- Where you think that this proposal has a NEUTRAL effect on any of the equality groups listed below i.e. it has no effect currently on equality groups.

It is important to remember that a proposal may be highly relevant to one aspect of equality and not relevant to another.

<p>High impact (The proposal or process is very equality relevant)</p>	<p>There is significant potential for or evidence of adverse impact The proposal is institution wide or public facing The proposal has consequences for or affects significant numbers of people The proposal has the potential to make a significant contribution to promoting equality and the exercise of human rights.</p>
<p>Medium impact (The proposal or process is somewhat equality relevant)</p>	<p>There is some evidence to suggest potential for or evidence of adverse impact The proposal is institution wide or across services, but mainly internal The proposal has consequences for or affects some people The proposal has the potential to make a contribution to promoting equality and the exercise of human rights</p>
<p>Low impact (The proposal or process might be equality relevant)</p>	<p>There is little evidence to suggest that the proposal could result in adverse impact The proposal operates in a limited way The proposal has consequences for or affects few people The proposal may have the potential to contribute to promoting equality and the exercise of human rights</p>

Step 5 - Mitigating adverse impacts and maximising positive impacts

5.1	Based on your findings, explain ways you plan to mitigate any unlawful prohibited conduct or unwanted adverse impact. Where positive impacts have been identified, what is been done to optimise opportunities to advance equality or foster good relations?
Temporary improvements to cycle route traffic management and bus stops	

Step 6 – Recommendations and conclusions of the assessment

6.1	Having considered the potential or actual impacts you should be in a position to make an informed judgement on what should be done. In all cases, document your reasoning that justifies your decision. There are four main options you can take:
- No major change to the proposal – the EIA demonstrates the proposal is robust. There is no potential for unlawful discrimination or adverse impact and you have taken all opportunities to advance equality and foster good relations, subject to continuing monitor and review.	

- **Adjust the proposal** – the EIA identifies potential problems or missed opportunities. This involves taking steps to remove any barriers, to better advance quality or to foster good relations.
- **Continue with the proposal** (despite the potential for adverse impact) – you should clearly set out the justifications for doing this and how you believe the decision is compatible with our obligations under the duty
- **Stop and remove the proposal** – if there are adverse effects that are not justified and cannot be mitigated, you should consider stopping the proposal altogether. If a proposal leads to unlawful discrimination it should be removed or changed.

Important: If there are any adverse impacts you cannot mitigate, please provide a compelling reason in the justification column.

Option selected	Conclusions/justification
No major change to the proposal	The proposal has a neutral or slightly beneficial impact on some protected interest groups.

Step 7 – Summary of agreed actions resulting from the assessment

7.1 What action, by whom, will be undertaken as a result of the impact assessment.			
Impact/issue	Action to be taken	Person responsible	Timescale
N/A			

Step 8 - Monitor, review and improve

8.1	<p>How will the impact of your proposal be monitored and improved upon going forward? Consider how will you identify the impact of activities on protected characteristics and other marginalised groups going forward? How will any learning and enhancements be capitalised on and embedded?</p>
	<p>Review impact on bus users through temporary period and undertake bus routing study to understand long term impact.</p>
