

**Safer York Overview and Scrutiny / Partnership Board Report**  
**August 2010**

**PERFORMANCE REPORT ON COMMUNITY SAFETY PLAN**

**1. Introduction and Overview**

1.1 Data and/or update information on progress is not held by the Safer York Partnership support team for all of the indicators contained within the plan and Local Area Agreement. Therefore this report does contain gaps where information is missing. Work is currently being completed to change the format of this report.

1.2 There is no data new data for around half of the indicators. There has also been no surveys completed recently (Talk-about / Place). It is likely that the Place survey will not take place in the future.

1.3 In terms of the overall measure of Crime Groups on IQUANTA, York is currently 12<sup>th</sup> in its family of most similar CSP's. This is the same position in family as the start of the previous quarter.

1.4 Violent crimes are still predicted to come in over target for strategy end, but York is in 4<sup>th</sup> position within its family grouping (Assault with Injury)

1.5 The lowest performing area on Iquanta (15<sup>th</sup>) is Cycle Theft. This is stopping York improving on its overall crime family position.

1.6 There have been significant rises in cycle theft in the last two months. This means that it is predicted we will have 41% more crimes in 2010/11 than in 2009/10 equating to around 450 crimes.

1.7 Although figures for Overall crime in the last four months are under target, it is predicted that there will be around 500 more crimes in 2010/11 than in 2009/10

**2. Safer Neighbourhoods**

2.1 The only crime indicator for this section is Criminal Damage and this continues to be under target. The most recent comparison data indicates that York is no longer worst performing in its group. It is estimated that York will have slightly lower levels of criminal damage in 2010/11 than in 2009/10.

2.8 Information for NI39 Alcohol Related Harm Admissions has been taken from the Local Alcohol Profiles for England website. Although no narrative can be given around this indicator, the latest data continues to suggest that this indicator is on track to meet the targets in the LAA. This indicator has come in under target for the last seven quarters. Quarter 4 information for 2009/10 has still not been made publically available.

2.10 The Safer York Partnership website has undergone further improvement to allow the public to comment on all projects and strategies. These comments are filtered automatically to various support team and partners for immediate feedback.

2.11 The Community Watch website has been integrated in to the main Safer York website.

2.12 Hate crime only increased by 3% when comparing 2009/10 to 2008/09, and based on latest available data is predicted to be static when comparing 2010/11 to 2009/10.

2.13 The changes in Hate Crimes between 2007/08 and 2008/09 were due to changes in recording standards / classifications which were brought in April 2008.

2.14 There are no significant patterns of hate crime with levels of hate crime matching the overall population figures within wards. The breakdowns for the types of hate crime for their main groupings are as follows:

- 84% Racially motivated
- 7 % Homophobic
- 3% Religiously motivated
- 1% Transphobic
- 5 % Disability Motivated

### 3. Drugs & Alcohol

3.1 Operation Altn8 has run for the previous two years. It has been decided to re-badge this project as Operation Style (Safer Time in York Let's Enjoy). Operation STYLE was launched on Friday 4<sup>th</sup> June 2010 and is a partnership-led operation aimed at reducing disorder and traffic collisions that occur due to alcohol and drugs. On the opening evening, police officers and volunteers gave out water, snap-maps of York, and on 27 occasions, orders to leave the City Centre under Section 27 of the Violent Crime Reduction Act 2009.

3.2 The Night-safe Task group continues to be effective in co-ordinating multi-agency projects. It is currently completing a review and upgrade of the Cumulative Impact Zone (CIZ) in order to stabilise the levels of city centre violent crime. Information available on the CIZ suggests that violent crime fell by 25% between 2008/09 and 2009/10. This is compared to violent crime falling by 8% city-wide.

3.3 There is no new data for NI38 Drug Related Offending. The latest data, up to Q3 09/10, suggest that York is on track to meet this indicator.

3.4 At present there is still no information on the national hub regarding National Indicator 40, Drugs users in effective treatment. Enquiries have been made with the DAT to see if this indicator can be provided locally but due to data methodology, with information being matched across a number of partners, this cannot be done.

**4. Volume Crime (including Burglary, Vehicle Crime and Cycle Theft)**

4.1 NI 16 Serious Acquisitive Crime has continued to show dramatic reductions. Last year there were 1500 fewer crimes than the year before. The first two months of this year have been under target, although the May figure is higher than expected. Significant improvement has been seen in the Iquanta family with York now placed at 8<sup>h</sup> in its most similar family group compared to 12<sup>th</sup> at this stage last year.

