Re: Application no: CYC-066458 Event Coordin8

Miss Donna Harper rents land on our property at Willow House where she has sited the Salix yurts which are used for her business to host weddings and other functions. I live in the house on site, which is situated quite closely to the yurts, and have never been disturbed by any noise or rowdy behaviour from any of Miss Harper's customers.

As one of the owners of Willow House Caravan Park, where our visitors stay with us for a peaceful caravan holiday, I would not condone any noise or disturbance. We are a peaceful site with mainly older visitors. Children are not permitted on our caravan park nor are same sex groups as we value the peaceful atmosphere our customers come to enjoy. As my residence and our caravan park are situated between the yurts and our furthest boundary with the housing at Haxby I would have been aware of any nuisance had it occurred in the past. Our close neighbours at Brecks Farm also have never complained regarding any noise. Recently Miss Harper has also added soundproofing to the yurts as an extra precaution against such nuisance occurring.

We believe that Miss Harper's business, which has always been run in a proficient and professional manner, is an asset to our local area. Visitors attending weddings and other functions are likely to stay in the area and help boost other business as we all try to recover from the Corona virus lockdown period and therefore we hope that her application is viewed favourably.

Yours faithfully,

David Pulleyn
