must be supported by a long term management plan (30 year minimum), and be retained and monitored in perpetuity.</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.</p>

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
<p>MM3.52 Policy SS13: Land West of Elvington Lane</p>	<p>ix. Viii Protect the character, setting and enjoyment of Minster Way, <u>otherwise referred to as Langwith Stray, within ST15.</u></p> <p>x. Provide an appropriate range of shops, services and facilities <u>for including social infrastructure such as</u> health, social, leisure, cultural and community uses to meet the needs of future residents. <u>Provision should be</u> made early in the scheme's phasing in order to allow the establishment of a new sustainable community. This should be principally focused around a new local centre</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.</p>
<p>MM3.53 Policy SS13: Land West of Elvington Lane</p>	<p>xi. x Deliver <u>new on-site education provision to meet</u> nursery <u>and primary education facilities, which meet the needs generated by the development, and potentially secondary demand, to be assessed based on generated need. New nursery, primary and potentially secondary provision will be required to serve the earliest phases of development. Secondary school facilities should be provided on land identified on the Policies Map if there is evidence that the need generated by the development justifies this provision. If not, appropriate contributions to off-site provision will be secured.</u></p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012 – recognising land identified for a secondary school if required.</p>
<p>MM3.54 Policy SS13: Land West of Elvington Lane</p>	<p>xii. xi Demonstrate that all transport issues have been addressed, in consultation with the Council and Highways England as necessary, to ensure sustainable transport provision at the site is achievable. The <u>transport and highway</u> impacts of the site <u>should be assessed</u> individually and cumulatively with site's ST7, ST8, ST9, ST14, ST27, ST35 and ST36 <u>should be addressed. Where necessary proportionate mitigation will be required.</u></p> <p>xiii. xii Ensure <u>phased</u> provision of necessary transport infrastructure <u>at the right time to access the site</u> with primary access via the A64 (as shown <u>indicatively</u> on the <u>proposals Policies</u> Map) and a <u>potential secondary</u> access via Elvington Lane. <u>The capacity of the local highway network including Elvington Lane and junctions is limited. Elvington Lane can service the early phase of the development, subject to delivering a new link road between Elvington Lane and Hull Road, as well as works to the south of Grimston Bar Interchange/Elvington Lane Junction. This is subject to detailed assessment at the application stage and is to be agreed through an approved phasing strategy.</u></p>	<p>Clarity and effectiveness on the approach to access and highway infrastructure requirements, recognising additional work that has been undertaken.</p>

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
<p>MM3.55 Policy SS13: Land West of Elvington Lane</p>	<p>xiv. xiii Retain Common Lane/Long Lane/Langwith Stray as cycle/pedestrian routes only to ensure protection of the character of Heslington Village. These routes are very lightly trafficked roads, and could provide pleasant cycle and pedestrian routes from the site to Heslington. It is essential that there is no vehicular transport access to Heslington village along these routes to ensure the setting of Heslington village is maintained. Create cycle and pedestrian routes along Common Lane/Long Lane/Langwith Stray from ST15 to Heslington, ensuring no vehicular access from ST15 to Heslington village along these routes to ensure the setting of Heslington village is maintained</p> <p>xv. xiv Deliver improvements to Explore the potential for local bridleways (e.g. Fordlands Road/ Forest Lane) running through or near the site to be used as year round cycle routes.</p>	<p>Drafting improvements to aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012</p>
<p>MM3.56 Policy SS13: Land West of Elvington Lane</p>	<p>xvi. Xv Provide dedicated secure access for existing local residents and landowners to be agreed with the community of Heslington. Appropriate solutions would need to ensure access is preserved for existing residents and landowners developed in consultation with the community of Heslington. Ensure that vehicular access to connect premises along Common Lane/Long Lane to Heslington is retained as part of the wider ST15 access arrangements.</p> <p>xvii. Xvi Deliver high quality, frequent and accessible public transport services through the whole site which provide links to and between new the on-site local centre and community facilities, as well as to York city centre and other appropriate service hubs, including the University of York. A public transport hub at the local centre should provide appropriate local interchange and waiting facilities for new residents. All measures proposed to support public transport use should be identified and agreed as part of a Sustainable Transport Strategy, with the overall aim to achieve upwards of 15% of trips to be undertaken by public transport. It is envisaged such measures will enable upwards of 15% of trips to be undertaken using public transport.</p> <p>...</p>	<p>Drafting improvements to aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012</p>

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
	<p>xix. Xviii Exploit Optimise synergies with the existing university campus and proposed university expansion in terms of site servicing including transport, energy and waste.</p>	
<p>MM3.57 Policy SS13 explanation – paragraph 3.64</p>	<p>...Any large-scale development solely relying on Elvington Lane would not be supported. Initial modelling work suggests that the Elvington Lane access can accommodate around 1,000 units (approximately 30% of final development at 3,339 units). Public transport improvements, as well as pedestrian and cycle connections, between ST15, ST26 and ST27 should be considered in order to maximise opportunities to secure non car travel between these three sites.</p>	<p>To reference to latest evidence on access and transport to support the effectiveness of Policy SS13.</p>
<p>MM3.58 Policy SS13 explanation – paragraph 3.67</p>	<p>A joined up transport approach would need to be taken to consider the site in combination with other potential developments in the city including the University Expansion Site (ST27) and Elvington Airfield Business Park (ST26). The provision of a new grade separated junction onto the A64 would remain form part of the essential infrastructure for any development in this location. In the interest of sustainability, opportunities should be explored to reuse the aggregates arising from the runway in ST15 in the construction of the new junction or other new highway infrastructure. The viability of delivering significant new or improved transport infrastructure has been must be considered and should be kept under review with evidence provided to demonstrate its robustness. Equally, detailed analysis would will be required to confirm that sustainable travel options (to avoid the site being heavily car dependent) were are realistic and financially sound. The site will require high frequency public transport services based on the overall a minimum target of 15% journeys by public transport bus. In order to minimise car use the development would need a robust transport strategy will be required documenting alternative routes including proposals for buses, walking and cycling.</p>	<p>To support the implementation and effectiveness of Policy SS13.</p>
<p>MM3.59 Policy SS14: Terrys Extension Sites</p>	<p>Terry's Extension Sites (ST16) will deliver 111 dwellings in total at these urban development sites, 22 dwellings on Terry's Clock Tower and approximately 33 dwellings on Terry's Car Park and approximately 56 dwellings on Land to the rear of Terry's Factory...</p>	<p>For clarity in recognition that the site rear of the factory (phase 3) is being developed for an alternative healthcare use.</p>

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
	<p>Terry's Extension Site (Phase 3) - Land to the rear of Terry's Factory</p> <ul style="list-style-type: none"> i. Retain and enhance the formal gardens area adjacent to the site. ii. Achieve high quality urban design which respects the character and fabric of the wider Terry's factory site and buildings of architectural merit. This includes conserving and enhancing the special character and/or appearance of the Tadcaster Road and the Racecourse and Terry's Factory Conservation Areas. iii. Development should complement existing views to the factory and clock tower. 	
<p>MM3.60 Policy SS15: Nestle South</p>	<p>Nestle South (ST17) will deliver 863 approximately 581 dwellings in total, 263 279 in Phase 1 and around up to 600 302 dwellings in Phase 2 at this urban development site.</p> <p>...</p> <ul style="list-style-type: none"> ii. Provide a mix of housing in line with the Council's most up to date Strategic Housing Market Assessment. 	<p>To provide flexibility around the quantum of development, but with updated reference to numbers of homes approved on the site.</p> <p>Criterion ii deleted because matters are addressed under policy H3.</p>
<p>MM3.61 Policy SS16: Land at Tadcaster Road, Copmanthorpe</p>	<p>Land at Tadcaster Road, Copmanthorpe (ST31) will deliver approximately 158 dwellings</p>	<p>For flexibility and effectiveness.</p>
<p>MM3.62 Policy SS16: Land at Tadcaster Road, Copmanthorpe</p>	<ul style="list-style-type: none"> i. Deliver a sustainable housing mix in accordance with the Council's most up to date Strategic Housing Market Assessment 	<p>Criterion deleted because matters are addressed under policy H3.</p>
<p>MM3.63 Policy SS16: Land at Tadcaster Road, Copmanthorpe</p>	<ul style="list-style-type: none"> ii. Create new open space (as shown on the proposals Policies Map) within the site which should be delivered prior to the first phase of development occupation to ensure, in particular, the protection of the adjacent SSSI. 	<p>For clarity and to enhance developability.</p>
<p>MM3.64 Policy SS16: Land at Tadcaster Road, Copmanthorpe</p>	<ul style="list-style-type: none"> v. Provide site access via Tadcaster Road, with no secondary vehicle access from Learmans Way. <p>...</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012, recognising that Learmans Way does not adjoin the site.</p>

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
	<p>vii. Provide required financial contributions to existing local primary and secondary facilities to enable the expansion to accommodate pupil yield. Secure developer contributions for primary and secondary school provision as necessary to meet the need generated by the development.</p>	
<p>MM3.65 Policy SS17: Hungate</p>	<p>Hungate (ST32) – Phases 5+ as identified on the Policies Map will deliver approximately 328 570 dwellings at this urban development site. In addition to complying with the policies within this Local Plan, the site must be delivered in accordance with the agreed site masterplan through existing outline and full planning consents. Development proposals should have regard to</p> <p>In line with the Hungate Development Brief vision, where appropriate. ST32 must be of the highest quality which adds to the vitality and viability of the city centre, is safe and secure, and which promotes sustainable development. Priority should be given to pedestrians, people with mobility impairments, cyclists and public transport. Design should respect local amenity and character whilst being imaginative and energy efficient. The special character and/or appearance of the adjacent Central Historic Core Conservation Area should be conserved and enhanced.</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012 – recognising that all undeveloped blocks on the Hungate site form part of the allocation. Requirement for compliance with planning permissions removed for flexibility.</p>
<p>MM3.66 Policy SS18: Station yard, Wheldrake</p>	<p>i. Deliver a sustainable housing mix in accordance with the Council's most up to date Strategic Housing Market Assessment and affordable housing policy, addressing local need for smaller family homes and bungalows/sheltered housing.</p>	<p>Criterion deleted because matters are addressed under policy H3.</p>
<p>MM3.67 Policy SS18: Station yard, Wheldrake</p>	<p>ii. Be of a high design standard to which will pProvide an appropriate new extension to Wheldrake whilst maintaining the character of the village.</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.</p>
<p>MM3.68 Policy SS18: Station yard, Wheldrake</p>	<p>iv. Undertake a comprehensive evidence based approach in relation to biodiversity to address potential impacts of recreational disturbance on the Lower Derwent Valley Special Protection Area (SPA)/Ramsar/SSSI. This will require the developer to publicise and facilitate the use of other, less sensitive countryside destinations nearby (e.g. Wheldrake Woods) and provide educational material to new</p>	<p>To clarify the mitigation required as detailed in the Habitat Regulation Assessment (2018).</p>

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
	<p>homeowners to promote good behaviours when visiting the European site. The former could be supported by enhancing the local footpath network and improving signage.</p>	
<p>MM3.69 Policy SS18: Station yard, Wheldrake</p>	<p>viii. Provide required financial contributions to existing nursery, primary and secondary facilities to enable the expansion to accommodate demand arising from the development. Secure developer contributions for primary and secondary school provision as necessary to meet the need generated by the development.</p>	<p>For consistency with re-wording across strategic site policies.</p>
<p>MM3.70 Policy SS19: Queen Elizabeth Barracks, Strensall</p>	<p>Policy SS19 and explanatory text at paragraphs 3.82 – 3.88 deleted.</p>	<p>Site removed following Habitat Regulations Assessment (Feb 2019) which did not rule out adverse effects on the integrity of Strensall Common Special Area of Conservation (SAC).</p>
<p>MM3.71 Policy SS20: Imphal Barracks, Fulford Road</p>	<p>Following the Defence Infrastructure Organisation's disposure disposal of the site by 2034 Imphal Barracks (ST36) will deliver approximately 769 dwellings at this urban development site. Development is not anticipated to commence until the end of the plan period....</p>	<p>For flexibility and effectiveness.</p>
<p>MM3.72 Policy SS20: Imphal Barracks, Fulford Road</p>	<p>Demonstrate that all transport issues have been addressed, in consultation with the Council and Highways England as necessary, to ensure appropriate provision is made for sustainable transport provision at the site is achievable. There are existing issues with traffic congestion in this area. The base traffic situation on the A19 is that it is at or exceeding capacity in the vicinity of Heslington Lane/Broadway. The potential transport implications transport and highway impacts of the site development must be fully assessed both individually and cumulatively with sites ST5 and ST15. Where necessary proportionate mitigation will be required.</p>	<p>For clarity and effectiveness; making clear a 'proportionate' approach is to be applied and that mitigation will be required where there is evidence of need. Wording consistent with modifications to other strategic site policies</p>
<p>MM3.73 Policy SS20: Imphal Barracks, Fulford Road</p>	<p>ii. Deliver a sustainable housing mix in accordance with the Council's most up to date Strategic Housing Market Assessment.</p>	<p>Criterion deleted because matters are addressed under policy H3.</p>

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
<p>MM3.74 Policy SS20: Imphal Barracks, Fulford Road</p>	<p>iii. An agreed masterplan to ensure the site's redevelopment will make a positive contribution to the character and distinctiveness of the local area, informed by:</p> <ul style="list-style-type: none"> o the architectural and historic interest of the site and its buildings, including the parade ground and other open areas, related to the site's military use and York's development as a garrison town; and, o the impact of development on the Fulford Road Conservation Area <p>The development of this area must be informed by an assessment of architectural and historic interest of the site and its buildings. Those buildings which are considered to be of historic interest should be retained and reused.</p> <p>iv. The parade ground and other open area which are important to the understanding of the site and its buildings should be retained as open spaces in any development.</p> <p>v. If, following the City Council's review of the architectural and historic interest of this site, Imphal Barracks is included within the Fulford Road Conservation Area, development proposals would be required to preserve or enhance those elements which have been identified as making a positive contribution to its significance.</p> <p>vi. Regardless of the outcome of the paragraph above, the significance of the site's historic environment should be addressed. This includes conserving and enhancing the special character and/or appearance of the adjacent Fulford Road Conservation Area.</p> <p>vii. Be of a high design standard, ensuring the development reflects the history of the site and its previous military use. This site does not exist as an army barracks in isolation and has linkages to other military sites across the city and is linked to the development of York as a garrison town and this history should be reflected in the design of any scheme.</p> <p>viii. Undertake an archaeological evaluation consisting of survey and excavation of trenches to identify the presence and assess the significances of archaeological deposits.</p>	<p>For clarity and effectiveness, and conformity with the NPPF regarding approach to retaining buildings of historic interest.</p>

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
<p>MM3.75 Policy SS20: Imphal Barracks, Fulford Road</p>	<p>x. Consider in detail the proximity and relationship of the site with Walmgate Stray, including undertaking further hydrological work to assess the potential impact of development on the Stray and to the value of the grassland, and to explore any water logged archaeological deposits. Recreational disturbance/pressure on the Stray and the Tillmire SSSI (individual and cumulative effects) should be considered assessed and, where necessary, mitigated.</p> <p>xii. Create new local facilities as required appropriate to meet the needs of future occupiers of the development.</p> <p>xiii. Retain and enhance recreation and open space for community use to mitigate any potential impacts on the adjacent Walmgate Stray.</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012</p>
<p>MM3.76 Policy SS21: Land South of Airfield Business Park, Elvington</p>	<p>Land South of Airfield Business Park, Elvington (ST26) will provide 25,080sqm of B1b, B1c, B2/B8 employment floorspace for research and development, light industrial/storage and distribution. In addition to complying with the policies within this Local Plan, the site must be delivered in accordance with the following key principles, having regard to the following issues:</p> <p>...</p> <p>ii. Retain and enhance historic field boundaries where possible and reflect in the masterplanning of the site.</p> <p>...</p> <p>iv. Demonstrate that all transport issues have been addressed, in consultation with the Council as necessary, to ensure sustainable transport provision at the site is achievable. Impacts on Elvington Lane and Elvington Lane/A1079 and A1079/A64 Grimston Bar junctions will need to be mitigated. Demonstrate that all transport issues have been addressed including consideration of the provision of sustainable modes of transport.</p> <p>v. Further explore air quality, noise and light pollution and contamination issues.</p> <p>vi. Investigate further archaeological deposits on and around the site.</p> <p>...</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.</p> <p>Modifications delete superfluous text, recognising that there is no justification to include reference to historic field boundaries and that issues related to criteria v and vii are dealt with under free standing development management policies.</p>