4.3 Theft from a vehicle was 55% below its target in 2009/10 and is estimated to finish 50% below in 2010/11. Theft of a vehicle was 53% below its target in 2009/10 and is estimated to finish 42% below in 2010/11. Vehicle interference was 76% below its target in 2009/10, and is estimated to finish 73% below in 2010/11.

4.4 Domestic Burglary reduced by 37% when comparing 2009/10 to 2008/09. Based on the first four months of the year it is predicted to 1% higher than last year.

Domestic Burglary

Out-turn		989	1126	713	720 (Est)

4.5 The Burglary Task Group has re-visited its action plans, as large schemes such as alley-gating and burglary packs have been completed, and prioritised actions such as promoting “sheducation”, targeting of car boot sales and second-hand dealers and promoting of neighbourhood watch schemes in target areas. There is no new perception data from the Talk-about on concern about leaving your home empty.

4.6 Theft or unauthorised taking of a cycle has seen large increases in the last three months, and is predicted to 41% higher than last year which equates to around 450 more crimes.

Out-turn		1198	1014	1120	1578 (Est)

4.7 York has historically had a large number of cycle thefts largely because of the high number of cycles and cycle users. The vast majority of cycles are being stolen from Guildhall Ward (City Centre).

4.8 A large number of cycles are being stolen from the Micklegate, Hull Road and Huntington Wards. York University and York College have been targeted over last three months.

4.9 Bikes are being stolen from the City Centre cycle racks, most are going from Kings Square / St Andrewgate; Museum Gardens' Parliament Street; Wellington Road/Tanners Moat; and St Helens Square respectively.

4.10 In 2009-10, there were very few arrests or detections of pedal cycle thieves. In addition, there were very few bikes recorded as recovered. Of the cycle theft crimes, there have been several detected cycle-theft crimes at York Hospital, York College, Olympian Court and York University – with Guildhall having the most detected out of all the wards

4.11 92% of the detected York cycle thieves live within York, with only a known few travelling from outside York. 23% of the detected cycle thieves also live within 500m of the location they stole the bike from. 99% of detected cycle thieves are male, and 75% are under 25 years old.

4.12 The most common specific item stolen in non-dwelling burglaries (such as shed or garage) are bikes, and in June and July 2010 around a third of all non-dwelling burglaries involved bikes being stolen

4.13 Recent actions decided upon at the last Cycle Theft Task Group (in July) decided with other schemes to deter cycle thieves by producing stickers for Operation Spoke-marked bikes and for new signs on city centre cycle racks advertising 'police tracker bikes' are in operation.

4.14 Rat Trap or Tracker Bikes will also be deployed more regularly, particularly as a number will be bought for North Yorkshire Police use on the York University Campus York University will also be improved against cycle theft by upgrading a number of cycle racks, deploying cycle strips and by producing comprehensive packages for new students.

4.15 The Safer York Partnership and North Yorkshire Police are working with CYC Trading Standards are targeting prolific thieves who sell on the stolen bikes by cracking down on prolific bike sellers particularly on eBay and Gum-Tree. Bike sellers who sell more than 12 items are now required to register with CYC Trading Standards who are also now supplied with details of all recently stolen bikes.

4.16 Since Operation Spoke (a scheme to UV mark bikes in York to deter and catch cycle thieves, and then help return bikes to their rightful owner) began mid

January 2010, there have been 4,841 bikes registered (by 6<sup>th</sup> August) on the online database. In the short-time Operation Spoke has been in use, the database has already been used to return a number of stolen and missing bikes and arrest any offenders on them.

4.17 Information on the re-offending rate of young offenders is available up to the end of Q3 2009/10. This indicator is predicted to be on track and under target. Notes from the children and families performance report suggest that:

“Other similar indicators (e.g. LPSA2) show reductions in seriousness and frequency of re-offending by the 35-40% of the cohort that is dealt with by the YOT. York is historically very high compared with statistical family and region. The 2009/1010 cohort has a higher risk profile. Evidence from other systems is that re-offending by the few most prolific ('DYO's') has halved recently in York. York is making better progress now than similar areas.”

