Good Morning Angela,

I have just been sent some photos that have been professionally annotated and thought they might be clearer for anyone researching the case. I am sorry that they are largely duplicates of the ones contained in yesterday's document, but they are hopefully easier to study. I have included one that is not annotated but it shows the 2 white fire door exits (the one on the right is from Stonegate Court). It also clearly shows the balconies of 2 Stonegate properties overlooking the courtyard adjoining the Unit 4 courtyard.

Kind Regards