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
<p>MM3.77 Policy SS22: University of York Expansion</p>	<p>New policy SS22, wholly replacing submission policy.</p> <p>Policy SS22: University of York Expansion</p> <p>As shown on the Policies Map as ST27, 21.2 ha of land to the south of the existing Campus East site is allocated for the future expansion of the university during the plan period. It will provide university uses consistent with Policy ED3 having regard to the following considerations together with those in ED1:</p> <ul style="list-style-type: none"> • Create an appropriate buffer between the site and the A64 where the boundary is adjacent to the A64 in order to mitigate heritage and noise impacts and address landscape and visual impacts. • Assess cumulative transport impacts with other sites including ST5 and ST15 and in relation to the University's impacts provide appropriate mitigation. • Explore feasibility of a junction on the A64 to the south of the site with delivery in conjunction with ST15 • Identify any opportunities with ST15 for managing development impacts in terms of site servicing including transport, energy and waste. • Deliver high quality, frequent and accessible public transport services to York City Centre. It is envisaged such measures will enable upwards of 15% of trips to be undertaken using public transport • Optimise pedestrian and cycle integration, with access networks for a range of non-car uses to be accommodated. 	<p>The proposed changes will enhance the effectiveness of the Policy and improve clarity for decision making purposes in line with paragraph 154 of NPPF 2012. The modifications to Policy SS22 and Policy EC1 clarify the importance of the landscape setting without conflating it with reference to defined 'key' views.</p>
<p>MM3.78 Policy SS22 Explanation</p>	<p>Explanation</p> <p>3.97a The University of York retains a high profile in both the UK and in the rest of the world. The university's status is reflected in the high demand for student places, excellence in research and demand for research co-locations and it is currently projected that its growth will continue over the duration of the plan period. Without the campus</p>	<p>Changes to the supporting text reflect the amended policy wording. Text is proposed for inclusion more clearly describe the wider site context and its importance. The detailed text describing the site and boundaries is proposed for deletion as the content of</p>

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
	<p>extension, the university will not be able to continue to grow beyond 2026. As one of the leading higher education institutions, the university needs to continue to facilitate growth, within the context of its landscaped setting which gives it a special character and quality, to guarantee its future contribution to the need for higher education and research and to the local, regional and national economies. The 21.5ha of land at ST27 is allocated for university uses to support this growth.</p> <p>3.98 The University of York is a key component of the long term success of the city and it is important to provide a long term opportunity for the University to expand. It offers a unique opportunity to attract businesses that draw on the Universities applied research to create marketable products. There is lots of evidence from around the country that shows the benefits of co-location of such businesses with a University. The University proposal is a key priority in the Local Economic Plan Growth Deal that has been agreed with the government and is also included as a priority area in the York Economic Strategy (2016) which recognises the need to drive University and research led growth in high value sectors. The existing campus and ST27 will include new knowledge-based business floorspace and research led activities appropriate to a university campus. The site will also facilitate the re-configuration of the existing Campus 3 site to provide additional on-campus student accommodation helping to reduce the impacts on the private rented sector.</p> <p>3.98a ST27 plays a critical part in the attractive setting of the city. The land to the west is particularly important for maintaining the setting of Heslington village and key views. it has a distinctive landscape quality and provides accessible countryside to walkers and cyclists on the land and public footpaths. The expansion will bring development close to the A64 Ring Road with implications for the interface between the southern edge of York and the countryside to its south. To mitigate any impacts on the historic character and setting of the city, the expansion site must provide a landscape buffer between development on the site and the A64. This can be provided within the site where parallel to the A64, but beyond it on the other boundaries – maximising the developable area while responding sensitively to the landscape setting.</p>	<p>this is unnecessary for inclusion as it neither justifies nor explains the policy. likewise</p>

Section 3: Spatial Strategy

Modification Reference

Proposed Modification

Reason for change

3.99 A broadly four sided site which is generally well contained on three sides. The northern boundary is Low Lane, a narrow single track country lane which runs from Heslington in an easterly direction, to the point where it turns northwards towards the University campus. The boundary treatment is a hedge with intermittent trees along its edge. From the point where Low Lane turns northwards, the site boundary heads south east towards the Ring Road and the flyover (track which leads towards Grimston Grange). This part of the boundary is denoted by a post and wire fence at the bottom of an embankment, overlooking the new velodrome. From this point, the sites south east boundary runs along the alignment of the Ring Road in a south westerly direction (with hedge and ditch boundary), to the next field boundary, where it cuts across the southern edge of the site. This boundary consists of a hedge field boundary to the point where it meets Green Lane, a narrow track bounded by hedges and trees on both sides, to the point where it meets Low Lane. Green Lane forms the western boundary of the site.

3.99a The site has a distinctive landscape quality and provides accessible countryside to walkers and cyclists on the land and public footpaths. The land to the west is particularly important for maintaining the setting of Heslington village and key views. To mitigate any impacts on the historic character and setting of the city the expansion site must create an appropriately landscaped buffer between development on the site and the A64. This can be buffer will be provided within the site where parallel to the A64, but beyond it on the other boundaries – maximising the developable area while responding sensitively to the landscape setting. This will be established through the masterplanning of the site.

3.100 Campus East was designed and established with the development area being car-free. It facilitates the majority of journeys being by non-car modes. Development of ST27 is expected to incorporate this principle. ST27 will be accessed from Hull Road via Campus East. In addition, the development should exploit any shared infrastructure opportunities arising from the proximity of the housing allocation at ST15: Land to the west of Elvington Lane to the University of York. The existing Heslington East campus is designed and established to offer significant proportions of journeys by walking, cycling

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
	<p>and public transport. Any future proposals must continue this existing provision (including bus services).</p> <p>3.101 'Vehicular access to ST27 will be from Hull Road or Field Lane via Kimberlow Lane and Lakeside Way, then south from Lakeside Way into the site'. The Heslington East Campus Extended Master Plan (June 2014) shows no additional entry points into the Campus from those already existing (Lakeside Way (bus and cycle only), Field Lane/Kimberlow Lane and Kimberlow Lane running south from Hull Road Grimston Bar Park & Ride link road.</p> <p>3.101a A development brief for ST27 will be prepared by the University in line with relevant Plan policies. The University will engage with the Council and communities in preparing this development brief,...</p>	
<p>MM3.79 Policy SS23: Land at Northminster Business Park</p>	<p>Land at Northminster Business Park (ST19) will provide 49,500sqm across the of Use class E office, research and development, light industrial uses, industrial (Use Class B2) and storage/ distribution (Use Class B8) B1, B2, B8 uses based on a split of approximately 40/60 office (Use class E) B4a to light industrial (Use Class E) / B2/B8 which is the current ratio at the existing business park. In addition to complying with the policies within this Local Plan, the site must be delivered in accordance with the following key principles having regard to the following issues:</p> <ul style="list-style-type: none"> i. Provide for a sustainable business park to help meet the city's employment needs, ensuring that its composition reflects the economic vision of York. ii. Develop a comprehensive scheme which is linked to the existing business park. ... iv. Promote sustainable transport solutions linking the proposed site to the Park & Ride. v. Optimise integration, connectivity and access through the provision of new pedestrian, cycle, public transport and vehicular routes to ensure sustainable movement into, out of and through the site. The site is in a sustainable location 	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.</p> <p>Modifications reflect changes to use classes and delete superfluous text, recognising that criteria i and ii do not add anything to the policy's effectiveness. Criterion iv is deleted as the links are dealt with in v.</p> <p>Criteria vii and viii are deleted as these matters are dealt with under separate development management policies (ENV2 and D6).</p>

Section 3: Spatial Strategy

Modification Reference	Proposed Modification	Reason for change
	<p>with access to the Poppleton Bar Park & Ride offering frequent bus routes to the city centre, access to Poppleton Rail Station and vehicular access to the A59. The site is in a sustainable location and all transport issues should be addressed including the optimisation of connectivity to sustainable modes of transport into, out of and through the site</p> <p>vi. Provide a high quality landscape scheme in in order, as appropriate, either to mitigate impacts and screen the development and/or to provide providing an appropriate relationship with the surrounding landscape. Attention should be given to the site's relationship with the countryside to the west of the site, to the southern boundary of the site, with Moor Lane (bridleway) and the village of Knapton.</p> <p>vii. Ensure that the residential amenity of neighbouring residential properties is maintained.</p> <p>viii. Prepare a desk based archaeological assessment to inform the site masterplan.</p>	
<p>MM3.80 Policy SS24: Whitehall Grange, Wigginton Road</p>	<p>Whitehall Grange, Wigginton Road (ST37) will provide up to 33,330sqm for B8 storage use. In addition to complying with the policies within this Local Plan, the site must be delivered in accordance with the agreed site masterplan through the existing outline consent a masterplan secured by planning permission.</p>	<p>To provide appropriate flexibility.</p>

MM4.5 Policy EC1
Explanation paragraph 4.8a

4.8a The location of allocation E18 adjacent to Strensall Common SAC means that a comprehensive evidence base to understand the potential impacts on biodiversity from further development is required. Strensall Common is designated for its heathland habitats but also has biodiversity value above its listed features in the SSSI/SAC designations that will need to be fully considered. Although the common is already under intense recreational pressure, there are birds of conservation concern amongst other species and habitats which could be harmed by the intensification of disturbance. In addition, the heathland habitat is vulnerable to changes in the hydrological regime and air quality, which needs to be explored in detail. The mitigation hierarchy should be used to identify the measures required to first avoid impacts, then to mitigate unavoidable impacts or compensate for any unavoidable residual impacts, and be implemented in the masterplanning approach. Potential access points into the planned development also need to consider impacts on Strensall Common.

To acknowledge the location of E18 and its relationship to Strensall Common SAC.

3. Site lies within settlement that is washed over Green Belt, but development does not require very special circumstances to be demonstrated.

MM5.3 Policy H1 Explanation – paragraphs 5.4 to 5.16

Sites with Existing Permissions

5.3 The sites allocated for housing will provide a range and choice of sites capable of meeting future requirements and in line with the spatial strategy for the City of York detailed in Section 3. An estimated yield is attributed to each site and is an indicative figure to demonstrate how the Local Plan housing requirement can be met. For sites with permission the figure is the total number of dwellings approved (as at 1 April 2022). Where the site is without planning permission, the figure is in most cases an estimate based on the size of the site, an assumption about the net developable area, and an assumption about the net residential density aligned to Policy H2. Site yields are only 'indicative', and do not represent a fixed policy target for each individual site. Developers are encouraged to produce the most appropriate design-led solution, taking all national policies and other Local Plan policies into account.

~~Planning permission will be renewed for housing on these sites providing that the proposal accords with the relevant policies in this plan and there have been no material changes to justify refusal of the permission. If renewal of a planning permission is sought the proposal will be tested against the relevant policies in the plan and changes to the previously permitted scheme may be required to ensure the proposed development properly addresses the now extant policies in the plan. Note: as at the 1st April 2017 there were extant planning permissions for 3,578 homes which will contribute towards meeting the overall housing requirement in the Plan.~~

Paragraphs 5.4 to 5.8 deleted

5.9 Local Planning Authorities are expected to demonstrate that they have a rolling five year supply of deliverable sites, measured against the housing requirement set out in Policy SS1, with an additional 5% or 20% buffer (for five years) depending on past delivery to provide a realistic prospect of achieving the planned supply and to ensure choice and competition in the market for land. Developable sites or broad locations should be identified for years 6-10 and where possible for years 11-15. To fulfil these requirements and to provide additional certainty we have the Council has chosen to allocate land for the full plan period, including the Green Belt period, to 2037/38 to meet the minimum housing requirement as set out in Policy SS1 of 822 dwellings per year 867 additional dwellings. The Council accepts that there has been persistent under delivery of housing as defined in the NPPF and consequently has included enough land in the early years of the trajectory to ensure there is a 20% buffer in the 5 year supply. This land has been brought forward from later in the plan period. Progress on meeting delivery targets will be assessed

To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.

Superfluous text removed where it does not relate to the implementation of Policy H1.

MM5.8 Policy H3: Balancing the Housing Market

Policy H3: Balancing the Housing Market

The Council will expect developers to provide housing solutions that contribute to meeting York's housing needs, as identified in the latest Local Housing Needs Assessment (LHNA) and in any other appropriate local evidence. New residential development should therefore maintain, provide or contribute to a mix of housing tenures, types and sizes to help support the creation of mixed, balanced and inclusive communities.

seek to balance the housing market across the plan period and work towards a mix of housing identified in the Strategic Housing Market Assessment (SHMA). Proposals for residential development will be required to balance the housing market by including a mix of types of housing which reflects the diverse mix of need across the city. This includes flats and smaller houses for those accessing the housing market for the first time, family housing of 2 to 3 beds and homes with features attractive to older people.

To aid effectiveness with reference to latest evidence and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.

Section 5: Housing

² SHMA – Strategic Housing Market Assessment

...

5.41 ~~Three Two~~ plots for Travelling Showpeople ~~have has~~ been identified for the first 5 years of the plan period at The Stables, Elvington, ~~with a further 1 plot in the same yard for the future expansion of the existing family in year 2032.~~

...

MM5.16 Policy H5 and H6 Explanation – paragraph 5.42

~~5.42 The suitability of the location of any further sites for Gypsies, Travellers or Travelling Showpeople which come forward during the plan period will be determined in accordance with criteria i-v of Policies H5 and H6. These consider the natural and historic environment, access to public transport and services, road access and congestion, flood risk and amenity. The development of the allocated sites and any further sites that come forward during the plan period will be determined in accordance with Policies H5 and H6 criteria vi-x. These consider the provision of storage and recreation space, amenity provision, size and density of pitches/plots, landscaping of the site, amenity of nearby residents and future occupiers of the site.~~

5.42 The suitability of sites not allocated for Gypsies, Travellers or Travelling Showpeople in this Local Plan will be assessed against the locational principles within criteria i-v of Policies H5 and H6 (Part C) as appropriate. All development proposals (including those forming part of a strategic allocation) will need to demonstrate that the site’s design and layout observes the principles within criteria vi-x of Policies H5 and H6, as appropriate.

Where proposals seek to provide a commuted sum in lieu of either on or off-site pitch provision, applications will need to comprehensively demonstrate the following:

1. That the design parameters (vi – x in part C of Policy H6) cannot be satisfactorily achieved through evidence of a site and masterplan appraisal (which should include layout and capacity assessments as well as a demonstration of all reasonable attempts to overcome any site constraints); and,

To provide clarity on the policy approach and planning application requirements

Section 5: Housing

Modification Reference	Proposed Modification	Reason for change
	<p>2. That there are no available sites which would be suitable for the number of pitches required. Evidence should include an appraisal of sites on the market at the time of the application with clear justification for their rejection.</p> <p>Committed sums will be calculated on the basis that costs are met in full including, where appropriate, land purchase, professional fees, construction, and operating costs.</p>	
<p>MM5.17 Policy H7: Student Housing</p>	<p>Policy H7: Off Campus Purpose Built Student Housing</p> <p>The University of York and York St. John University must address the need for any additional student housing which arises because of their future expansion of student numbers. In assessing need, consideration will be given to off campus provision and the capacity of independent providers of bespoke student housing in the city and whether it is economically prudent to provide additional student accommodation. To meet any projected shortfall, provision by the University of York can be made on either campus. Provision by York St. John University is expected to be off campus but in locations convenient to the main campus.</p> <p>SH1: Land at Heworth Croft, as shown on the proposals Policies Map, is allocated for student housing for York St. John University students.</p> <p>Proposals for new off campus purpose built student accommodation, other than the allocation at SH1, will be permitted supported where all of the following criteria are satisfied:</p> <ul style="list-style-type: none"> i. there is a proven need it can be demonstrated that there is a need for student housing which cannot be met on campus; and ii. it is in an appropriate location for education institutions and accessible by sustainable transport modes; iii. The rooms in the development are secured through a nomination agreement for occupation by students of one or more of the University of York and York St. John University; and iv. the development would not be detrimental to the amenity of nearby residents and the design and access arrangements would have a minimal impact on the local area. v. The accommodation shall be occupied only by full-time students enrolled in courses of one academic year or more and conditions or obligations shall be imposed to secure compliance with this requirement and for the proper management of the properties 	<p>To aid effectiveness and clarity for decision making purposes in line with paragraph 154 of NPPF 2012, making clear the policy relates to off campus provision only.</p> <p>Approach to securing affordable housing contributions introduced in order to support the Plan's overall contribution to meeting affordable housing needs (in accordance with NPPF 2012 and evidence at EX/CYC/107-3)</p>

Section 5: Housing

Modification Reference	Proposed Modification	Reason for change
	<p>For new student accommodation a financial contribution should be secured towards delivering affordable housing elsewhere in the City. The contribution will be calculated on a pro rate basis per bedroom using the following formula:</p> <p style="text-align: center;"><u>Average York Property price – Average York Fixed RP Price x 2.5% = OSFC per student bedroom</u></p> <p>The contribution will be required only from the number of units creating a net gain. For mixed-use developments of student accommodation with general housing a pro-rata approach will be used to determine whether a contribution is required, and how much this should be. Contributions towards affordable housing provision from new student accommodation will not be sought where the student accommodation site which at the date of adoption of the Plan is owned by a university and which will continue to be owned by a university to meet the accommodation needs of its students. Where a developer considers the contribution cannot be fully met they should justify the level of provision proposed through an open book appraisal to demonstrate to the Council's satisfaction that the development would not otherwise be viable.</p> <p>Developers may not circumvent this policy by artificially subdividing sites, and are expected to make efficient use of land.</p> <p>Conditions will be used to ensure the proper management of the accommodation in the interests of the amenity of adjacent properties and that any development remains occupied by students in perpetuity, unless and until an alternative use is approved by the Council.</p>	
<p>MM5.18 Policy H7 Explanation – paragraph 5.47</p>	<p>...</p> <ul style="list-style-type: none"> the likely future supply of accommodation based on extant planning permissions <u>and estate strategies of the relevant education provider.</u> <p><u>The assessment should form the basis of a formal agreement between a developer and an education provider, confirming the number of bedspaces and accommodation type required.</u></p>	<p>To provide clarity on the policy requirement in the context of changes included at MM5.5.</p>
<p>MM5.19 Policy H9: Older Persons Specialist Housing</p>	<p>...</p> <p><u>Residential development proposals on</u> Strategic sites <u>(over 5ha)</u> should incorporate <u>the an</u> appropriate provision of accommodation types for older persons <u>in accordance with Policy H3 within their site masterplanning.</u> For sheltered/extra care accommodations a mix of tenures will be supported.</p> <p>Where development falls within Use Class C3, affordable housing provision will be required <u>in line with the requirements set out in policy H10.</u></p>	<p>To aid effectiveness and clarity for decision making purposes in line with paragraph 154 of NPPF 2012.</p>

Section 5: Housing

Modification Reference

Proposed Modification

Reason for change

MM5.20 Policy H9 explanation – paragraph 5.59

Where specialist accommodation is provided, it will be important to ensure that it enables residents to live independently as far as possible by ensuring it is located close to facilities and services or that they are accessible by public transport. Residential development on strategic sites (of over 5ha) should incorporate a wider range of accommodation suitable for older people

To aid effectiveness and clarity for decision making purposes in line with paragraph 154 of NPPF 2012.

