Appeals Performance and Decision Summaries

Summary

- 1 This report (presented to both Planning Committee and the Area Planning Sub Committee) informs Members of the Council's performance in relation to appeals determined by the Planning Inspectorate between 1 July and 30 September 2017, and provides a summary of the salient points from appeals determined in that period. A list of outstanding appeals at date of writing is also included.

Background

- 2 Appeal statistics are collated by the Planning Inspectorate on a quarterly basis. The Government propose to use the quarterly statistical returns as one of a number of measures to assess the performance of local planning authorities. To assess the quality of decisions, this will be based on the number of decisions that are subsequently overturned at appeal. The threshold whereby a Local Planning Authority is eligible for designation as under-performing is 10% of the Authority's total number of decisions on applications made during the assessment period being overturned at appeal.
- 3 The tables below include all types of appeals such as those against refusal of planning permission, against conditions of approval, listed building applications and lawful development certificates. Table 1 shows results of appeals decided by the Planning Inspectorate, for the quarter 1 July to 30 September 2017 and the corresponding quarter for 2016, Table 2 shows performance for the 12 months 1 October 2016 to 30 September 2017 and the corresponding period 2015-2016.

% Allowed	21%	11%
% Part Allowed	7%	3%

Analysis

- 4 Table 1 shows that between 1 July and 30 September 2017, a total of 11 appeals were determined by the Planning Inspectorate. Of those, 2 were allowed (18%). None related to a “major” development. By comparison, for the same period last year, out of 13 appeals 3 were allowed (23%), 1 was part allowed (8%). Using the assessment criteria set out in paragraph 2 above, 0.4% of the total decisions made in the quarter were overturned at appeal.
- 5 For the 12 months between 1 October 2016 and 30 September 2017, 21% of appeals decided were allowed, which is below the national percentage figure of 33% of appeals allowed, but up on the previous 12 month figure. Using the assessment criteria set out in paragraph 2 above, 0.5% of the total decisions made in the 12 month period were overturned at appeal.
- 6 The summaries of appeals determined between 1 July and 30 September 2017 are included at Annex A. Details as to of whether the application was dealt with under delegated powers or by committee are

included with each summary. In the period covered one appeal was determined following a decision at sub-committee/committee.

- 7 The list of current appeals is attached at Annex B. There are 8 planning appeals lodged with the Planning Inspectorate (excluding tree related appeals but including appeals against enforcement notices).
- 8 We continue to employ the following measures to ensure performance levels are maintained at around the national average or better:
- i) Officers have continued to impose high standards of design and visual treatment in the assessment of applications provided it is consistent with Paragraph 56 of the NPPF and draft Development Control Local Plan Policy.
 - ii) Where significant planning issues are identified early with applications, revisions are sought to ensure that they can be recommended for approval, even where some applications then take more than the 8 weeks target timescale to determine. This approach is reflected in the reduction in the number appeals overall. This approach has improved customer satisfaction and speeded up the development process and, CYC planning application performance still remains above the national performance indicators for Major, Minor and Other application categories.
 - iii) Additional scrutiny is being afforded to appeal evidence to ensure arguments are well documented, researched and argued.
