

16/01744/FUL

105 Tadcaster Road Dringhouses

Additional objection comment

Email in response to committee report.

- The recommendation is flawed and based on inaccurate data, namely that the proposed extension bares no resemblance to the extension at no. 99 Tadcaster Road, as it differs in design, materials, fenestration and impact on neighbour amenity.
- The proposed scheme is at odds with Local Plan policies H7 and the Council's House Extensions and Alterations SPD. The policies, design principles seems to have been totally ignored.
- Site visits should have been made to all objecting parties .