MM5.21 Policy H10: Affordable Housing

Policy H10: Affordable Housing

To help maximise the planning system’s contribution to meeting affordable needs and to support the Council’s target to deliver 3,265 affordable dwellings, affordability across the housing market, the Council will support residential schemes for 25 or more dwellings will be permitted where the following criteria are satisfied which:

- i. reflect the relative viability of development land types in York by providing affordable housing is provided percentage levels for site thresholds as set out in accordance with Table 5.4 as a minimum. Higher rates of provision will be sought where development viability is not compromised.

Table 5.4: Affordable Housing Site Thresholds

Threshold	Target
Brownfield sites => of 15 or more dwellings (gross)	20%
Greenfield sites => of 15 or more dwellings (gross)	30%
Urban, Suburban and Rural All sites 4-15 dwellings	210% ¹
Urban brownfield sites 5-10 dwellings ²	15% ¹
Urban greenfield sites 5-10 dwellings ²	19% ¹
Urban brownfield sites 2-4 dwellings ²	6% ¹
Urban greenfield sites 2-4 dwellings ²	10% ¹
Sub-urban brownfield sites 5-10 dwellings ²	10% ¹

Simplification of policy (justified by HS/P3/M1/AHP/1a) to aid effectiveness and clarity for decision making purposes in line with paragraph 154 of NPPF 2012.

- ii on sites of 15 homes and above on-site provision will be expected, unless off-site provision or a financial contribution of equivalent value can be robustly justified.
- iii. on sites of ~~2-15~~ **5-14** homes an off site financial contribution (OSFC) is required in accordance with the approved formula set out below:

$$\text{Average York Property price} - \text{Average York Fixed RP Price} \times \text{10\% Target} = \text{OSFC per dwelling}$$

- iv. ~~make~~ provision ~~which~~ reflects tenure split in terms of social renting and intermediate housing, as set out in the most up to date ~~SHMALHNA~~ or other best available evidence.
- v. ~~fully integrate~~ the affordable housing ~~is fully integrated~~ by pepper potting throughout the development with no more than two affordable dwellings placed next to each other. ~~The size and type of homes should be a pro rata mix of the total homes provided on site, taking into account current assessments of local need where on-site provision is required. The affordable housing should be~~ and is visually indistinguishable from the open market dwellings.

Section 5: Housing

Modification Reference	Proposed Modification	Reason for change
	<p>...</p> <p>This policy will apply if a development proposal below thresholds in table 5.4 is followed by an obviously linked proposal at any point where the original permission remains extant or up to 5 years following completion of the first scheme, and the combined total of dwellings (or floorspace) is 5 or more dwellings (or 1,000sqm or more floorspace).</p>	
<p>MM5.22 Policy H10 explanation</p>	<p>Thresholds</p> <p>5.60 NPPF (2012) requires Councils to set policies for meeting identified affordable housing need, and that those policies should be sufficiently flexible to take account of changing market conditions.</p> <p>5.61 Given the conclusions reached in the City of York Affordable Housing Viability Study (2010) and Annex 1 (2011) (AHVS) and the City of York Local Plan and CIL Viability Assessment (2017), Based on viability evidence prepared in support of the Local Plan, developments within York are expected should be able to provide the target minimum levels of affordable homes set out in Policy H10 approved for development management purposes. Therefore no individual site assessment will be required where submissions proposals achieve these policy requirements targets and this is to be encouraged in order to reduce time on further analysis and negotiation.</p> <p>...</p> <p>Types</p> <p>5.63 Affordable housing in York includes social rented and intermediate housing provided to specified eligible households whose needs are not being met by the open housing market, and who cannot afford to enter that market. The definition specifically excludes low cost market housing.</p> <p>Tenure/Mix</p> <p>5.64 The City of York Council SHMA and Addendum (2016) recommends an 80% social and affordable rented and 20% intermediate split.</p> <p>5.65 A full range of property sizes and types tenures are needed to satisfy the affordable housing needs of the city and providing small or poor quality accommodation will not be seen as satisfying the policy. In order to help build mixed and sustainable communities the mix and tenure of affordable homes provided on sites should have regard to the latest LHNA (or other available evidence) need to be pro-rata of the market homes, integrated within the site and indistinguishable from the market housing on site.</p>	<p>For clarification and to support interpretation of the modifications at MM5.9.</p>

Section 5: Housing

Modification Reference

Proposed Modification

Reason for change

5.66 The affordable homes should be visually indistinguishable from the open market dwellings and need to be fully integrated within the development by pepper potting throughout with no more than two affordable dwellings placed next to each other. The exception to this is apartment blocks if they are to be transferred freehold to Registered Providers. These affordable apartment homes should be provided in an apartment block rather than pepper potted throughout the development. The size and type of homes should be a pro rata mix of the total homes provided on site, taking into account current assessments of local need where on-site provision is required. The affordable housing should be visually indistinguishable from the open market dwellings.

5.67 The Council will make public any updates to the evidence on housing mix and tenure split that is currently provided in the SHMALHNA. Developers should consult the Council’s web site prior to making any planning application to confirm the then current position on this matter. Information related to the average York property price and fixed RP price will also be provided on the Council’s website.

Provision

5.68 In accordance with national guidance affordable housing provision for sites of 15 homes and above will normally be expected to be provided on-site. Following the change to national planning guidance, the council can no longer seek financial contributions towards affordable housing on rural schemes of 1 to 10 units with a gross area of no more than 1,000sqm. Planning obligations on affordable housing and other matters can only be applied to schemes of 11 new homes or more or 1 to 10 new homes with a total gross floorspace of more than 1,000sqm.

The commuted sum is calculated using the following formula and will be updated annually:

$$\text{Average York Property price} - \text{Average York Fixed RP Price} \times \% \text{ Target} = \text{OSFC per dwelling}$$

Table 5.5: Commuted Payment Calculation

MM6.1 Policy HW1: Protecting Existing Facilities	<p>The Council will work with local communities and voluntary sector organisations to help preserve and re-use existing community assets.</p> <p>Development proposals which involve the loss of existing community facilities, or facilities last used for community purposes, will not only be supported in <u>exceptional circumstances where</u>, unless it can be demonstrated that:</p> <ul style="list-style-type: none"> i. facilities of equivalent or greater capacity and quality (in terms of function, accessibility, adaptability and variety of use) are provided elsewhere on the site; or ii. <u>if site constraints do not allow on-site re-provision</u>, facilities of equivalent or greater capacity and quality (as defined above) are re-provided <u>off-site</u>, in a location that equivalently or better serves the local community's needs, <u>and is well served by public transport and easy to reach on foot and by bike</u>; iii. <u>robust evidence is submitted to demonstrate that</u> the facilities no longer serve a community function and demonstrably cannot be adapted to meet other community needs <u>or are surplus to requirements</u>; or iv. in the case of commercial facilities, evidence is provided that demonstrates the facilities are no longer financially viable <u>with no market interest</u> <p>Developers must consult with the local community about the value of the asset and the impact that a loss of facilities may have. If <u>Where</u> facilities are to be re-provided elsewhere, a clear commitment to replace them <u>will be secured as part of the planning permission or S106 agreement</u>. in a timely manner must be evidenced, in order for planning permission to be granted. <u>Where the facilities have been re-provided or re-located in advance, evidence of this re-provision should be included within any planning application.</u></p>	To enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.

Section 6: Health and Wellbeing

Modification Reference	Proposed Modification	Reason for change
<p>MM6.2 Policy HW1 explanation – paragraph 9.5</p>	<p>For the purpose of the policies within this section, community facilities should be taken to mean the buildings, facilities, and services that meet the day-to-day-needs of communities. This may include libraries, post offices, public houses and community meeting places, such as youth groups, places of worship, and parish and village halls.</p>	<p>To make clear that public houses fall within the remit of Policy HW1.</p>
<p>MM6.3 Policy HW1 explanation – paragraph 6.9</p>	<p>A loss of viable community facilities will only be permitted if they are replaced by facilities of equal or greater capacity and quality (and the replacement is secured by planning obligation) and met by developer contributions. In exceptional circumstances, their loss will be approved if it can be demonstrated that they no longer serve a community function and cannot be adapted to meet other community needs, or are surplus to requirements. Applications which involve the disposal of community assets must therefore include an assessment of the current function, accessibility, and adaptability of the facility. Any assessment which seeks to demonstrate that the facility is surplus to requirements must provide evidence of facilities in the immediate area which can appropriately cater for the loss of the relevant facility and is accessible for current users by public transport, foot and cycle. Applications must demonstrate how alternative other facilities will meet or exceed these standards of provision from the facility to be lost....</p>	<p>To add clarity on the planning application requirements.</p>
<p>MM6.4 Policy HW1 explanation – paragraph 6.10</p>	<p>The Local Plan has an important role to play in ensuring that community facilities are provided in the most effective and accessible way. Existing services must be protected as much as possible, however, it is also important to ensure that existing facilities are ‘fit for purpose’. Changes in the economic climate may mean that some commercial facilities (such as public houses) are no longer financially viable. Only in such circumstances, and when no alternative community use is possible, a loss of commercial facilities will be permitted. Evidence that the facilities have been appropriately marketed for a minimum of a two years year without success will be required to demonstrate they are unviable. This should consist of (as a minimum) a report explaining the marketing process and its outcomes, including the terms offered, any interest received and why it was not successful. In addition, an open book based viability appraisal must be submitted to demonstrate that the facility is not viable, and could not reasonably be made viable</p>	<p>To enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012. Making clear the marketing evidence and requirements in the case of loss of commercial facilities.</p>

Section 6: Health and Wellbeing

Modification Reference	Proposed Modification	Reason for change
<p>MM6.5 Policy HW2: New Community Facilities</p>	<p>Applications for strategic residential developments must be accompanied by an audit of existing community facilities and their current capacity, prepared by the applicant. Developments that place additional demands on existing services will be required to provide proportionate new or expanded community facilities, to meet the needs of existing and future occupiers. These should be provided on site or, where on site provision is not possible due to site constraints, or where the council agrees provision could better meet needs elsewhere, developer contributions will be sought to provide new or expanded facilities. these additional facilities.</p> <p>As the population grows and population demographics change over the plan period, new facilities will be required. The Council will work with communities and other partners to help address deficits in community facilities.</p> <p>The Council will support applications for new or expanded community facilities when an existing deficit or future need has been identified. Where appropriate, f Facilities should be designed to be adaptable and multi-purpose, in order to future-proof services and enable a wide range of community uses. Any new or expanded facilities must be accessible and well-served by public transport, footpaths and cycle routes.</p>	<p>To enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.</p> <p>The second paragraph of the policy has been moved to supporting text.</p>
<p>MM6.6 Paragraph 6.12a</p>	<p>As the population grows and demographics change over the plan period, new facilities will be required. The Council will work with communities and other partners to help address deficits in community facilities.</p>	<p>To enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.</p> <p>The second paragraph of Policy HW2 has been moved to supporting text.</p>
<p>MM6.7 Policy HW3: Built Sport Facilities</p>	<p>...</p> <p>For strategic sites facilities should be provided on-site, where possible. if Where off-site provision is necessary or more appropriate, facilities should still be accessible to the community it will serve residents; be well served by public transport; and be easy to reach on foot and by bike. Applications for strategic residential developments must be accompanied by an audit of existing built sports facilities and their current capacity, prepared by the applicant.</p>	<p>To enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.</p> <p>Reference to management arrangements has been deleted and incorporated into the supporting text - shown in the modification below:</p>

Section 6: Health and Wellbeing

Modification Reference

Proposed Modification

Reason for change

The loss of built sports facilities (either currently or last used for sports activities) will only be permitted in exceptional circumstances where:

- a needs assessment provided by developers, and in accordance with the most up to date Built Sports Facilities Strategy (or subsequent replacement strategy), identifies an over-provision in the area; or
- the development only affects part of the site and does not impact on reduce its value capacity for sport; or
- it would be replaced by a facility of equivalent or better quality and capacity, in a location that still serves the same community which is accessible by public transport, foot and bicycle. and that has adequate management arrangements.
- the proposal is for alternative built sports facilities where the need outweighs the loss of the existing facility.

Development for new or expanded built sports facilities will be strongly supported where a deficiency in or future provision has been identified, and when it is well located, accessible to all in terms of age and ability, subject to the specific sports uses proposed, and when suitable infrastructure exists or can be created to manage and maintain the facility. Development of new sports facilities should be co-located with other health and community facilities and schools, where possible, to encourage participation in exercise. Any future demand should, in the first instance, be met through extensions and expansion of existing high-quality sustainable sites.

MM6.8 Policy HW3 explanation – Paragraph 6.20

6.20 New development must not compromise current or future residents' health and wellbeing and the Council will work to safeguard existing sports facilities. Where new facilities are required to address need arising from a new development, suitable management arrangements and/or an appropriate operator would be required to be secured as part of the obligations. York's built sports facilities will be protected unless it can be demonstrated that the use is no longer viable, is surplus to need, or that high-

Reference to management arrangements has been deleted from the policy text and incorporated into the supporting text.

Modification Reference

Proposed Modification

Reason for change

	<p>The Council will support the provision of new or enhanced primary and secondary care services when there is an identified need.</p> <p>Improved, enlarged or additional primary or secondary healthcare facilities will may be required to support residential developments that place additional demands on services beyond their current capacity, in line with the National Planning Policy Framework. Developer contributions will be required to support the increase in provision. An assessment of the accessibility and capacity of existing primary and secondary care services will be required at the application stage for all residential strategic sites.</p> <p>Development P proposals which fail to protect include existing primary or secondary care services must re-provide the service as part of the proposal or involve the loss of services, will not be supported, unless it can be demonstrate d the facilities are no longer required or that relocating facilities would better meet the community's needs.</p> <p>Any new primary or secondary care facilities must be easily accessible by public transport, walking, and cycling.</p> <p>Secondary Care</p> <p>The Council will work closely with the York Teaching Hospital NHS Foundation Trust, and with Tees, Esk and Wear Valley NHS Foundation Trust (or any successor organisations), to understand their needs; help ensure their sites are fit for purpose; and enable them to provide safe, effective and sustainable healthcare, for the plan period and beyond.</p>	<p>Primary and secondary care have been combined into one for clarity and consistency and to avoid repetition.</p>
--	---	--

MM6.11 Policy HW5: Healthcare services

York Teaching Hospital NHS Foundation Trust
 The Council will support the redevelopment of York Teaching Hospital NHS Foundation Trust (as identified on the **Proposals Policies** Map) to enable it to expand its capacity; to uphold and improve the quality of secondary care it delivers; and ultimately to remain on its existing site for the long term, ensuring the optimum delivery of secondary care services in York.

To enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012

The final line is moved to the explanatory text.

