Productive and Innovative Economy

CYC project	CYC project description	Council	York ambition	Regional ambition
Economic Space for High Growth Sectors	There is a short term funding ask for capacity to undertake a study into the regional economic potential of assets as strategic employment sites for the region to drive high growth sector employment and investment eg bioeconomy and/or creative & digital and how it's position could support a connected relationship with the region. Longer term (subject to business case) there may be a need for future MCA funding to support the strategic acquisition and/or the development of sites.	C2.1	Economic Strategy	<ul style="list-style-type: none"> Transition to carbon negative Deliver good economic growth Increase opportunities for all Pioneer innovation and R&D Increase productivity of core sectors
Green Construction Skills Initiative	<p>With significant economic growth (homes and jobs) planned across York and North Yorkshire, there is an increased need for local construction skills to deliver the strategic sites on the ground. The region's focus upon achieving net zero also creates a new local demand for retrofit skills. Short term revenue capacity funding will allow an initial pilot phase to combine an initial focus on developing training and work experience opportunities, including adult skills development. It will help test and develop a business case for a longer term York & North Yorkshire approach of working with developers and education providers to link such opportunities to the pipeline of developments across the city and wider sub region.</p> <p>Develop a green construction skills village to build essential skills that would decarbonise new developments, setting higher standards for strategic sites (throughout the MCA strategic plan, as above) – working closely with partners, to build retrofitting skills for York and North Yorkshire housing stock, across all tenures, offering opportunities as a corporate parent.</p>	B4.4 C3.1 E3.3	Climate Change Strategy Economic Strategy Skills Strategy The Local Plan	<ul style="list-style-type: none"> Transition to carbon negative Deliver good economic growth Increase opportunities for all Increase productivity of core sectors Pioneer innovation and R&D