#### **NI 19 - YORK**

Indicator	Type	2007/08	2008/09	2009/10	2010/11
NI 19 Rate of Proven re-offending by young Offenders aged 10 to 17	Target		1.82	1.74	1.66
	Out-turn	1.91 (2005)	1.62	1.17	

4.18 The first time entrants to the Youth Justice System indicator, has been provided in a more concise form after previous board discussions. Notes from the children and families performance report suggest that:

“Historical 06/07 data is unreliable due to longstanding under-reporting by police. 08/09 figures suggest the rate of FTEs had decreased rapidly but then leveled out. 09/10 Q1 figures showed an initial very sharp upturn in numbers given Reprimands by Police but settled back down to target trajectory. Data quality problems with new police system persist. New police system of Youth Restorative Disposals had clear initial impact but needs re-launch; Capable Guardian scheme yet to make impact. York is now making better progress than similar areas.”

4.19 It was also suggested that NI43 is included here. Notes from the Children and families performance report suggest that:

“York has low levels of serious youth crime and the YOT has the confidence of the magistrates on community sentences e.g. Intensive Supervision & Surveillance.

Very small numbers mean percentages can fluctuate significantly. Long-term, York is at national average rate but sharp reduction in custody numbers recently (almost halved).”

4.20 There is no new NI30 PPO data. The re-offending rate of PPOs continues to be on track in York. This indicator has been under target for the last seven quarters. Integrated Offender Management (IOM) is now up and running and is being embedded within general working practices.

## 5. Violent Crime

5.1 Work is continuing through the Domestic Abuse Steering Group and the York and North Yorkshire Joint co-coordinating group.

5.2 NI 32 – Repeat Incidents of a MARAC, is the main performance indicator for domestic violence. This indicator measures the percentage of repeat MARACs compared to initial MARACs. Although this has been above target for 2008/09, 2009/10 and potentially this financial year, comparative information suggests York is performing well. This was a new indicator in 2007/08 and there were issues over the target setting and methodology.

Indicator	Type	2007/08	2008/09	2009/10	2010/11
NI 32 Repeat Incidents of Domestic Violence Cases reviewed as a MARAC	Target	8.33%	7%	6%	5%
	Out-turn	8.33%	10.84%	17.58%	13.33% Est
	National Average	21% to 30%	21% to 30%	21% to 30%	21% to 30%

5.3 The latest independent evaluation of this process by CAADA was positive, as it stated:

"Your repeats at MARAC are significantly low, this is unusual as the longest running MARACs typically have a repeat rate over 30% and the national average is 21.5%."

5.4 In 2009/10 there were 2197 incidents of domestic violence in York, and this is compared to 2025 incidents in 2008/09 – this shows a general increase of 8% between the two financial years. When each domestic violence incident is considered by its level, York had 13% more level 1's, 13% fewer level 2's, and 8% more level 3's in 2009/10 than in 2008/09. No data is available for 2010/11.

5.5 There were 757 incidents of Repeat Domestic Violence in 2009/10 compared to 696 incidents in 2008/09. This shows an 8% increase in York between the two years.

5.6 Information regarding NI34 - Murders connected to Domestic Violence shows York is predicted to have none in 2010/11

5.7 NI20 Assault with injury is still a cause for concern. There have been small rises in these crimes in the last couple of months, and levels at this stage are predicted to be 9% higher than last year. York is placed 4th in its most similar families, suggesting we are performing comparatively well. Much of the work to tackle violent crime is driven through the Night-safe Task group and has been reported in the Drugs and Alcohol section previously.

5.8 The base-line for NI15 has been changed from 07/08 to 08/09 due to issues of data recording. Last year, most police forces in England and Wales were asked to reclassify their violent crimes due to inconsistencies and intricacies of violent crime recording. It was felt therefore that the baseline year 07/08 was not a true reflection of the levels of serious violent crime. Of the crimes recorded as Serious Violent Crime there seems to be no identifiable pattern and very few repeat incidents of crimes.

## 6 Business Crime

6.1 Although Business Crime does not feature within the performance management framework aligned to the Community Safety Plan, it remains a priority for the Guildhall Safer Neighbourhood Team (SNT) and for the Partnership. Addressing local priorities remains a priority for the SNTs under the policing pledge but also close collaborative working between the business community and SYP. Demonstrating initiatives to tackle all aspects of crime and disorder play a big part in increasing public confidence.

6.2 Safer York Partnership has established a Business Crime group which is working with the business community, Community Watch and RACY to develop initiatives to target business crime.

6.3 Targets have been set for crime categories in Business crime. These are not part of LAA framework and have been created by the Business Crime group to monitor progress in line with other Safer York Partnership delivery groups.

6.4 The latest business crime figures are below (Robbery of a Business Property is covered in the Serious Acquisitive Crime Section). There is no comparison information on Iquanta at present for Theft by an Employee, Burglary of a Business Premise or Making off Without Payment.