Section 6: Health and Wellbeing

Modification Reference	Proposed Modification	Reason for change
	<p>The Council will support the redevelopment of the staff car park on the existing York Teaching Hospital NHS Foundation Trust site to meet its immediate need for increased capacity in Accident and Emergency. The Council will work with York Teaching Hospital NHS Foundation to develop a new</p> <p>A Travel Plan will form part of any detailed planning application to ensure that the loss of car parking facilities will be appropriately managed to ensure not compromise access of to care is not compromised.</p> <p>To enable the Trust to expand existing clinical facilities the Council will support the development of the extension to York NHS Hospital Trust site (as shown on the Proposals Policies Map as HC1), for health and social care purposes, such as a GP practice or short-term residential care. The Council will continue to work with the Trust to help them make additional changes to their site as their needs change over the plan period.</p> <p>Tees, Esk and Wear Valley NHS Foundation Trust ... as shown on the proposals policies map as HC2).</p>	
<p>MM6.12 Policy HW5 explanation – Paragraph 6.36</p>	<p>6.36 Healthcare services must be responsive to the current and projected needs of local communities. The assessment submitted to support planning applications should reflect the catchment for each kind of healthcare facility, reflecting that primary and secondary care facilities provide very different services and their catchment areas reflect that. This is contingent upon having appropriately located sites, which are able to cope with local demand and provide a sustainable and effective service. The Council will help protect existing healthcare facilities and support the relevant bodies to expand their premises, or seek alternative, more suitable sites, where appropriate.</p>	<p>To enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.</p>
<p>MM6.13 Policy HW6: Emergency Services</p>	<p>The Council will work closely with Yorkshire Ambulance Service NHS Foundation Trust, North Yorkshire Police, and North Yorkshire Fire and Rescue Service, to ensure that their changing needs are understood. The Council will support the development of new</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012</p>

Section 6: Health and Wellbeing

Modification Reference	Proposed Modification	Reason for change
	<p>emergency service facilities, where there is a demonstrable need, and in appropriate locations that enable them to meet necessary response times.</p> <p>The Council will support the Yorkshire Ambulance Service NHS Foundation Trust's new 'Hub and Spoke' estate model. Hubs provide essential clinical and maintenance and facilities, while spoke facilities provide additional opportunities for ambulances to be stationed close to areas of demand. The Council will support the development of additional sites for ambulances at key points in densely populated areas, close to major highways.</p> <p>The following sites have been identified as requiring additional spoke facilities:</p> <ul style="list-style-type: none"> • ST7: Land East of Metcalfe Lane • ST8: Land North of Monks Cross • ST9: Land North of Haxby • ST15: Land West of Wigginton Road <p>Such facilities would need to provide:</p> <ul style="list-style-type: none"> • A 6 x 3m serviced building with water, electricity and drainage. • Parking facilities for two ambulances. <p>These facilities would need to be located within the development and close to the main highway.</p>	<p>The modifications reflect the latest discussions with the Yorkshire Ambulance Service.</p>
<p>MM6.14 Policy HW7: Healthy Places</p>	<p>Proposals for major residential developments must provide a statement as part of any detailed planning application, proportionate to the size of the development, showing how the following design principles have been adequately considered and incorporated into plans for development:</p> <ul style="list-style-type: none"> • well-designed streetscapes that encourage residents to spend time outdoors; • the provision of safe, easy to navigate and attractive public footpaths and cycle paths between dwellings, to encourage physical activity; 	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012</p>

Section 6: Health and Wellbeing

Modification Reference

Proposed Modification

Reason for change

- the incorporation of formal and informal play spaces and outdoor gyms to encourage physical activity for all age groups and abilities;
- good connections to neighbouring communities and green spaces, in the form of footpaths and cycle routes, including the extension and protection of public rights of way, where appropriate;
- ~~spaces for communities to come together;~~
- ~~adaptations to designing~~ buildings and public spaces ~~to be accessible for all ages and life stages, including for~~ those with limited mobility;
- considerations for how the design may impact on crime or perception of safety, including lighting strategies for public spaces; and
- buildings that are adaptable to the changing needs of residents.

Details of how these principles have been considered should be ~~noted~~ included in the Design and Access Statement accompanying the proposal.

All new strategic sites must complete a Health Impact Assessment (HIA) ~~prior to the submission of a~~ and submit as part of the planning application. HIAs are a means to systematically assess the potential health risks and benefits of new developments on existing and future communities. They promote the development of actions to mitigate negative impacts and maximise community benefit.

6. SECTION 7: EDUCATION

Section 7: Education		
Modification Reference	Proposed Modification	Reason for change
MM7.1 Policy ED1; University of York	<p>New policy text, wholly replacing submission policy.</p> <p>To enable the continuing development of the University of York, the following range of higher education and related uses will be permitted on the University's existing campuses as identified in Figure 7.1:</p> <ul style="list-style-type: none"> • academic, teaching, research and continuing professional development uses • housing for staff and students • arts, cultural, sports and social facilities ancillary to higher education uses • conference facilities • research/knowledge-based businesses, including University-led collaboration projects with industry • other uses ancillary to the university, including support services for the uses identified above. <p>The University of York must address the need for any additional student housing which arises because of its future expansion of student numbers taking account of on site provision and the capacity of independent providers. Provision will be expected to be made on campus in the first instance where this can be accommodated, or off-campus, in line with considered under Policy H7.</p> <p>Policies ED2 campus west and ED3 campus east address specific matters concerning those parts of the University Campus but the following requirements apply to all development on the University campuses and ST27 (the expansion site):</p> <ol style="list-style-type: none"> i. Proposals for new facilities or uses should be supported by an up to date development brief to cover campus west, campus east and the extension site which should demonstrate the need for these in the context of the University's estate strategy. ii. Proposals should have regard to the historic setting of York and should where appropriate be accompanied by a heritage impact assessment iii. Satisfactory integration of development within the existing campus west, east (and ST27) so that it conserves or enhances its character and open space iv. Proposals for landscaping are required to integrate with the existing development and/or to screen as appropriate 	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.</p> <p>This policy relates to university development as a whole and modifications are intended to clarify the overarching approach removing repetition with ED2 and ED3. Modifications also clarify the relationship with Policy H7 related to student housing and Green Belt matters related to the development of the University Heslington Campus.</p>

Section 7: Education		
Modification Reference	Proposed Modification	Reason for change
	<p>v. <u>Proposals should ensure that existing student housing capacity meets need from expansion in student numbers and that the student housing capacity of Campus West is not reduced below 3,586 unless re-provided on Campus East</u></p> <p>vi. <u>Make an efficient use of land, including optimising densities, within the scope of the applicable constraints.</u></p> <p>vii. <u>Appropriate connections to transport including connections to the city centre and walking and cycling links within the campus or externally</u> <u>Facilities for sport, and essential operations to support this, and for landscaping, adjacent to campus west, campus east and ST27 may be located within the Green Belt if they are appropriate development, preserve the openness of the Green Belt, and meet the above criteria.</u></p>	
<p>MM7.2 Policy ED1 explanation - paragraphs 7.1a (new) to 7.2</p>	<p><u>The University of York has an important role in the City (as well as nationally and internationally). It can help:</u></p> <ul style="list-style-type: none"> • <u>enable the city of York to contribute directly to the delivery of national growth strategies;</u> • <u>enable key Local Enterprise Partnership priorities to be realised;</u> • <u>support the York Economic Strategy; and</u> • <u>contribute to delivering the local plan vision of supporting the delivery of sustainable economic growth.</u> <p>The Heslington campus <u>comprises Campus West, the original campus laid out in the 1960s and Campus East, open since 2009. Site allocation ST27 provides for the further expansion of Campus East.</u> To ensure that the Heslington Campus can the existing campuses forming the University make a full contribution to the life of the city, it is important that <u>they it continues</u> to be used for predominantly higher educational and related uses. It is also vital that opportunities are maintained for the University's cultural, social and sports facilities to be used by the wider public.</p>	<p>Changes to the supporting text reflect modifications to policy wording. A clearer statement of the University of York's role in the city and the form of Heslington Campus is included for clarity Linked to this, the map at 7.1 is replaced to show the correct extent of University of York's Heslington Campus.</p>
<p>MM7.3 Policy ED1 explanation - paragraphs 7.2a, 7.2b, 7.2c, 7.2d and 7.2e</p>	<p><u>7.2a Campus West (shown in Figure 7.1) contains a number of listed buildings and features and much of the campus is listed as Registered Park and Garden. It is an important asset to the city. It was designed as a park campus with buildings; it is a 'set piece'. In that respect the ratio of open space to buildings is fundamental to the original design concept. This has shifted over time but it is important to ensure that in any future development that there is not harm to the composition. The built footprint at Campus West is approximately 23%; However, it was the quality of the initial design ambition and visionary approach to landscape vision that has resulted in the success of</u></p>	<p>Changes to the supporting text reflect modifications to policy wording.</p>

Section 7: Education

Modification Reference

Proposed Modification

Reason for change

the campus, not just the application of built footprint principles. It is this quality of design and innovative landscaping approach which is sought to be met through the policy.

7.2b Development at Campus East has been established in an outline planning permission and approved design brief. Further development and the proposed ST27 extension (shown on Figure 7.1) will need to maintain the parkland setting, established at Campus West to create a cohesive campus, and the high design quality established there. The location near the A64 has an important role in maintaining the setting and compact nature of the city. A high visual quality and good design, whilst also enhancing public amenity in terms of access to the countryside and wildlife interest, is therefore essential. This includes preservation and, where possible, enhancement of the views that can be seen from the site. This should support the realisation of a similarly ambitious and committed approach to Campus West, which must be developed, controlled and implemented through a masterplanned approach.

7.2c This masterplanned approach to development at the Heslington campuses will be formalised in a Development Brief prepared by the University in consultation with Historic England. This should also involve appropriate engagement with surrounding communities. It is important that this Development Brief optimises the use of the existing estate, making the most efficient use of land and buildings across Campus East and West. To enable this, the Development Brief will be informed by the University's 5 to 10-year estates strategy (or integrated infrastructure plan or equivalent). Such a strategy is likely to address plans for student growth, for research activity and for business collaboration in the context of the University's funding and resource constraints (and wider government policy) and set out capital investment plans and programmes. The Development Brief should reflect evidence in the estate strategy which ensures, and provides evidence to show, that current space and land is efficiently used within accepted constraints having regard to the performance and fitness of the existing estate. The University and the Council will continue to engage closely and maintain regular dialogue on the definition and evolution of any strategy.

7.2d An annual student housing survey should also be submitted to the Council. If in any year an annual survey demonstrates that there is unmet student housing demand on the site in excess of 50 bedspaces, the university must undertake to bring forward and implement plans to provide additional accommodation on site as a priority or offsite in line with Policy H7.

7.2e The University was established in the city centre in 1962 at Kings Manor, Campus West following in 1964 and Campus East in 2009. A business start-up hub facilitated by the University has been

Section 7: Education		
Modification Reference	Proposed Modification	Reason for change
	<p>established in offices at the Guildhall. The Council will work with the University to accommodate research/ knowledge business uses in the City Centre and elsewhere consistently with other policies in this Plan.</p> <p>7.3 Campus East provides the potential for a cluster of knowledge based companies to locate, to the benefit of city and University. Such uses will contribute to the implementation of the York Economic Strategy (2016) and to the vitality of the University's research activities.</p>	
MM7.4 Policy ED2: Campus West	<p>New policy text, wholly replacing submission policy</p> <p>Policy ED2: Campus West</p> <p>Proposals for new development on University of York Campus West (including the extension and redevelopment of existing buildings) will be permitted having regard to the following requirements together with those in ED1:</p> <ul style="list-style-type: none"> Development at this site should maintain the parkland setting of the campus and preserve the integrity of the original design. This will include ensuring the heights of new buildings are appropriate to their surroundings and do not exceed the height of any high mature tree canopies, unless heritage impacts can be appropriately managed justifying a greater height. Maintenance and where required expansion of an adequate internal cycle and pedestrian network which links to entrance points and bus stops General car parking (excluding accessible parking spaces) does not exceed 1,520 spaces 	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.</p> <p>Modifications reduce duplication with the overarching Policy ED1 as modified.</p> <p>Modifications delete the 23% built footprint restriction and better articulate the importance and relevance of the parkland setting and landscape requirements.</p>
MM7.5 Policy ED2 explanation – paragraphs 7.4, 7.4b and 7.5	<p>7.4 Campus West is shown overleaf at Figure 7.1. To ensure that university buildings on Campus West meet the requirements of a modern higher education institution, the replacement of buildings that are no longer fit for purpose and life expired will be supported. Proposals for extension or redevelopment should be in accordance with the provisions of the emerging University of York Development Brief, the principles of which are set out in Policy ED2 above. For information on the uses permitted at Campus West please see Policy ED1. The starting point for proposals should be to gain an understanding of the significance of the campus as a designed heritage asset (landscape and buildings) to determine whether further development is possible and where this is best located. The landscape and buildings were composed as a unified whole. It is important that development at Campus West:</p> <ul style="list-style-type: none"> Maintains the spatial relationship between open green and blue space and developed land (buildings, carparking and other hardstanding) across the campus. 	<p>Changes reflect the amended policy wording (MM7.4). More detailed explanatory text is included in light of the protected historic assets accommodated on Campus West, justifying and explaining the policy approach.</p>

Section 7: Education

Modification Reference

Proposed Modification

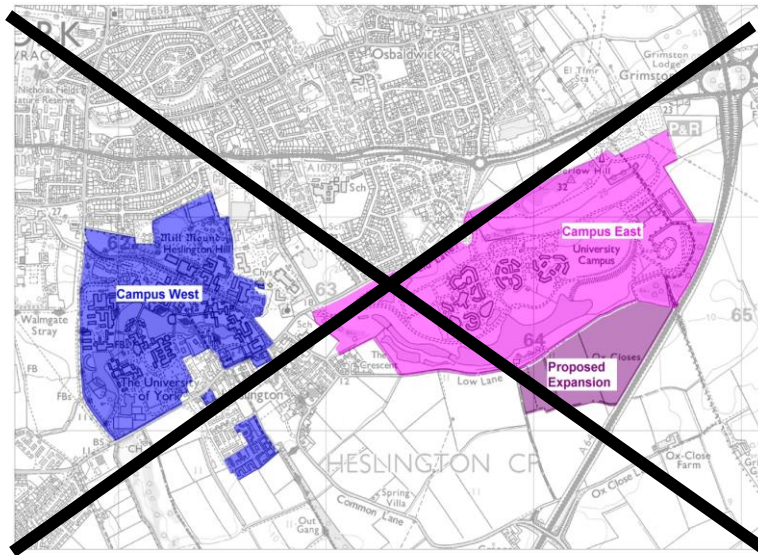

Reason for change

- Limits the height of new buildings, including extensions to existing buildings, and should not in most cases break or intrude above the existing skyline of high canopy trees
 - Respects the composition of the designed landscape, which as a Registered Park and Garden should be conserved and enhanced.
- 7.4b Car parking is restricted at this site, which is well served by buses. Car travel should be minimised with a focus on walking and cycling both to and across the campus and priority should be given to sustainable modes of travel.
- 7.5 In accordance with the Section 106 legal agreement for Campus East, the level of student housing capacity at Campus West must be retained at least at the level at 2006, at the date of the agreement. This was established at 3,586 bedspaces.

Substantial harm or total loss of a Scheduled Monument or other nationally important remains will be permitted only where it can be demonstrated that the substantial harm or loss is necessary to achieve substantial public benefits that outweigh that harm or loss; the significances of the site or its setting;</u></p> <p>...</p> <p>iv. <u>the impact of the proposal is acceptable in principle and harm to archaeological deposits is unavoidable,</u> detailed mitigation measures have been agreed with City of York Council that include, where appropriate, provision for deposit monitoring, investigation, recording, analysis, publication, archive deposition and community involvement.</p>	<p>To ensure consistency with the NPPF and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012</p>

Section 8: Placemaking, Heritage, Design and Culture

Modification Reference	Proposed Modification	Reason for change
<p>MM8.10 Policy D6 Explanation</p>	<p>8.31 ...Within the historic core, substantial harm is defined as greater than 5% disturbance to the most significant buried archaeological deposits through foundation design and infrastructure development as described in the York Development and Archaeology Study (1990). Within the historic core, substantial harm to nationally-important remains will be permitted only where it meets this target and up to 95% of the most important deposits remain preserved in-situ or where it can be demonstrated that the proposal would bring substantial public benefits considered to outweigh the archaeological harm caused. This policy approach has been adopted to ensure both the continued economic vitality of the city centre and the preservation in-situ of these highly significant deposits. In all other parts of the City of York, substantial harm to or loss of designated or undesignated features or deposits of national importance will be permitted only where this is outweighed by the public benefits of the proposal.</p> <p>8.31a Harm to archaeological features and deposits of less than national importance will be considered against the benefits of the proposal and the significance of the archaeology.</p> <p>8.31b Should a proposal include an area which has already been subject to piling and/or has been partially excavated every option to preserve the remaining archaeological resources in-situ should be explored. This should include the consideration of re-use of existing foundations where possible, including piles.</p> <p>...</p> <p>8.34a When considering the impact of a proposed development on the significance of a designated heritage asset, great weight should be given to the asset's conservation. The more important the asset, the greater the weight should be. Significance can be harmed or lost through alteration or destruction of the heritage asset or development within its setting. As heritage assets are irreplaceable, any harm or loss should require clear and convincing justification. Substantial harm to or loss of a grade II listed building, park or garden should be exceptional. Substantial harm to or loss of designated heritage assets of the highest significance, notably scheduled monuments, protected wreck sites, battlefields, grade I and II* listed buildings, grade I and II* registered parks and gardens, and World Heritage Sites, should be wholly exceptional.</p>	<p>To ensure consistency with the NPPF and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012</p>

