Report of the Corporate Director of Economy and Place

Applications for Community Right to Bid under the Localism Act 2011

Summary

1. This report presents an application to list the Lord Nelson Public House, Nether Poppleton, York as an Asset of Community Value (ACV), for consideration by the Council.

Background

2. An application has been received, for a decision by the Executive Member in the Council's statutory capacity as an Asset of Community Value (ACV) listing authority.
3. The purpose behind these provisions is to ensure that property (land and building) assets which are currently used to the benefit of the local communities are not disposed of without the local community being given a fair opportunity to bid for these assets when they are put on the open market. This right is not simply to accommodate 'public assets' but also private assets, the test is whether such assets are viewed as 'assets of community value'. These assets therefore could be currently owned by the public, private or voluntary sector.
4. The definition of 'community value' is set out in the regulations and can be summarised as
 - The actual current use of the building/land furthers social well being or the social interests of the local community
 - Realistically this use can continue for the next 5 years
 - There was a time in the recent past where actual use furthered these aims.

5. There is no exhaustive list of what is considered to be an asset of community value but cultural, recreational and sporting interests are included. Excluded specifically are residential type properties (such as hotels, housing in multiple occupation and residential caravan sites) and operational land of statutory undertakers.
6. It should also be noted that changes to the General Permitted Development Order have been made with effect from the 6th April 2015, which means that where a pub is listed as an asset of community value a planning application is required for a change of use or demolition of the pub building. However this should not be a factor in determining any application for listing of a pub as an Asset of Community Value.

The process

7. The regulations set out how potential assets can be listed which in brief is as follows:
 - **Nomination** – this can be by a voluntary or community body with a local connection. Includes parish councils, neighbourhood forums, charities, community interest groups but excludes public or local authorities (except parish councils).
 - **Consideration** – the local authority have 8 weeks to make the decision. Under the Council's procedures the Executive member is the decision maker. If the nomination is successful the asset details are entered onto the 'Community Value list' – see below – and also the local land charges register. If unsuccessful then the details are entered onto an 'unsuccessful nominations' list for a period of 5 years to prevent repeat nominations. The owner can request a review of the decision which must be completed within 8 weeks and the owner can further appeal within 28 days of the review outcome to a Tribunal.
 - **Disposal of assets on the list** – if a building or piece of land which is on the list is going to be sold with vacant possession then the owner of the asset needs to give notice to the local authority. There is then a 6 week moratorium period for any community group to express interest in writing and if they do then a 6 month period for that group to prepare it's bid. After that period the owner can market the property and any bid from the community group will be considered with bids from other interested parties. There is no guarantee that the offer from the community group will be successful as the owner of the asset will

dispose of the property in accordance with its own criteria for disposal. There are a number of exceptions contained within the legislation that mean that this moratorium period does not apply and the owner does not need to give notice of its intention to sell. This includes when there is a legally enforceable requirement, which pre-dates the listing, to sell to a specific party.

- **Compensation** – the presence of the land or building asset on the community value list may result in additional expenditure or a loss to the owner and therefore the owner can apply for compensation from the local authority. The figure is limited to costs or losses incurred only whilst the asset is on the list and could include such items as legal expenses for appeals, costs relating to the delay in the sale (such as maintenance, security, utility costs, loss of value).
