## ANNEX C3

| Précis of comments received  | Officer response |
|--|------------------|
| In Support   |                  |
| Strongly support   | Noted            |
| Definitely support   | Noted            |
| Thank you for this timely survey. Parking is an increasing problematic issue for residents. The street is often used by people parking and walking into the city.  | Noted            |
| We support the scheme. People park all day for<br>commuting. Vehicles are left for weeks at a time.<br>Not to mention race days. Please ensure the<br>restrictions are implemented, stressful parking<br>situation becoming intolerable. | Noted            |
| Living near Rowntree park & Millennium Bridge<br>is the reason for the need in 24 hour parking<br>restrictions   | Noted            |
| We would prefer 24hours as the parking is<br>caused by people using millennium Bridge and<br>the park who use the street as a car park. The<br>parking problems started when the bridge was<br>built                                     | Noted            |
| Weekends can be the worst as the area is used to park for visitors to Rowntree Park  | Noted            |
| Fully support the proposed scheme, needs to be<br>24hours. Driveway frequently obstructed by<br>parked vehicles  | Noted            |
| Due to close proximity to Rowntree park we<br>frequently find parking at weekends<br>difficult/impossible  | Noted            |

| I strongly support the idea of the single bigger   | Noted |
|--|-------|
| R58C area. No benefit in 9-5 only so support       |       |
| 24hours  |       |
|  |       |
| Terry Street is handy for commuter parking and     | Noted |
| is rarely used by residents. Difficult for friends |       |
| and family to park, I would welcome the scheme.    |       |
|  |       |

| Against the scheme   |   |
|--|---|
| I doubt this would make it easier to park close to<br>my house. Why must the first permit cost?<br>Won't the fines support the enforcement. I can<br>only just afford a car without making it more<br>expensive.         | If the scheme is introduced the number of<br>commuter vehicles will decrease freeing more on<br>street parking space available for residents  |
| I object to having to pay to park on the road that<br>doesn't even guarantee a space. I am a<br>pensioner and the council tax is bad enough<br>without paying more   | Extending the existing ResPark scheme will<br>create one large area available for residents to<br>park within. The City Council does not have to<br>provide parking for residents hence the cost<br>should not fall on the general tax payer. |
| We are a two car family, due to employment<br>both cars are essential. This proposal wants to<br>charge excess of £200 to solve a problem that<br>doesn't exist.   | This view is not shared by the majority of residents.   |
| Ridiculous small minded request. If it were<br>forced upon us I would park on the opposite side<br>of the road, if it was extended opposite I would<br>park in other residential streets and make sure<br>they knew why. | Noted   |
| its one thing limiting access for people living<br>outside the area, however I do not agree with<br>limiting access of people including family and<br>friends who live outside the neighbourhood.                        | Visitor permits can be purchased to enable family/friends to park when visiting residents.  |

| Additional financial burden, never found parking<br>a problem. Makes it harder for families to have a<br>cheap day out to Rowntree Park. Bikes a bigger<br>problem than traffic or parkingNotedIf introduced many residents would turn there<br>front gardens into parking spaces which is<br>saddening to see. For example see the RHS<br>campaign 'greening grey Britain' which aims to<br>turn parking spaces into front gardens.NotedDo not agree with this money making scheme. It<br>is aimed at the people who least can afford to<br>pay. Strongly disagree as it is causing trouble<br>with neighbours and family.Schemes are initiated by residents.No advantage due to particular location of<br>property. Cannot see that ResPark will deter<br>vehicles from parking on the footpath which<br>causes access issues to my drive.If introduced there should be no need for<br>vehicles to park on pavements as more on street<br>parking will be available to residents only.Stop introducing ResPark as this creates a knock<br>on effect to areas which didn't previously have a<br>problem. It causes unnecessary stress and<br>financial burden on communitiesAll residents parking schemes are resident driven<br>and support must be shown before any<br>consultations commencePenalizing people in poor housing who cannot<br>afford off street parking or a private garage. Poor<br>pensioners at least should have it for free. It is a<br>lot of money for us who are struggling.NotedQuiet cul de sac and all properties have drives. If<br>other streets are having problems it shouldn't<br>affect our road and we certainly should not have<br>to pay for ourselves or visitors to parkThe street in question has a majority vote in<br>favour of introducing residents parking |  |   |

If<br>other streets are having problems it shouldn't<br>affect our road and we certainly should not haveThe street in question has a majority vote in<br>favour of introducing residents parking  | pensioners at least should have it for free. It is a |   |
| other streets are having problems it shouldn't<br>affect our road and we certainly should not havefavour of introducing residents parking  | lot of money for us who are struggling.              |   |
| other streets are having problems it shouldn't<br>affect our road and we certainly should not havefavour of introducing residents parking  | Quiet cul de sac and all properties have drives. If  | The street in question has a majority vote in     |
| affect our road and we certainly should not have   |  |   |
|  |  |   |
|  |  |   |
|  |  |   |

| Why Should I pay to park outside my home just<br>because neighbouring street are full of<br>commuter parking. Provide more parking and<br>stop trying to make cash. You are creating the<br>problem by pushing ResPark further from York<br>centre.  | No obligation to provide on street parking. All new schemes are resident lead.   |
|--|--|
| Majority of residents are being penalised due to<br>having no off street parking and no guarantee of<br>a space on street.   | Creating one extended larger respark area gives<br>residents more flexibility when parking in the<br>area  |
| This is a financial burden. Should properties with<br>off street parking have the right to vote? To<br>charge on emissions basis is ridiculous as<br>vehicles are parked. The parking situation is<br>caused by inconsiderate drivers who use<br>millennium bridge, it is them that should be<br>fined | Everyone residing within a proposed scheme<br>gets the chance to vote and express any<br>comments. Visitor and builders permits may still<br>be required by properties that have off street<br>parking |
| Absolutely not. Brexit then trump now this!  | Noted  |

| General Comments   |   |
|--|---|
| Would like to see a discount for individual B&B's we only have a few rooms   | Permit prices are agreed at annual fees and charges decision sessions   |
| If the scheme goes ahead would the council be prepared to provide a car park?  | Park & Ride available on approached into the<br>city. Car park already available for visiting<br>Rowntree's Park  |
| Biggest problem caused by cars is the damage to<br>grass verges. If this was discouraged by CYC then<br>respark would not be required  | If introduced there should be no need for<br>residents to park on grass verges as more on<br>street parking will be available.  |
| People parking and walking into the city is a<br>good thing, council should provide suitable<br>places for the commuters to park. Two possible<br>sites are the car park on b'thorpe rd opposite<br>terrys site and the car park on Terry Avenue | The council does not have a duty to provide on<br>street parking. There are already car parks and<br>park & ride available to people travelling into<br>York city centre. |

| Can we stop people driving on the grass verges?  | The need to drive or park on grass verge should<br>decease if a residents parking scheme is<br>introduced, as the amount of vehicles in the area<br>will reduce more on street parking should |
|--|---|
|  | become available to residents.  |
| If a partial implementation excluding Bish Road<br>is to be introduced then our vote would change.<br>No if all or nothing but yes if sections are to be<br>respark  | Noted   |
| Restrict parking Mon – Fri 10am -12pm This<br>2hour window was used effectively in London. It<br>stops the commuter parking but causes<br>minimum disruption to resident's visitors etc.<br>Also focuses traffic wardens | This would then still attract visitor to the park<br>and race day parking which has been highlighted<br>as a concern by several residents in the area.  |