<p>MM8.11 Policy D7: The Significance of Non-Designated heritage Assets</p>	<p>Policy D7: The Significance of Non-Designated Heritage Assets</p> <p>Development proposals affected a non-designated heritage asset or its setting will be encouraged and supported where they conserve those elements which contribute to its significance, are designed to sustain and enhance the significance of York's historic environment, including non-designated heritage assets.</p> <p>...</p> <p>Prior to the demolition, alteration, extension or restoration of heritage assets (both designated and on-designated) appropriate building recording relevant to the asset's significance and the scope of works will be undertaken.</p>	<p>To ensure consistency with the NPPF and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012</p>
<p>MM8.12 Policy D7 Explanation – paragraphs 8.35 to 8.37</p>	<p>8.35 The National Planning Policy Framework (2012) encourages Local Authorities to consider the significance of non-designated all heritage assets. The concept of describing and appraising the significance of listed buildings, conservation areas and other 'designated assets' is longstanding in legislation and guidance, and is to be protected through the application of other policies in this section. There are a number of processes through which non-designated heritage assets may be identified, including the local and neighbourhood plan-making processes, conservation area appraisals and reviews and as part of the decision-making process on planning applications. In advance of the adoption of a Local List, applicants should consult relevant evidence alongside This the policy's however provides clear local criteria, to identify non-designated heritage assets. The policy criteria help guide development decisions, enabling applicants and decision makers to better understand what is meant by 'significance' in relation to local non-designated heritage assets and their settings. Any development proposals that relate to non-designated heritage assets and their settings must be accompanied by an assessment of their significance in line with the criteria in Policy D7.</p> <p>8.36 Where a development will comprise works to a designated or non-designated heritage asset then building recording will may be required. Building recording may comprise detailed archaeological survey or a photographic record, depending upon the</p>

<p>MM8.15 Policy D10: York City Walls and St Marys Abbey Walls (York Walls)</p>	<p>Development proposals within the areas of York Walls designated as Scheduled Ancient Monuments will be supported where they are for the specific purpose of enhancing physical and intellectual access to York Walls.</p> <p><u>Harm to the significance of York Walls will be permitted only where this is demonstrably outweighed by the public benefits of the proposal.</u></p> <p>Development proposals adjacent to or likely to affect the setting of the City Walls designated as Scheduled Monuments will only be permitted where:</p> <ul style="list-style-type: none"> i. they are accompanied by a Heritage Statement that clearly assesses the impact which the proposals are likely to have upon the elements <u>which contribute to their significance and principle characteristics which contribute to their significance</u> and the six principle characteristics of the City as identified in the Heritage Topic Paper; ii. they are <u>designed to preserve the special character of the city walls be no higher than the city walls externally</u> and not reduce their dominance; iii. they do not cause harm to those elements which contribute to the significance, <u>including the setting, or the setting</u> of York Walls; and iv. they are of the highest design quality which, where possible, enhances or better reveals the significance of York Walls; and, v. <u>any harm to the significance of the setting is demonstrably outweighed by the public benefits of the proposal.</u> 	<p>To ensure consistency with the NPPF and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012</p>
<p>MM8.16 Policy D13: Advertisements</p>	<p>...</p> <p>In addition, within conservation areas and on buildings identified as heritage assets, illumination will only be supported where the fittings, wiring and level of illumination <u>are is</u> designed to preserve or enhance the historic character and appearance of the building, area and the premises trade as part of the evening economy.</p>	<p>To enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012</p>

8. SECTION 9: GREEN INFRASTRUCTURE

Section 9: Green Infrastructure		
Modification Reference	Proposed Modification	Reason for change
MM9.1 Policy G11 Green Infrastructure	<p>...</p> <p>i. the delivery of the aspirations of partner strategy documents and action plans, including the Leeds City Region Green Infrastructure Strategy (2019) any other current regional strategies, any other plans formally approved in the future by the Council as part of the Green Infrastructure Strategy;</p> <p>...</p> <p>Where appropriate, development proposals will be expected to demonstrate that they are consistent with the above objectives and meet other specific policies below on green infrastructure considerations have been taken into account, in line with the criteria above.</p>	To update with latest evidence and provide clarity for decision making purposes in line with paragraph 154 of NPPF 2012.
MM9.2 Policy G12: Biodiversity and Access to Nature	<p>i. assess potential effects on International Sites in accordance with the statutory protection which is afforded to the site. Proposals will be determined in accordance with statute</p> <p>ii. demonstrate that proposals will not have an adverse effect on a National Site (alone or in combination). Where adverse impacts occur, development will not normally be permitted, except where the benefits of development in that location clearly outweigh both the impact on the site and any broader impacts on the wider network of National Sites.</p> <p>iii. demonstrate that where loss or harm to a National site cannot be prevented or adequately mitigated, as a last resort, provide compensation for the loss/harm. Development will be refused if loss or significant harm cannot be prevented, adequately mitigated against or compensated for.</p> <p>iv. avoid loss or significant harm to Sites of Importance for Nature Conservation (SINCs) and Local Nature Reserves (LNRs), whether directly or indirectly. Where it can be demonstrated that there is a need for the development in that location and the benefit outweighs the loss or harm the impacts must be adequately mitigated against, or compensated for as a last resort;</p>	Ensures appropriate distinctions are made between different levels in a hierarchy of nature sites in accordance with paragraph 113 of the NPPF (2012). Consistent with Natural England's July 2019 response to the Regulation 19 consultation.

Section 9: Green Infrastructure

Modification Reference	Proposed Modification	Reason for change
<p>MM9.3 Policy GI2: Biodiversity and Access to Nature</p>	<p>v. Retain irreplaceable habitats, including ancient woodland and veteran trees. Development resulting in the loss, deterioration and/or fragmentation of irreplaceable habitats will not be supported unless there are wholly exceptional reasons and a suitable compensation plan exists.</p> <p>viii. result in net gain to, and help to improve, biodiversity; achieve net gain in biodiversity in accordance with The Environment Act 2021 (when enforced) and national policy, contributing to the recovery of priority species and habitats and new habitat creation;</p>	<p>New criterion to reference ancient woodland and veteran trees, bringing into the Development Plan the NPPF requirement.</p>
<p>MM9.4 Policy GI2 explanation – paragraph 9.5</p>	<p>The extent of that buffer could vary depending on the site, the type and value of the habitat present and the proposed change. In addition, whilst recognising the benefits to people provided from access to nature, where appropriate developments will be required to fully assess and mitigate for the impact of recreational disturbance on SSSIs, SACs and SPAs</p>	<p>To provide additional clarity and acknowledge the circumstances where a need to consider recreational disturbance is required.</p>
<p>MM9.5 Policy GI2 explanation – paragraph 9.6</p>	<p>Bio-diversity mitigation and enhancement should be provided on site. Only in very exceptional circumstances, where the proposed development clearly outweighs the nature conservation value of the site and the impact on biodiversity is unavoidable, appropriate mitigation or compensation will be required. This should be achieved through planning conditions and obligations. Biodiversity offsets are measurable conservation outcomes resulting from actions designed to compensate for residual adverse impacts arising from a development after mitigation measures have been taken. The goal of biodiversity offsets is to achieve no net loss and preferably a net gain of biodiversity.</p> <p>The Environment Act sets out a mandatory requirement for development to deliver at least a 10% biodiversity net gain. The provisions of the Act are subject to secondary legislation and development will need to comply with the regulations once it comes into force (expected November 2023).</p> <p>Net gains in biodiversity can be delivered by almost all development, by following the principles of the mitigation hierarchy and understanding the ecological constraints and opportunities from the early stages of design.</p> <p>Net gain should deliver genuine additional improvements for biodiversity by creating or enhancing habitats in association with development. Improvements should go beyond any required mitigation and/or compensation measures following the application of the mitigation hierarchy</p>	<p>To support the modification to criterion viii.</p>

Section 9: Green Infrastructure

Modification Reference	Proposed Modification	Reason for change
<p>MM9.6 Policy GI2a: Strensall Common Special Area of Conservation (SAC)</p>	<p>GI2a: Strensall Common Special Area of Conservation (SAC)</p> <p>Development not directly connected with or necessary to the management of the SAC will only be permitted where it will not adversely affect the integrity of the Strensall Common SAC, either alone or in combination with other plans or projects. Proposals will be determined in accordance with the following principles:</p> <ul style="list-style-type: none"> a) There is an 'exclusion zone' set at 400m linear distance from the SAC boundary. Permission will not be granted for development that results in a net increase in residential units within this zone. Proposals for non-residential development within this zone must undertake Habitats Regulation Assessment to demonstrate that they will not harm the integrity of the SAC. b) There is a 'zone of influence' between 400m and 5.5km linear distance from the SAC boundary. <ul style="list-style-type: none"> i. Where new residential development is proposed within the zone of influence on allocated housing sites SS9/ST7, SS10/ST8, SS11/ST9 and SS12/ST14, provision of open space must include or secure access to areas of suitable natural greenspace secured by way of mitigation prior to any occupation of new dwellings and secured in perpetuity. ii. Proposals for other housing development which are not within plan allocations will not be permitted unless it can be demonstrated that they will have no adverse effects on the integrity of the SAC, either alone or in combination with other plans or projects. Any necessary mitigation measures may be sought through planning contributions and must be secured prior to the occupation of any new dwellings and secured in perpetuity. Open space provision must also satisfy policy GI6. <p>Explanation</p> <p>9.8a Strensall Common is designated as a Special Area for Conservation (SAC) and Site of Special Scientific Interest (SSSI). It also has biodiversity value above its listed features in the SSSI/SAC designations that will need to be fully considered.</p>	<p>To ensure adverse effects as a result of development are avoided and mitigated in accordance with the findings of the HRA (2020).</p>

Section 9: Green Infrastructure

Modification
Reference

Proposed Modification

Reason for change

9.8b At over 570ha, it supports one of the largest areas of lowland heath in northern England. Extensive areas of both wet and dry heath occur and form a complex habitat mosaic with grassland, woodlands/scrub and ponds. Grazing, by sheep and cattle is the key management tool with stock typically present during summer and autumn. The heathland supports a diverse flora and fauna including such characteristic (and vulnerable) species such as nightjar, woodlark, marsh gentian, pillwort, pond mud snail and dark bordered beauty moth, with Strensall Common representing the only site for this species in England.

9.8c Strensall Common is managed by the Yorkshire Wildlife Trust and Ministry of Defence (MOD) who operate an extensive training facility and firing range within and adjacent to the European site.

9.8d The heath is subject to considerable recreational pressure from visitors, especially those with dogs. Although an established network of paths and periodic closures of part of the heath by the MOD (to facilitate training activities) can influence visitor behaviour. However, both the dry and wet heath habitats are particularly vulnerable to trampling, erosion and vandalism such as fire, fly-tipping, pollution and other activities associated with visitor pressure. Although the common is already under intense recreational pressure, there are birds of conservation concern amongst other species and habitats which could be harmed by the intensification of disturbance.

9.8e In 2021, all of Strensall Common SSSI was considered by Natural England to be in favourable condition. However, the corresponding Site Improvement Plan identifies a number of threats including, inter alia, public pressure and air pollution. Natural England's Supplementary Advice (2019) highlights the threat posed to the maintenance of the grazing regime by the worrying and subsequent disturbance of livestock by dogs brought by visitors.

9.8f In addition, the heathland habitat is vulnerable to changes in the hydrological regime and air quality, which will need to be considered and assessed in detail for any proposed development.

Section 9: Green Infrastructure

Modification
Reference

Proposed Modification

Reason for change

9.8g Queen Elizabeth Barracks in Strensall, currently occupied by the Defence Infrastructure Organisation, is largely within the 400m zone identified in the policy. The Defence Infrastructure Organisation plan to vacate Queen Elizabeth Barracks. The site currently includes single living accommodation and transit accommodation rather than conventional housing, but it is acknowledged that part of the site sits beyond the 400m zone where a net increase in residential uses may be acceptable in line with the policy. The Council will work proactively with any future developers of the site to enable development that address the policy and ensures adverse impacts on the SAC are avoided.

9.8h The Habitat Regulation Assessment (2020) has established that adverse effects on the integrity of the common cannot be ruled out without mitigation. The HRA suggests that residential development allocations (in Policy H1) within 5.5km of the common are likely to lead to an increase in recreational pressure which will require mitigation in the form of suitable natural greenspace and such other measures as may be considered necessary to prevent an adverse effect on the integrity of the SAC. Relevant policies/sites include strategic sites SS9(ST7), SS10 (ST8), SS11(ST9), SS12(ST14), SS15(ST17) and Policy H1 (allocation H46). The delivery of appropriate recreational open space on these sites will also need to be considered in line with policy GI6. The HRA also anticipates that unallocated windfall development may come forward, although it is not possible at this stage to predict precisely where it will be proposed. To ensure that it does not cause any adverse effect on the integrity of the SAC, the HRA recommends the following policy controls: (1) no net additional dwellings will be permitted within 400m of the SAC, as it is not considered possible to prevent adverse effects from development in such close proximity to the SA; (2) where windfall development is proposed between 400m and 5.5km from the SAC, permission will not be granted unless it can be demonstrated that the proposals will not have an adverse effect on the integrity of the SAC, both in respect of the proposals themselves and in combination with other development; (3) any necessary measures which avoid or reduce such effects must be provided before first occupation and established in perpetuity. The Council will have to consider whether planning obligations will be required, including financial contributions to secure such measures. Proposals must

Section 9: Green Infrastructure

also comply with Policy GI6 which requires that all residential proposals contribute to the provision of open space, in particular helping to address deficiencies in the area surrounding a proposed development.

Applicable 400m development exclusion zone

MM9.7 Policy GI4: Trees and Hedgerows

Development will be ~~supported~~ **permitted** where it:
 ...
 iv. does not create conflict between existing trees to be retained and new buildings, their uses and occupants, whether the trees or buildings be within or adjacent to the site;
and
 v. supplements the city's tree stock with new tree planting where an integrated landscape scheme is required; **and**.

New criterion for effectiveness, bringing into the policy the approach referenced in paragraph 9.13 to replacement planting in the case of loss, making clear the need for justification.

Section 9: Green Infrastructure

Modification Reference	Proposed Modification	Reason for change
	<p>vi. Provides suitable replacement planting where the loss of trees or hedgerows worthy of retention is justified.</p>	
<p>MM9.8 Policy G15: Protection of Open Space and Playing Fields</p>	<p>Development proposals will not be permitted which would harm the character of, or lead to the loss of, open space of environmental and/or recreational importance unless...</p> <p>...</p> <ul style="list-style-type: none"> meets the deficit of pitches in geographically appropriate and accessible way. This could be rectified through re-designation of any current surplus facilities in the area of benefit. Provide new pitches in a suitable location that meet an identified need 	<p>For consistency with the Plan's glossary definition of Open Space (which reflects the NPPF) and focuses on recreational rather than environmental importance.</p>
<p>MM9.9 Policy G15 explanation – paragraph 9.17</p>	<p>Proposals involving the loss and/or replacement of open space sites/facilities should demonstrate that the population benefitting from the original site or facility will not be underprovided or subject to worsening not increase any identified deficiencies in open space in the area of benefit where the original site is located and consideration should be demonstrated as part of the planning process. Only in exceptional circumstances will the Council support proposals where a replacement facility or site is not delivered in advance of the open space undergoing redevelopment.</p>	<p>To provide clarity on the application of Policy G15.</p>
<p>MM9.10 Policy G16: New Open Space provision</p>	<p>All residential development proposals should contribute to the provision of open space for recreation and amenity in accordance with current local standards and using the Council's up to date open space assessment. The successful integration of open space into a proposed development should be considered early in the design process. The precise type of on-site provision required will depend on the size and location of the proposal and the existing open space provision in the area. Where there are deficiencies in certain types of open space provision in the area surrounding a proposed development, the Council will seek variations in the component elements to be provided by the developer in order to help to overcome them. Requirements will be calculated using the Council's up to date open space assessment and will be in line with the Council's Green Infrastructure Strategy.</p>	<p>To clarify the application of local open space standards with reference to latest evidence. Deletion of superfluous text.</p>
<p>MM9.11 Policy G16: New Open Space provision</p>	<p>The Council will encourage require on-site provision where possible but off-site provision will be considered acceptable in the following circumstances:</p>	<p>To make explicit the preference for on-site provision.</p>

Section 9: Green Infrastructure

Modification Reference	Proposed Modification	Reason for change
	<p>i. if the proposed development site would be is of insufficient size in itself to make the appropriate provision (in accordance with the Council's standards) feasible within the site; or</p> <p>ii. in exceptional circumstances, if taking into account a site's characteristics including but not limited to the accessibility/capacity of existing open space sites/facilities and the circumstances of the surrounding area the open space needs in the context of a up-to-date Playing Pitch and Built Sports Facility Strategy, it can be is demonstrated that of the proposed residential development provision can be met more appropriately by providing either new or enhanced provision off-site; and,</p> <p>iii. On allocated strategic sites, it may be appropriate for where through strategic green infrastructure masterplanning agreements that provide for green infrastructure approaches which to make accessible provision beyond the allocated site boundaries. Open space standards as set out in the most up to date open space evidence base document should still be used as a guide to overall provision.</p>	<p>Modifications to criterion ii and iii to enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.</p>
<p>MM9.12 Policy GI6: New Open Space provision</p>	<p>New open space is identified on the proposals Policies Map at:</p> <p>Indicative new significant areas of open space have been identified in connection with the following strategic sites, as shown on the proposals Policies Map:</p> <p>...</p> <ul style="list-style-type: none"> OS12: Land to the East of ST35 <p>The precise delineation and extent of the new open space will be set through detailed masterplanning and the planning process. The areas indicated on the proposals map are a guide to general extent based on current understanding of site and other conditions.</p>	<p>To correct policy map references.</p> <p>Deletion of open space associated with allocation ST35, which is removed following the Habitat Regulations Assessment (Feb 2019), which cannot rule out adverse effects on the integrity of Strensall Common Special Area of Conservation (SAC)</p>

9. SECTION 10: MANAGING DEVELOPMENT IN THE GREEN BELT

Section 10: Managing Development in the Green Belt		
Modification Reference	Proposed Modification	Reason for change
MM10.1 Policy GB1: Development in the Green Belt	<p>New policy text, wholly replacing submission policy</p> <p><u>Inappropriate development will not be approved except in very special circumstances. Very special circumstances will not exist unless the potential harm to the Green Belt by reason of inappropriateness, and any other harm, is clearly outweighed by other considerations.</u></p> <p><u>The construction of new buildings is inappropriate development. Exceptions to this are:</u></p> <p><u>a) buildings for agriculture and forestry;</u></p> <p><u>b) the provision of appropriate facilities (in connection with the existing use of land or a change of use) for outdoor sport, outdoor recreation, cemeteries and burial grounds and allotments; as long as the facilities preserve the openness of the Green Belt and do not conflict with the purposes of including land within it;</u></p> <p><u>c) the extension or alteration of a building provided that it does not result in disproportionate additions over and above the size of the original building;</u></p> <p><u>d) the replacement of a building, provided the new building is in the same use and not materially larger than the one it replaces;</u></p> <p><u>e) limited infilling in villages;</u></p> <p><u>f) limited affordable housing for local community needs under policy GB2; and</u></p> <p><u>g) limited infilling or the partial or complete redevelopment of previously developed land, whether redundant or in continuing use (excluding temporary buildings), which would:</u> <u>– not have a greater impact on the openness of the Green Belt than the existing development; or</u></p>	To ensure consistency with Green Belt policy contained within the NPPF.

