Appeals Performance and Decision Summaries

Summary

- 1 This report (presented to both Planning Committee and the Area Planning Sub Committee) informs Members of the Council's performance in relation to appeals determined by the Planning Inspectorate between 1 July and 30 September 2019, and provides a summary of the salient points from appeals determined in that period. A list of outstanding appeals at date of writing is also included.

Background

- 2 Appeal statistics are collated by the Planning Inspectorate on a quarterly basis. The Government use the quarterly statistical returns as one of a number of measures to assess the performance of local planning authorities. To assess the quality of decisions, this is based on the total number of decisions made by the Local Planning Authorities that are subsequently overturned at appeal. The threshold whereby a Local Planning Authority is eligible for designation as under-performing is 10% of the Authority's total number of decisions on major, non-major and "county-matter" (generally minerals and waste proposals) applications made during the assessment period being overturned at appeal.
- 3 The tables below include all types of appeals such as those against the refusal of planning permission, against conditions of approval, listed building applications and lawful development certificates. Table 1 shows results of appeals decided by the Planning Inspectorate for the quarter 1 July to 30 September 2019 and the corresponding quarter for 2018, Table 2 shows performance for the 12 months 1 October 2018 to 30 September 2019 and the corresponding period 2017/2018.

Analysis

- 5 Table 1 shows that between 1 July and 30 September 2019, a total of 21 planning appeals were determined by the Planning Inspectorate. Of those, 1 was allowed (5%). There were no appeals relating to the refusal of a “major” development during this reporting period. For the corresponding period 2018, out of 18 appeals 6 were allowed (33%). Using the assessment criteria set out in paragraph 2 above, 0.2% of the total decisions made in respect of non-major applications in the quarter 1 July – 30 September 2019 were overturned at appeal. There were no appeals in respect of major applications or county-matter applications during the quarter. Where a split decision is issued on an appeal (ie part of the appeal is dismissed and part allowed) the appeal is treated as if the local planning authority’s decision has not been overturned for the purposes of the assessment criteria.

- 6 For the 12 months between 1 October 2018 and 30 September 2019, 18% of appeals decided were allowed, which is below the national figure for 2018/19 of 30% of appeals allowed, and below the corresponding 2017/2018 12 month figure. Using the assessment criteria set out in paragraph 2 above, 0.8% of the total decisions made in respect of non-major applications and 2% of total decisions made in respect of major applications in the period 1 October 2018 – 30 September 2019 were overturned at appeal. There were no appeals in respect of county-matter applications during the period.
- 8 The summaries of appeals determined between 1 July and 30 September 2019 are included at Annex A. Details as to whether the application was dealt with under delegated powers or by committee are included with each summary. In the period covered no appeals were determined following a decision to refuse permission made by the sub-committee/committee.
- 9 The list of current appeals is attached at Annex B. There are 20 planning appeals (excl. tree works) lodged with the Planning Inspectorate awaiting determination.
- 10 We continue to employ the following measures to ensure performance levels are maintained at around the national average or better:
 - i) Officers have continued to impose high standards of design and visual treatment in the assessment of applications provided it is consistent with the NPPF and Draft Local Plan Policy.
 - ii) Where significant planning issues are identified early with applications, revisions are sought where possible to enable recommendations for approval, even where some applications then take more than the 8 weeks target timescale to determine.
 - iii) Scrutiny is afforded to appeal evidence to ensure arguments are well documented, researched and argued.
 - iv) Appeal decisions are reviewed and discussed within the team and with senior officers.
