

# Community Impact Assessment: Summary

#### 1. Name of service, policy, function or criteria being assessed:

Minerals and Waste Joint Plan – Preferred Options Draft

## 2. What are the main objectives or aims of the service/policy/function/criteria?

The City of York Council as a unitary authority is also a waste and minerals planning authority and to satisfy the provisions of national planning policy it must develop the necessary policies for minerals and waste. City of York is currently preparing a Local Plan with strategic policies on minerals and waste and a separate joint minerals and waste development plan document with North Yorkshire County Council and the North York Moors National Park Authority. This is known as the Minerals and Waste Joint Plan. The Joint Plan involves identifying all waste arising in the area from all sources, such as, household, commercial, hazardous and agricultural, and demonstrating how this is dealt with spatially. With regard to minerals it is necessary to identify the requirement for minerals including aggregates and how these will be sourced. The Preferred Options stage provides an opportunity for the people to view and comment on the draft policies and sites before these representations are assessed and used to inform and help draft the next stage of the Plan process; the Publication draft. The main objective of the policy is for Members to note the progress on the preparation of the Minerals and Waste Joint Plan and approve the Preferred Options documents for public consultation. This will allow the preparation of the Minerals and Waste Joint Plan to be progressed.