Section 10: Managing Development in the Green Belt

Modification Reference

Proposed Modification

Reason for change

	<p><u>– not cause substantial harm to the openness of the Green Belt, where the development would re-use previously developed land and contribute to meeting an identified affordable housing need within the Council area.</u></p> <p><u>The following forms of development are also not inappropriate in the Green Belt provided they preserve its openness and do not conflict with the purposes of including land within it:</u></p> <p><u>a) mineral extraction;</u></p> <p><u>b) engineering operations;</u></p> <p><u>c) local transport infrastructure which can demonstrate a requirement for a Green Belt location;</u></p> <p><u>d) the re-use of buildings provided that the buildings are of permanent and substantial construction;</u></p> <p><u>e) material changes in the use of land (such as changes of use for outdoor sport or recreation, or for cemeteries and burial grounds); and</u></p> <p><u>f) development, including buildings, brought forward under a Community Right to Build Order or Neighbourhood Development Order.</u></p> <p><u>Proposals for development that is not inappropriate development will be subject to other policies in this Plan.</u></p>	
<p>MM10.2 Policy GB1 Explanation – paragraph 10.8</p>	<p>The open countryside around York includes a significant number of buildings outside existing settlements. The extension or alteration of these buildings will be <u>considered acceptable, in response to changing circumstances, provided there would be no greater visual impact on the Green Belt or open countryside as a result of the alterations, and where the design of any extension is in keeping with the original buildings. Furthermore, treated as appropriate development provided that this does not result in disproportionate additions over and above the size of the original building.</u> When permission for this type of</p>	<p>To provide clarity.</p>

Section 10: Managing Development in the Green Belt

Modification Reference	Proposed Modification	Reason for change
	development is granted, having regard to other policies in the Plan, the applicant will be expected to agree to conditions ensuring that no further extensions will be permitted to the same building.	
MM10.3 Policy GB1 Explanation – new paragraph	10.17 Whilst infilling (defined as the filling of a small gap in an otherwise built up frontage) is often perceived as acceptable in some locations, this ignores the fact that part of the character of many settlements is made up of gardens, paddocks and other breaks between buildings. It is important to protect those infill spaces, which contribute to the character of smaller settlements lying within the Green Belt. Infill development may also not be desirable if it would consolidate groups of houses, which are isolated from the main body of a village, or consolidate a ribbon of development extending into the open countryside. Infilling is location dependent, therefore in some settlements little or no infill development may be appropriate; in others a limited amount of infill on selected sites may be acceptable.	To support the modifications at MM10.1.
MM10.4 Policy GB2: Development in Settlements within the Green Belt	Policy and explanation text deleted	Deleted to avoid repetition of detail provided in policy GB1.
MM10.5 Policy GB3: Reuse of Buildings	Policy and explanation text deleted	To avoid repetition of detail provided in policy GB1.
MM10.6 Policy GB4: 'Exception' Sites for Affordable Housing in the Green Belt	Policy GB4 2: 'Exception' Sites for Affordable Housing in the Green Belt Exception sites seek to address the needs of the local community by accommodating households who are either current residents or have an existing family or employment connection. Supporting evidence for this need will be required with any future planning application.	To provide clarity and to ensure consistency with the NPPF. Additional detail provided to indicate that the policy is intended to provide for limited affordable housing on rural exception sites.

Section 10: Managing Development in the Green Belt

Modification Reference	Proposed Modification	Reason for change
	<p>The development of limited affordable housing on exception sites in the Green Belt is not inappropriate development and will be considered where:</p> <ul style="list-style-type: none"> i. the development contributes to meeting identified local affordable housing need as illustrated by an up to date local housing needs assessment; ii. the affordable housing is retained at an affordable price for future eligible households in perpetuity; iii. the development is within 800m of an existing defined settlement limit or is well related to the existing residential development and amenities located in or adjacent to a clearly identified village or settlement; and ... 	<p>Renumbering of policy to reflect deletion of previous GB2 and GB3.</p> <p>Removal of restriction in iii), as sustainability issues covered by other policies in the Plan.</p>
<p>MM10.7 Policy GB4</p>	<p>10.2319 Housing need will have to be demonstrated and an up-to-date needs survey, related to the local community nearest the location of the proposed development, should be carried out with the City of York Council and the relevant parish council.</p>	<p>To support policy modifications at MM.4.</p>

10. SECTION 11: CLIMATE CHANGE

Section 11: Climate Change		
Modification Reference	Proposed Modification	Reason for change
MM11.1 Policy CC1: Renewable and Low Carbon Energy Generation Storage	New buildings must achieve a reasonable reduction in carbon emissions of at least 28% unless it can be demonstrated that this is not viable. This should be achieved through the provision of renewable and low carbon technologies in the locality of the development or through energy efficiency measures. Proposals for how this will be achieved and any viability issues should be set out in an energy statement.	To remove requirement for new buildings to achieve carbon emissions reduction through renewables energy generation as matters dealt with in Policy CC2 (as modified)
MM11.2 Policy CC1: Renewable and Low Carbon Energy Generation Storage	<p>Renewable and low carbon energy generation developments will be encouraged and supported in York. We The Council will work with developers to ensure that suitable sites are identified, and projects developed, working with local communities to ensure developments have their support. Developments on brownfield land will be encouraged.</p> <p>All applications will also need to consider the impact the scheme may have on: Proposals for renewable and low carbon energy development, including ancillary development, will be permitted where impacts (direct, indirect, individual and cumulative) on the following considerations are demonstrated to be acceptable</p> <p>...</p> <p>vi. the road network, capacity and highway safety, taking into account the accessibility of the site by road and public transport and also the proximity to the renewable fuel source; and</p> <p>...</p> <p>Applications will also be determined in accordance with any further considerations that apply to specific technologies for renewable energy or low carbon technologies that are set out in national planning policy or practice guidance.</p> <p>Any application for renewable energy would also need to consider the areas of potential and other technical requirements identified in the Council's most up to date Renewable Energy Study</p> <p>Strategic sites will be required to produce energy masterplans to ensure that the most appropriate low carbon, renewable and energy efficient technologies are deployed at each site, taking into account local factors and the specifics of the masterplans.</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.</p> <p>Introduction to criteria enhanced, recognising paragraph 97 of NPPF 2012 and requirement for policies to ensure adverse impacts are addressed satisfactorily, including cumulative landscape and visual impacts.</p> <p>[new text] In recognition that many of the technologies identified in the NPPF glossary definition are subject to specific national policy and/or guidance. The PPG includes particular considerations for hydropower, active solar technology, solar farms and wind turbines (Paragraph: 010 Reference ID: 5-010- 20140306). These considerations are not repeated, but modifications make clear developments will be determined in accordance with national policy and guidance.</p> <p>Reference to the potentially suitable areas for renewable energy identified in the Renewable Energy Study deleted because the explanatory text makes clear that it does not provide a basis for identifying the only appropriate locations for renewable energy developments.</p>

Section 11: Climate Change

Modification Reference	Proposed Modification	Reason for change
	<p>Proposals for renewable and low carbon energy storage developments will be supported and encouraged, subject to demonstrating that impacts on the above considerations are acceptable where relevant. Developments should in particular be sited a suitable distance from major residential areas and have suitable fire suppression procedures.</p>	<p>Strategic site considerations deleted as issues are dealt with in Policy CC2</p> <p>Additional text to make clear storage developments will be assessed against the same assessment criteria.</p>
<p>MM11.3 Policy CC1 explanation – paragraph 11.8 – 11.11</p>	<p>Paragraphs deleted</p>	<p>Text superfluous and does not support the application and implementation of Policy CC1</p>
<p>MM11.4 Policy CC2: Sustainable Design and Construction of New Development</p>	<p>Developments which demonstrate should achieve high standards of sustainable design and construction will be encouraged by demonstrating Development proposals will be required to demonstrate</p> <ul style="list-style-type: none"> • energy and carbon dioxide savings in accordance with the energy hierarchy; • and water efficiency; and • Development proposals will be expected to consider consideration of good practice adaptation principles for climate resilience in their design, construction and operation. <p>Planning applications for development covered by this policy are required to include a Sustainability and Energy Statement to demonstrate how the requirements will be met and how development appropriately follows the energy hierarchy.</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012</p> <p>Additional wording introduces the energy hierarchy within the policy, linking it to the requirement for a sustainability and energy statement.</p>
<p>MM11.5 Policy CC2: Sustainable Design and Construction of New Development</p>	<p>A. Sustainable Design and Construction of New Development Residential Development</p> <p>Proposals will be supported where they meet the following:</p> <p>All new residential buildings development of 1 or more dwellings should achieve:</p> <ol style="list-style-type: none"> i. at least a 19% reduction in Dwelling Emission Rate compared to the Target Emission Rate (calculated using Standard Assessment Procedure methodology as per Part L1A of the Building Regulations 2013) on-site carbon emissions reduction of a minimum of 31% over and above the requirements of Building Regulations Part L (2013), of which at least 19% should come from energy efficiency measures; and, 	<p>To enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.</p> <p>Modifications to carbon emission reductions respond to changes to Building Regulations since submission of the Local Plan and require a fabric first approach in accordance with the principles of the energy hierarchy.</p> <p>A target to achieve a 75% reduction in carbon emissions anticipates the expected introduction of the Future Homes Standard and is consistent with the Council's zero carbon ambition.</p>

Section 11: Climate Change

Modification Reference	Proposed Modification	Reason for change
	<p>ii. a water consumption rate of 110 litres per person per day (calculated as per Part G of the Building Regulations).</p> <p>Pending anticipated changes to Building Regulations, developments should further aim to achieve up to a 75% reduction in carbon emissions over and above the requirements of Building Regulations Part L (2013) unless it is demonstrated that such reductions would not be feasible or viable.</p> <p>Any higher level of reductions required through Building Regulations or other legislation will supersede the above requirements.</p>	
<p>MM11.6 Policy CC2: Sustainable Design and Construction of New Development</p>	<p>B. Non-residential development</p> <p>All new non-residential buildings development with a total internal floor area of 100m2 or greater should achieve:</p> <p>i. a 28% reduction in carbon emissions over and above the requirements of Building Regulations (2013) unless it is demonstrated that such reductions would not be feasible or viable; and,</p> <p>ii. BREEAM 'Excellent' (or equivalent), where feasible and viable and where development proposals are for 1,000m2 or more.</p> <p>Strategic site developments should undertake a BREEAM Communities assessment (or equivalent).</p> <p>All new residential and non-residential developments will be required to submit an energy statement which demonstrates how these requirements will be met. This should include a sustainability checklist, which shows how principles for sustainable design, construction and operation will be achieved.</p>	<p>The 28% reduction originally included in Policy CC1 moved into Policy CC2 as the Future Building Standard does not set a performance improvement threshold akin to the Future Homes Standard.</p> <p>In recognition that it would otherwise be disproportionate to require smaller developments to achieve the BREEAM standard, a 1000m2 threshold is introduced.</p> <p>Strategic site and energy statement requirements relocated within the policy.</p>
<p>MM11.7 Policy CC2: Sustainable Design and Construction of New Development</p>	<p>C. Conversion of Existing Buildings and Change of Use</p> <p>Applications Proposals for conversion of existing residential buildings or change of use to residential use should achieve BREEAM domestic refurbishment 'very good' as a minimum.</p> <p>and Proposals for non-residential conversions or change of use will need to achieve BREEAM Non-Domestic refurbishment and Fit out 'excellent' as a minimum.</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012</p>

Section 11: Climate Change

Modification Reference	Proposed Modification	Reason for change
	<p>If proposals relating to buildings-heritage assets should demonstrate the maximum BREEAM score that can be achieved having balanced issues of significance and value to the historic environment with wider benefits to the economy and to the environment as appropriate. of heritage and conservation value these standards would only be required where they can be achieved in a manner consistent with the appropriate conservation of that asset. The extent to which they can be achieved must be demonstrated by the applicant</p>	
<p>MM11.8 Policy CC2: Sustainable Design and Construction of New Development</p>	<p>D. Strategic Sites Development proposals on strategic sites should undertake a BREEAM Communities Assessment (or equivalent).</p> <p>Consequential Improvement to Existing Dwellings- When applications are made to extend dwellings, proposals will be expected to demonstrate, reasonable and proportionate improvements to the overall energy performance of the dwelling. This will be in addition to the requirements of Part L of the Building Regulations.</p>	<p>Strategic site requirement relocated within the policy.</p> <p>Consequential improvements deleted as it is unclear how a decision maker would assess compliance with this part of the policy and would be a disproportionate burden on applicants.</p>
<p>MM11.9 Policy CC2 explanation – paragraph 11.15</p>	<p>Paragraph deleted</p>	<p>Text superfluous and out of date.</p>
<p>MM11.10 Policy CC2 Explanation</p>	<p>11.12 Policy CC2 aims to ensure that all new developments achieve high standards of sustainable design and construction, by minimising greenhouse gas emissions, using resources efficiently, enhancing climate change resilience and promoting health and wellbeing. A sustainability statement will be required for all new residential and non-residential applications.</p> <p>11.12a The Council will assess compliance with this policy based on the Sustainability and Energy Statement and/or the BREEAM report. BREEAM is used widely in local planning policy in the UK to demonstrate high standards of sustainable design and construction. Proposals affecting heritage assets will also need to draw together relevant evidence on significance and associated impacts in a manner that is proportionate to the scale of the proposal.</p> <p>11.12b The Sustainability and Energy Statement should be completed by a suitably qualified individual and demonstrate how the emissions reduction will be achieved in line with the widely recognised energy hierarchy to:</p>	<p>New explanatory text to support the application and interpretation of the policy modifications.</p>

Section 11: Climate Change

Modification Reference	Proposed Modification	Reason for change
	<ul style="list-style-type: none"> • <u>Be Lean: use less energy</u> • <u>Be Clean: supply energy efficiently</u> • <u>Be Green: use low and zero carbon technologies</u> • <u>Be Seen: providing monitoring data to measure effectiveness</u> 	
<p>MM11.11 Policy CC2 Explanation</p>	<p><u>11.13a Latest Building Regulations (June, 2022) requires a 31% reduction in carbon emissions from residential buildings. There is flexibility on how the emissions reduction is achieved (whether through fabric improvements or renewables). To ensure that each individual dwelling meets a minimum performance threshold and follows the energy hierarchy, a minimum 19% emissions reduction through energy efficiency measures has been applied.</u></p> <p><u>11.13b Further changes to energy efficiency standards for new homes with a new 'Future Homes Standard' are expected to be introduced by 2024. These will ensure new homes built from 2025 will produce 75-80% lower carbon emissions than homes delivered under current regulations. Policy CC2 therefore requires developers to design homes to meet this level of efficiency in advance of anticipated legislative changes. The Future Homes Standard is also expected to put much greater emphasis on 'fabric first' improvements and the Council aligns the policy to this.</u></p> <p><u>11.13c Any proposed reduction of at least 28% in carbon emissions in non-residential buildings can be achieved through either enhanced energy efficiency measures, use of renewable and low carbon sources, or a mix of both where appropriate</u></p> <p>Paragraphs 11.14 to 11.15 deleted</p>	<p>New explanatory text to support the application and interpretation of the policy modifications.</p> <p>Superfluous and out of date text deleted.</p>
<p>MM11.12 Policy CC2 explanation – paragraph 11.18 – 11.23</p>	<p>Paragraphs deleted</p>	<p>Superfluous and out of date text deleted. BREEAM included in new paragraph 11.12a</p>

Section 11: Climate Change

Modification Reference

Proposed Modification

Reason for change

MM11.13 Policy CC3: District Heating and Combined Heat and Power Networks

- ~~District Heating and Combined Heat and Power Decentralised Energy Networks~~**
- A. The Council strongly supports the development of decentralised energy, including both combined cooling, heating and power (CCHP) and combined heating and power (CHP) distribution networks **where the power source of such a network is non-fossil fuel based.**
 - B. **All major developments are required to assess the feasibility and viability of connecting to an existing decentralised energy network, or, where this is not possible, identified future network opportunities. Where neither option is feasible or viable, developments should evaluate the feasibility and viability of developing a site-wide network. Developments will be required to adopt a solution according to this order unless it is demonstrated that they would be neither feasible nor viable. This evidence should be included in the Sustainability and Energy Statement. Proposals for development within heat priority areas and all New Strategic Sites must demonstrate, that heating and cooling technologies have been selected in accordance with the following heating and cooling hierarchy, unless it can be clearly demonstrated that such requirements are not viable and/ or that an alternative approach would be more sustainable:-**
 - i. **connection to existing (C)CHP distribution networks;**
 - ii. **site wide renewable distribution networks including renewable (C)CHP;**
 - iii. **site wide gas-fired (C)CHP distribution networks;**
 - iv. **renewable communal heating/ cooling networks;**
 - v. **gas-fired communal heating/ cooling networks;**
 - vi. **individual dwelling renewable heating; and**
 - vii. **individual dwelling heating, with the exception of electric heating.**
 - C. All (C)CHP systems are required to be scaled and operated in order to maximise the potential for carbon reduction. **Developments that do not connect to or implement (C)CHP or communal heating networks should be 'connection-ready'.**
 - D. **Energy statements must be provided to demonstrate and quantify how development will comply with the energy requirements of this policy. Sustainability and energy statements should set out a level of detail proportionate to the scale of development. The Council will work proactively with applicants on major developments to ensure these requirements can be met.**

For consistency with the Council's net zero aspiration the modification recognises that combined cooling, heating and power (CCHP) and combined heating and power (CHP) distribution networks should be supported where the power source is non-fossil fuel based.

