40. Residents' Priority Parking Scheme Scrutiny Review Draft Final Report

Members considered a report which provided the findings of the scrutiny review of the City of York Council's Residents' Priority Parking Scheme (ResPark) together with the Task Group's review conclusions and draft recommendations.

Cllr D'Agorne outlined the report and recommendations to Members. Members debated the review recommendations in detail, during which the Assistant Director for Transport, Highways and Environment clarified that:

- Automatic Number Plate Recognition (ANPR) would be used for enforcement purposes only.
- Tickets could only be issued by Civil Enforcement Officers.

- The level of investment for transition to a system of virtual permits initially within a trial zone carried a level of financial risk.
- The use of direct debit payments could be looked at with virtual permits.
- There had been consultation with residents.

Following debate it was:

Resolved: That the recommendations below be recommended to the Executive that the Corporate Director of Economy and Place:

- i. Reviews the current pattern of ResPark zones with a view to rationalising them and identifying the most logical extensions into surrounding streets that suffer from non-resident parking;
- ii. Rationalises parking permits so there is more standardisation on permit length (i.e. the current 3, 6 and 12 month permits) by offering annual or monthly permits.
- iii. Seeks to ensure residents' petitions for new zones are investigated and (if agreed) implemented as soon as possible, aiming for within a year.
- iv. Introduces an online self-service for customers to encourage online application and payment for parking permits and visitor vouchers, same day online payment for parking tickets, and to automate the requirement for evidence;
- v. Investigates the transition to a system of virtual permits, initially within a trial zone, to eliminate the need for paper permits through Automatic Number Plate Recognition and better links to DVLA to help enforcement;
- vi. Investigates digital options once virtual permits are in operation that will enable residents to check a registration number so if a vehicle is illegally parked the information is electronically passed to enforcement officers.
- vii. Examines the implications of allowing residents of new properties within existing ResPark zones to purchase a limited number of visitor vouchers.

Reason: To conclude the work of this review in line with scrutiny procedures and protocols and enable this review final report to be presented to the Executive.

41. Workplan 2018/19
