

DECISION SESSION - EXECUTIVE MEMBER FOR CITY STRATEGY

TUESDAY, 2 JUNE 2009

DECISIONS (*extract*)

4. PETITIONS FOR 20MPH SPEED LIMITS ON RESIDENTIAL ROAD

RESOLVED: That the Executive Member agrees to:

- i) Request officers to progress a list of potential sites, including any in the South Bank area, for additional 20mph limit schemes and bring a subsequent report to Members setting out the process for allocating funding to requests for 20mph speed limits on residential roads.
- ii) Continue to address speed management issues under the current policy rather than introduce a city-wide 20mph scheme.
- ii) Inform the lead petitioners of the outcome of the report.

REASON: To ensure that speed issues are addressed through a data led process that targets resources at casualty reduction but enables officers and Members the opportunity to gather data on the effect of 20mph speed limits and whether it would be appropriate to promote a city-wide scheme in the future.