Requirement for all major development (not only strategic sites or sites in heat priority areas) to consider feasible options for decentralised energy networks against preferential order of approaches to aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.

The modification recognises the Leeds City Region Strategic Heat Programme Heat Network Opportunity Mapping Report (2014) provides evidence that York has heating demand concentrations capable of supporting decentralised networks, but that this work has not been updated. For clarity and effectiveness references to this work are deleted.

Section 11: Climate Change

Modification Reference	Proposed Modification	Reason for change
<p>MM11.14 Policy CC3 explanation – paragraph 11.28 – 11.34</p>	<p>11.28 The Council will strongly support the use of decentralised energy in new developments, <u>and therefore requires all new major developments to assess the feasibility of connecting to an existing decentralised energy network, or where this is not possible establishing a new network. Applicants should consider the options below, in the order listed, to ensure that energy from an efficient source is used where possible:</u></p> <ol style="list-style-type: none"> <u>Connect immediately: where feasible and viable, development will be required to connect immediately to existing networks that are likely to be operational in the long term, and do not require the network as a whole to increase its fossil fuel consumption (i.e. it should be demonstrated that the network either has spare and wasted capacity, or demonstrate that the energy in the decentralised network is sourced from renewable sources).</u> <u>Connect in immediate future: where networks do not currently exist, developments will be required to assess the feasibility of connecting to identified future decentralised energy network opportunities in the vicinity of the site, having regard to best available evidence such as area specific feasibility studies and any other relevant energy plans. Where shown to be feasible and viable, development proposals must provide on-site infrastructure for connection and agree a timescale for connection where possible;</u> <u>Provide a site wide low carbon network: where connection to an existing or planned network is not feasible, developments should evaluate the feasibility and viability of a site wide network using low carbon energy sources</u> <p><u>and particularly (C)CHP distribution networks, with the aspiration that this will help achieve the targets set in the Climate Change Action Plan for York. The Council will work with developers during pre-application discussions, in order to facilitate the development of district heating networks and buildings that are ‘connection ready’.</u></p> <p>Paragraphs 11.29 – 11.34 (including figure 11.1 and table 11.1) deleted</p>	<p>New explanatory text to support the application and interpretation of the policy modifications.</p> <p>Superfluous and out of date text deleted.</p>

11.SECTION 12: ENVIRONMENT QUALITY AND FLOOD RISK

Section 12: Environment Quality and flood risk		
Modification Reference	Proposed Modification	Reason for change
MM12.1 Policy ENV1: Air Quality	<p>New policy text, wholly replacing submission policy</p> <p><u>Development will only be permitted if the impact on air quality is acceptable, including the provision of mechanisms which appropriately mitigate adverse impacts and further exposure to poor air quality</u></p> <p><u>All applications which are:</u></p> <ul style="list-style-type: none"> <u>* major planning applications; or</u> <u>* within Air Quality Management Areas (AQMA's); or</u> <u>* with potential to generate significant air quality impacts; or</u> <u>* include air quality sensitive uses (including schools, hospitals, care homes)</u> <p><u>must submit a detailed Air Quality Assessment. This should quantitatively identify emissions arising from the proposal, air quality impacts and exposure to pollution as a result of the proposal and demonstrate how these will be minimised and mitigated against as part of the development.</u></p> <p><u>Where an Air Quality Assessment identifies there is potential for new occupants to be exposed to unacceptable levels of air pollutants, an exposure mitigation strategy will be required.</u></p>	To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.
MM12.2 Policy ENV1 Explanation	<p>12.6 In order to reduce emissions to air and improve air quality the impact of development on air quality must be acceptable. The significance of the air quality impacts will depend on the context of the development. Air quality is likely to be a high priority consideration where the development leads to a breach, or significant worsening of a breach of an air quality objective, in an AQMA for example, or indeed where the development introduces new exposure into an exceedance area. <u>Mechanisms must be put in place to prevent (or reduce as far as practically possible) further human exposure to</u></p>	

Section 12: Environment Quality and flood risk

Modification Reference	Proposed Modification	Reason for change
	<p>poor air quality. This is applicable to both new developments and on existing sites that can be affected by new development. Development which includes 'relevant' locations in areas where air quality is known to be above or approaching air quality objective values must seek to reduce exposure according to the design mitigation hierarchy set out at Figure 12.2 below. Relevant locations can be defined as outdoor, non-occupational locations (e.g. schools, care homes, hospitals and residential properties) where members of the public are likely to be regularly exposed to pollutants over the averaging time of the air quality objectives.</p> <p>12.7 Applicants must use 'best endeavours' to minimise total emissions from their sites, during both construction and operational phases, including minimising transport to and from them. This will may include measures requirements to minimise private car use prioritising walking and cycling promote and incentivise and provision of infrastructure to support the use of low emission vehicles and fuels. Consideration should also be given to the exposure mitigation hierarchy (see figure 12.2) in the design of the development to help minimise exposure to poor air quality. and in some cases the provision of, or financial contribution towards the cost of low emission vehicles and associated infrastructure. Developer contributions to fund appropriate mitigation may be required. Examples include the provision of on-site electric vehicle recharging infrastructure and/or financial support for the provision low emission public transport services such as public transport and waste collection. The actual measures required will be site specific depending on the scale and location of the development and the connecting transport routes. A Low Emission Supplementary Planning Document (SPD) will be prepared which will set out how the Council will consider and how applicants should approach, planning applications that could have an impact on air quality. Minor planning applications are those proposals for 9 or less dwellings/up to 1,000sqm commercial floorspace and major planning applications are these proposals for 10 or more dwellings/over 1,000sqm commercial floorspace).</p> <p>...</p>

Reason for change

12.8 A ~~detailed emissions assessment and/or a full detailed~~ Air Quality Impact Assessment ~~are likely to~~ **will** be required for ~~major~~ planning applications that **have potential to generate significant air quality impacts or include air quality sensitive uses such as:**

- ~~generate or increase traffic congestion;~~
- give rise to significant change in traffic volumes i.e. +/- 5% change in annual average daily traffic (AADT) or peak hour flows within AQMAs or +/- 10% outside AQMAs;
- give rise to significant change in vehicle speeds i.e. more than +/- 10 kilometres per hour on a road with more than 10,000 AADT (or 5,000 AADT where it is narrow and congested);
- significantly alter the traffic composition on local roads, for example, increase the number of heavy duty vehicles by 200 movements or more per day;
- include significant new car parking, which may be taken to be more than 100 spaces outside an AQMA or 50 spaces inside an AQMA. This also includes proposals for new coach or lorry parks;
- introduce new exposure close to existing sources of air pollutants, including road traffic, industrial operations, agricultural operations;
- include biomass boilers or biomass fuelled Combined Heat and Power (CHP) plant (considerations should also be given to the impacts of centralised boilers or CHP plant burning other fuels within or close to an AQMA);
- could give rise to potentially significant impacts during construction for nearby sensitive locations (e.g. ~~hospitals, schools, care homes,~~ residential areas, areas with parked cars and commercial operations that may be sensitive to dust);
- will result in large, long-term construction sites that would generate large HGV flows (>200 movements per day) over a period of a year or more; and/or
- requires an Environmental Impact Assessment.

~~12.9 Clear guidance in the form of a comprehensive schedule of the development triggers for what level of air quality assessment will be set out in the forthcoming Low Emission SPD, to ensure a clear and consistent approach. Information will also be provided on recommended low emission vehicle technologies and fuels that should be~~

	<p>implemented to mitigate emissions. Mitigation measures are likely to include priority and parking incentives for low emission vehicles, the provision of electric charging points in new developments and car free developments. The potential of using developer contributions to fund low emission infrastructure and mitigate against emissions will also be explored.</p> <p>12.9a The Council will produce further guidance as necessary and will review the significance of the air quality impacts in line with local and national guidance.</p>	
<p>MM12.3 Policy ENV2: Managing Environmental Quality</p>	<p>Development will not be permitted where it does not unacceptably harm the amenities of existing and future occupants on the site occupiers and existing in neighbouring communities would be subject to significant adverse environmental impacts such as noise, vibration, odour, fumes/emissions, dust and light pollution without effective mitigation measures. Development proposals that are likely to give rise to the following environmental impacts Evidence must be submitted to demonstrate that environmental quality is to the satisfaction of the Council. how these matters have been considered in relation to both the construction and life of the development:</p> <ul style="list-style-type: none"> • Increase in artificial light or glare; • Adverse noise and vibration; and • Adverse impact upon air quality from odour, fumes, smoke, dust and other sources; <p>Development proposals for uses that are likely to have an environmental impact on the amenity of the surrounding area, including residential amenity, open countryside, local character and distinctiveness, and public spaces, must be accompanied by evidence that the impacts have been evaluated and the proposal will not result in loss of character, amenity or damage to human health, to either existing or new communities. This includes assessing the construction and operation phases of development.</p> <p>Where proposals are acceptable in principle, planning permission may be granted subject to conditions.</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.</p>

Section 12: Environment Quality and flood risk

Modification Reference	Proposed Modification	Reason for change
	<p>For proposals which involve development with common party walls a verification report must be submitted to confirm the agreed mitigation works have been carried out.</p>	
<p>MM12.4 Policy ENV3: Land Contamination</p>	<p>Where there is evidence that a site may be affected by contamination or the proposed use would be particularly vulnerable to the presence of contamination (e.g. housing with gardens), planning applications must be accompanied by an appropriate contamination risk assessment.</p> <p>Development of a site known to be or which has the potential to be affected by contamination will be permitted identified as being at risk will not be permitted where a contamination assessment does not fully assess the possible contamination risks, and / or where the proposed remedial measures will not deal effectively with the levels of contamination to ensure there are no significant impacts on human health, property, groundwater or surface water. Where proposals are acceptable in principle, planning permission will be granted subject to conditions.</p> <p>...</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.</p>
<p>MM12.5 Policy ENV4: Flood Risk</p>	<p>...</p> <p>Development proposed in areas of flood risk must be informed by an acceptable site-specific flood risk assessment, following the Sequential Test and, if required, the Exception Test.</p> <p>An assessment of whether the development is likely to be affected by flooding and whether it will increase flood risk locally and elsewhere in the catchment must be undertaken. The assessment of proposed development against its flood risk vulnerability and its compatibility with this vulnerability, as defined in the most up to date Strategic Flood Risk Assessment (SFRA), will determine whether development is appropriate, what detailed policies for the resultant flood zone classification, as stated in the SFRA will apply, and whether a further Exception Test (that makes provision for sites in a zone with a higher probability of flooding to be assessed against wider sustainability benefits, provided that</p>	<p>For consistency with national planning policy and to aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012.</p>

Section 12: Environment Quality and flood risk

Modification
Reference

Proposed Modification

Reason for change

the flood risk posed is controlled and mitigated to an acceptable level) is subsequently required.

Proposals located in areas known to be at risk from any form of flooding must demonstrate that:

- i. there is no direct or cumulative increase in flood risk locally or elsewhere in the catchment arising from the development; and,
- ii. The development will be safe during its lifetime with arrangements for the adoption, maintenance and management of any mitigation measures identified in a management and maintenance plan

Where flood risk is present, development will only be permitted when the local planning authority is satisfied that any flood risk within the catchment will be successfully managed (through a management and maintenance plan for the lifetime of the development) and there are details of proposed necessary mitigation measures.

A site specific flood risk assessment that takes account of future climate change must be submitted with any planning application related to sites:

- i. in Flood Zone 1 larger than 1ha;
- ii. in Flood Zone 1 where development could be affected by flooding from sources other than rivers and the sea;
- iii. in Flood Zones 2 and 3; and
- iv. where development or change of use to a more vulnerable use may be subject to other sources of flooding

A flood risk assessment must be submitted with any planning application where flood risk is an issue, regardless of its location within the flood zones. In addition, a site-specific flood risk assessment that takes account of future climate change must be carried out for all planning applications of 1 hectare or greater in Flood Zone 1 and for all applications in Flood Zones 2, 3a, 3a(i) and 3b.

Section 12: Environment Quality and flood risk

**Modification
Reference**

Proposed Modification

Reason for change

Areas of greater flood risk may be utilised for appropriate green infrastructure spaces
Proposals should adopt a sequential approach to site layout and the potential for green infrastructure to provide natural flood management and mitigation should be incorporated, where appropriate.

12. SECTION 14: TRANSPORT AND COMMUNICATIONS

Section 14: Transport and Communications		
Modification Reference	Proposed Modification	Reason for change
<p>MM14.1 Section 14 Introduction – paragraphs 14.2-14.3</p>	<p>14.2 Transport policies have an important role to play contributing to this and also contributing to wider sustainability, environmental (including heritage) and health objectives. The transport system needs to be balanced in favour of sustainable transport modes, giving people a real choice about how they travel and enabling development in a way which reduces its environmental impact.</p> <p>...</p> <p>14.3a A new Local Transport Strategy is being prepared and, informed by the Local Plan, it will set out the Council's approach to maximising sustainable transport use in York. It will inform a new Local Transport Plan which will be developed using the emerging Department for Transport guidance and will be submitted to government. This will set out York's transport priorities and act as a bidding document to government for further Transport Funding.</p> <p>14.3b The Local Transport Strategy will be supported by a number of implementation documents which will set out detailed plans for individual modes of transport or aspects of the transport system. One of the implementation documents will be York's Local Cycling and Walking Infrastructure Plan which will set out in detail how the York cycle and walk networks will be developed to provide effective walk/ cycle facilities to support the proposed development pattern. A further implementation document will be the Bus Service Improvement Plan, which will set out how the bus service in York will be developed.</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012</p> <p>New statement introduced to support sustainable modes and to reflect preparation of a new York Local Transport Strategy/ Plan.</p>
<p>MM14.2 Policy T1: Sustainable Access</p>	<p>Development will be permitted supported where it minimises the need to travel and provides safe, suitable and attractive access for all transport users to and within it, including those with impaired mobility, such that it maximises the use of more sustainable modes of transport.</p>	<p>To enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012</p> <p>Reference to cycling deleted to reflect much longer cycle distances.</p>

Section 14: Transport and Communications

Modification Reference	Proposed Modification	Reason for change
	<p>This will be achieved by:</p> <ul style="list-style-type: none"> a. ensuring developments that can be reasonably expected to generate significant traffic movements are supported by frequent high quality public transport linking them to York’s City Centre and other key destinations, as appropriate; and b. requiring development proposals to demonstrate <ul style="list-style-type: none"> i. There is safe and appropriate access to the adjacent adopted highway for motor vehicles but also for pedestrians and cyclists. <p>...</p> <p>...For all development, public transport services should be within reasonable safe walking and cycling travel distance of all parts of the development.</p> <p>In applying this policy it is recognised that in some circumstances developments will not be able to achieve these criteria (for example, in heart of foot streets area), so they can, subject to sufficient justification of effective accessibility (including taxis) being submitted by a developer, be relaxed. Also some developments may be of a sufficient size to warrant a higher degree of accessibility than would otherwise be required for its location.</p>	<p>Deleted text moved from Policy T1 to explanatory text.</p>
<p>MM14.3 Policy T1 explanation – paragraph 14.4</p>	<p>... The layout and design of development will need to balance safety, convenience and attractiveness whilst addressing potential conflict between the different modes of transport. In applying this policy it is recognised that, in some circumstances, developments will not be feasible (for example, in the heart of footstreets area), so they can, subject to sufficient justification of effective accessibility, be applied more flexibly.</p>	<p>To provide additional clarity.</p>
<p>MM14.4 Policy T2: Strategic Public Transport Improvements</p>	<p>The Plan will support the delivery of general and specific junction, highway or public transport infrastructure enhancements as set out in the Local Transport Plan 32 2011-2031 (LTP3) and subsequent associated (or complementary) investment programmes. (including updates to the Local Plan Infrastructure Delivery Plan), particularly the Bus Service Improvement programme starting from 2022 and the programme to electrify up to two-thirds of York’s bus network. The Council will enable and where appropriate require development to contribute to:</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012</p> <p>Text updated to refer to Infrastructure Delivery Plan and Bus Service Improvement Plan</p> <p>Original scheme list deleted.</p>

Section 14: Transport and Communications

Modification Reference

Proposed Modification

Reason for change

- Expanded and improved bus services across the City, potentially including elements of Bus Rapid Transit services, to connect Site Allocations ST15 and ST14 to York city centre and adjacent development.
- Expansion and improvements to the Park and Ride network to serve inter-urban bus services and reduce pressure on the strategic road network
- Highways enhancements and traffic restraint measures in the city centre to improve public transport reliability
- Rail and accessibility improvements including improvements to public transport interchange at York Station and development of a new Station at Haxby.

The Council has identified specific projects as part of its Infrastructure Delivery Plan, highlighting timescale for delivery (whether short, medium and longer term) and associated funding and delivery bodies. This will be regularly reviewed and updated over the life of the Plan to support delivery.

In addition, strategic public transport infrastructure, as listed below, and (if requiring land outside of the highway boundary to implement) as identified on the Proposals Policies Map, will be implemented in the short term and medium term timescales shown, and pursued in the long term timescale shown.

Short term (2017-22)

i. The following highway enhancements to improve public transport reliability

- Electrification of 5 of 6 services on the park and ride network
- public transport interchange improvements in York city centre at Rougier Street and Museum Street,
- Leeman Road / Shipton Road Corridor Improvements,
- improve bus routing and waiting facilities adjacent to the memorial gardens in Leeman Road
- citywide improvements to the urban traffic control system — to improve service reliability, and
- a package of physical measures to improve operation of the bus fleet and bus services in York city centre.

Section 14: Transport and Communications

Modification Reference

Proposed Modification

Reason for change

	<p>Medium term (2022-27)</p> <p>ii. Further expansion of the Askham Bar and Poppleton Bar Park & Ride facilities to match rising demand.</p> <p>iii. The following highway enhancements to improve public transport services and reliability</p> <ul style="list-style-type: none"> • a segregated grade-separated bus (and pedestrian /cycle) route across A1237 to improve connectivity with the areas to the north-west of the city, and • a dedicated public transport / cycle route linking the new settlement (ST15) to a suitable access on York's highway network in the urban centre of York (subject to confirmation of developers access proposals to site ST15 so not shown on the proposals policies map). <p>Long term (2027-32)</p> <p>iv. A new railway station at Haxby.</p> <p>v. Traffic restraint measures in the city centre to improve public transport reliability.</p> <p>The Plan will also support (subject to compliance with other policies in the Plan) development proposals that</p> <p>i.</p> <p>vi. improve rail access and connectivity, including but not limited to new railway stations / halts for heavy or light rail services, and capacity improvements and other enhancements (including new technology applications, where appropriate) on rail lines running into or through York; or</p> <p>vii. provide highway enhancements to improve public transport reliability; or</p> <p>viii. facilitate the relocation of the Designer Outlet Park & Ride facility.</p>	
<p>MM14.5 Policy T2 Explanation – paragraphs 14.15 to 14.23</p>	<p>14.15 Preliminary Transport modelling work undertaken using the City of York's strategic transport model predicts forecasts that the volume of traffic on the highway network overall could increase by approximately 15% (an extra 6,500 vehicle trips in each peak) by 2033 the end of the local plan period. The corresponding predicted increase in travel time across the network is approximately 30% and the increase in network delay is approximately 55%. If not mitigated by improvements to non-car modes, this level of traffic</p>	<p>To provide clarity on the implementation and application of Policy T2 to development proposals</p>

Section 14: Transport and Communications

Modification Reference

Proposed Modification

Reason for change

growth could lead to significant delays being experienced on the radial routes into York, the outer ring road (A64 and A1237) and all routes within the outer ring road.

14.16 To help mitigate this, the implementation of strategic public transport infrastructure, in association with service improvements seeks to encourage modal shift away from private motor vehicle use to more use of public transport. This offers enhanced access for all members of the community to jobs, services and leisure opportunities and reduce reliance on private motorised transport for travel and hence minimise the increase in traffic levels arising from new development. This will be enabled through strategic projects led by the Council and where required to mitigate development impacts, through developer contributions associated strategic site allocations as identified in Section 3 of this Plan and from other developments in line with Policy DM1. The broad timescales for the delivery of these schemes shall match the anticipated growth in population and demand for travel in York over the plan period, and development-related opportunities.

14.17 Policy T2 identifies the approach of developing York’s bus network in the short term through interventions through York’s Bus Service Improvement programme, individual schemes with funding committed (such as rebuilding York Station frontage). In the longer term the focus will be on developing a Bus Rapid Transit system on the principal routes in York, including new settlements at Land West of Elvington Lane (ST15) and Land West of Wigginton Road (ST14). the principal strategic schemes that need to be delivered, but many more smaller projects with more local impacts will also be required, either individually or as part of larger projects. The Council will support development proposals which bring about the improvement of existing railway stations and facilities or the provision of new existing railway stations and facilities, or bring about some other improvement which will be beneficial to the operation of the line. More detail is contained in the Infrastructure Delivery Plan. York Railway Station is not included in this list (other than for the public transport interchange improvements at York Station) as it is subject to a shown in the separate specific policy (Policy T3).

Section 14: Transport and Communications

Modification Reference

Proposed Modification

Reason for change

14.18 The development of new and improved public transport services and facilities will still need to satisfy policies throughout the plan in terms of protecting the built and natural environment and replacing amenities that may be otherwise removed by development.

14.19 Askham Bar Park & Ride site currently has 1,100 car parking spaces, but it can be expanded to accommodate a further 150 spaces. The planning permission for the Poppleton Bar Park & Ride site (currently 600 spaces) allows for further expansion up to 1200 spaces. For new (or relocated) Park & Ride sites, location is an important factor in ensuring its effective operation. Sites should, ideally, be

- well signed;
- adjacent to a major radial approach route;
- on the edge of the built up area;
- safe and easy to access;
- outside any congested area to maximise the advantages of bus priority; and
- adjacent to trip attractors (i.e. destinations in their own right) if there is a desire to attract non-Park & Ride passengers, particularly for 'back-trips', to the bus service. Siting trip generators (e.g. residential developments) near to bus stops at which Park & Ride services call could also attract non-Park & Ride passengers.

14.20 Improvements or new major public transport facilities should include sufficient car parking for persons with disabilities, cycle parking and facilities for buses, taxis and where appropriate, coaches. Provision of car parking (other than for people with disabilities) should be determined through a transport assessment and travel plan. New or improved facilities should also incorporate suitable signage and traffic management measures to reduce potential conflicts.

14.21 The Council will support development proposals which bring about the improvement of existing railway stations and facilities or the provision of new existing railway stations and facilities, or bring about some other improvement which will be beneficial to the operation of the line. York Railway Station is not included in this list (other than for the public transport interchange improvements at York Station) as it is subject to a

Section 14: Transport and Communications

Modification Reference

Proposed Modification

Reason for change

	<p>shown in the separate specific policy (Policy T3). At new or improved rail stations the ‘station environment’ must provide safe and convenient movement to and between platforms and include other facilities, such as sheltered waiting and ticketing facilities, public transport information and sensitive lighting and landscaping. Proposals for new or improved rail stations should also have improved access to them by all modes, in accordance with the Council’s Hierarchy of Transport Users as set out in the Local Transport Plan 2011-2031 (LTP3).</p> <p>14.22 The strategic public transport improvements in the longer-term are vital to widen the transport choices available to people who live in, work in or visit York as the larger residential and employment sites come on-stream. Improvements to the rail network will also reduce pressure on the strategic road network.</p> <p>14.23 More detail pertaining to how strategic public transport infrastructure is to be funded and delivered is contained in the Infrastructure Delivery Plan which will be updated to ensure it reflects data on transport demand and the projects planned to address this.</p>	
--	---	--

MM14.6 Policy T3:
York Railway Station and Associated Operational Facilities

Development will be supported that:

- i. conserves and, where appropriate, enhances those elements that contribute to the significance of the Listed Grade II* station;
- ii. improves the setting of and approaches to the station and the experience of those using it, to meet the demands **of the modern rail customers;**
- iii. increases the railway capacity at York Station (as identified on the **Proposals Policies** Map) to meet changing demands on and capacity in the rail network, over the duration of the Local Plan period and beyond, and to develop the station as
....
- vi. improves pedestrian and cyclist access to within and through the station, including, but not limited to
 - links to improved interchange with further links from **the station this** to the south-western quadrant of the city centre,

Modification Reference	Proposed Modification	Reason for change
	<ul style="list-style-type: none"> the transport corridor being reclaimed for use as a linear park. <p>Where development is sited close to or is likely to have an impact on existing operational or disused railway lines or lines that may be reopened, no new crossings will be permitted. Furthermore, development proposals must demonstrate to the satisfaction of Network Rail that the safe use of affected level crossings as a result of development will not be compromised or the impacts can be mitigated.</p>	
<p>MM14.10 Policy T7 Explanation – paragraph 14.49</p>	<p>14.49 The coverage and content of a TS, TA or TP Transport Statement or Transport Assessment will vary significantly depending on the size and type of development they are required to support. Although NPPF does not state explicitly when a Transport Statement should be prepared in preference to a Transport Assessment (and vice versa), the transport issues arising out of smaller development proposals may not require a full Transport Assessment to inform the process adequately and identify suitable mitigation. In these instances, it has become common practice to produce a simplified report - a TS. There will also be situations where the transport issues relating to a development proposal are limited, and no formal assessment is necessary. A transport statement will be required for major development and a Transport Assessment will be required for any development expected to generate 30 or more peak hour trips. Guidance thresholds for the preparation of a TS TA or TP will be contained in the ‘Sustainable Transport for Development SPD. In addition, the Council reserves the right to request a TS, TA or TP in other instances. There may be instances where the location and/or the nature of the development are considered to be particularly sensitive and the Council requests a Transport Statement or Transport Assessment below these thresholds, for example a development in an area with sensitive heritage or high congestion levels..</p>	<p>For clarity on the planning application requirements.</p>
<p>MM14.11 Policy T8: Demand Management</p>	<p>To improve the overall flow of traffic in and around York City Centre, improve road safety, provide an environment more conducive to walking and cycling, and contribute to overall environmental quality development should comply with the Council latest parking standards guidance, incorporate appropriate demand management measures that reduce congestion, improve public transport journeys, ease pedestrian and cycle access to, within and through the development and improve the streetscape. will be supported that is in</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012</p>

Modification Reference	Proposed Modification	Reason for change
	<p>compliance with the Council's up to date Parking Standards, as contained in the 'Sustainable Transport for Development' SPD.</p> <p>Development that increases the number of long-stay (i.e. more than 4 hours parking) car parking spaces in and around the city centre will not be permitted.</p> <p>Positive consideration will be given to development proposals incorporating appropriate demand management measures that reduce congestion, improve public transport journeys, ease pedestrian and cycle access to, within and through the development and improve the streetscape.</p>	
<p>MM14.12 Policy C1: Communications Infrastructure</p>	<p>The Council will seek the removal and relocation of any visually intrusive masts particularly in the city centre, as and when the opportunity arises. A planning condition will be used to implement the removal of redundant masts or other communications equipment, where appropriate.</p> <p>Communications Infrastructure in new developments All new development will be required to enable a Next Generation Access (NGA) broadband connection (i.e. to communications infrastructure that provides a broadband in excess of a minimum of 24Mbps (30Mbps for contracts signed from 2017 onwards)) unless the developer can clearly demonstrate that meeting this requirement is not viable. Where it can be demonstrated that the provision of a NGA broadband connection is not viable, proposals should provide a minimum download connection of 10Mbps and incorporate suitable infrastructure to support delivery of NGA broadband at a future date</p> <p>Developers of strategic sites (or other major schemes) should engage with communication providers and local broadband groups to explore how NGA broadband can be provided and how the development may contribute to and integrate with active broadband projects within the local area.</p>	<p>To aid effectiveness and enhance clarity for decision making purposes in line with paragraph 154 of NPPF 2012</p>

13. SECTION 15: DELIVERY AND MONITORING

Section 15: Delivery and Monitoring		
Modification Reference	Proposed Modification	Reason for change
MM15.1 Policy DM1: Infrastructure and Developer Contributions	<p>...The Council will seek contributions from developers to ensure that the necessary infrastructure is in place to support future development in York. Contributions will be sought to fund strategic infrastructure that helps to deliver the Vision, Spatial Strategy and Objectives of the Local Plan, as well as specific infrastructure that is necessary to deliver an individual site.</p> <p><u>Where developers demonstrate that there are exceptional circumstances which justify the need for a viability assessment at the application stage, the Council will consider the assessment. If the development is demonstrably unviable, consideration will be given to modifying the phasing of obligations and may extend to including a review mechanism in any legal agreement.</u></p> <p>...</p>	For effectiveness and to clarify that where a development is unviable as demonstrated by a viability assessment, CYC will consider modifying the phasing of obligations and may extend to including a review mechanism in any legal agreement.
MM15.2 Policy DM1 explanation – paragraph 15.13	<p>Planning obligations (including contributions) <u>and any levy</u> will be sought in accordance <u>with legislation and</u> Government policy. <u>Recent legislation has resulted in some reforms to restrict the use of planning obligations coming into effect and others that took effect from April 2014. For example, Part 11 of the Planning Act 2008 provided for the introduction of the Community Infrastructure Levy (CIL) and the Community Infrastructure Regulations, 2010 set out the detail of how CIL will be used to charge and pool contributions from a variety of new developments to fund infrastructure.</u> The Council will consider what it will charge (and collect) contributions on a city-wide or area basis in order to help fund certain elements of strategic infrastructure that will be required to deliver all future development or the development of a particular area of the City. <u>However, under the CIL regulations, as amended, the Council's ability to pool S106 has been limited since April 2015.</u></p>	Text deleted where it relates to CIL regulation changes.
MM15.3 Policy DM1 explanation –	For the sustainable transport component within the 'Ensure Efficient and Affordable Transport Links' element of the Plan's Vision and Outcomes, preliminary transport modelling predicts that the volume of traffic on the highway network overall could increase	Updates to incorporate recent transport modelling work.

paragraph 15.15 and Table 15.1

by approximately 2015% (an extra 706500 vehicle trips in each peak) by the end of the local plan period. The corresponding predicted increase in travel time across the network is approximately 30% and the increase in network delay is approximately 55%. These are average values and there will be variations throughout the network, with some areas or specific junctions experiencing higher levels of delay than others. Two things should, however, be highlighted in relation to traffic growth in York. First, the increasing level of delay on the network should be considered not in the context of the 2019 base values (as per Table 15.1), but against the traffic impacts of other development scenarios for York (on the basis that some development and population growth will be seen in the city whether a Local Plan is adopted or not). Modelling undertaken for the Local Plan illustrates that the chosen spatial distribution in the Local Plan imposes a similar traffic impact to alternative development scenarios. Secondly, the modelling represents a stress test of the network using a reasonable worse case scenario for trip growth. Between 2001 and 2021 York's population increased substantially, but this did not lead to a proportionate increase in trip making

Replace Table 15. 1 with:

Table 15. 1: Comparison of Future Year Modelled Travel Times with Baseline Year Travel Times (2019)

Trip	2019 Base year modelled peak hour trip time (decimal mins)	Future Year (2032/33) Forecast		
		Modelled peak hour trip time (decimal mins)	Increase from baseline year (decimal mins)	Difference versus a non Local Plan development pattern in 2033 (decimal mins) (a negative

MM15.4 Policy DM1 explanation – paragraph 15.21	<p>...Normal development costs and the costs of high quality materials and urban design considerations are universally applicable and will not be allowed for in negotiations to reduce contributions. <u>Review mechanisms may be secured as part of a legal agreement requiring a 're-run' of the viability appraisal post-permission. Either actual or updated predictions of sales values and build costs of a development will be compared against the assumptions made in the application viability assessment to see whether the scheme's viability has improved in the time that has passed to allow policy compliant contributions to be secured.</u></p>									To clarify the approach in relation to MM15.1
